Tool Search: Eligibility Report

The Eligibility Report provides Free and Reduced eligibility information by student based on the report criteria entered.

- The Eligibility Report will list the number of Free, Reduced and Paid eligibility records per report criteria entered on the Eligibility Report editor.
- Students with an Eligibility Type of SES are not counted in the Paid count section of the report.
- Students in Campus who did not submit a FRAM Application appear on this report with an Eligibility of PAID. The Type column is blank for students with this type of default PAID eligibility.
- If the student's eligibility results from a family member's eligibility being extended to them, an **X** displays in the Source/Extended column.
- If a student has multiple Free eligibilities within the report's date range, each eligibility is included in the overall number of Free Eligibilities.
- Report information is pulled from student enrollment and student eligibility data. Campus uses the following logic to count enrollments.

If the student...	Then...
has a single primary enrollment at the school where the meal is served	the enrollment is counted on the calendar tied to this primary enrollment.
has a single secondary enrollment at the school where the meal is served	the enrollment is counted on the calendar tied to this secondary enrollment.
has multiple enrollments	the enrollment is counted according to the following criteria: the enrollment is counted based on primary/secondary enrollments, then the most recent enrollment Start Date, most recent End Date and finally most recent Enrollment ID.
