

# User Account Creation, Maintenance, and Reporting

Last Modified on 05/11/2023 2:45 pm CDT

Once a user exists as a person in Campus, a user account can be created to allow access to the Campus Application, Parent Portal, or Student Portal. This guide walks through the necessary tools to create and maintain user accounts in Campus.

## Creating and Managing Individual User Accounts

### Add User Account

Once a user account is created for a user, they can be assigned user groups, tool rights, and calendar rights. This content describes how to create an individual user account.

+ [Documentation](#)

+ [Video](#)

### Membership in User Groups

Once a user account is created, the user should be assigned to appropriate user groups. User groups are a collection of tool and/or calendar rights. When a user is assigned to a user group, they will inherit all tool and calendar rights assigned to the group.

By managing tool and calendar rights via user group membership, administrators will not need to manage rights for each user. Campus highly recommends keeping tool and calendar rights in separate user groups. For more information on creating user groups, see the [Tool Rights User Groups](#) and [Calendar Rights User Groups](#) study guides.

+ [Documentation](#)

+ [Video](#)

## Tool Rights

Tool rights determine the level of access users have to tools throughout Campus. It is highly encouraged to provide tool rights to users by assigning them to a user group. However, tool rights can be assigned to individual users if necessary.

+ [Documentation](#)

+ [Video](#)

## Calendar Rights

Calendar rights determine the schools, years, and calendars a user can view and modify. It is highly encouraged to manage calendar rights via user group membership. However, calendar rights can be assigned to individual users if necessary.

+ [Documentation](#)

+ [Video](#)

## Access Log

The Access Log details every login attempt made by a specific user.

+ [Documentation](#)

+ [Video](#)

# Mass Creating User Accounts

## User Account Batch Wizard

Student and staff accounts can be created en masse with the User Account Batch Wizard. Users accounts can be created for all students/staff in a selected school or for specific students/staff.

+ [Documentation](#)

# Disabling Student and Staff Accounts

The Disable Account option allows you to disable user accounts for all students or staff within a calendar(s) or for a specific set of users. See the following sections below for more information.

- [Disable User Accounts for All Students or Staff in a Selected Calendar\(s\)](#)
- [Disable User Accounts for All Selected Students or Staff](#)

**User Account Batch Wizard**

This tool can be used to batch create, enable or disable student and staff accounts, or flag them for password change. / update.

## Disable User Accounts for All Students or Staff in a Selected Calendar(s)

To disable all user accounts for all students or staff within a selected calendar(s):

1. Select an **Account Type**
  - **Students** - Select this option to disable all students within a selected calendar(s).
  - **Staff** - Select this option to disable all staff within a selected calendar(s).

2. Select a **Change Type** of 'Disable Account'.
3. Mark the **Disable user accounts for all students in the selected calendar(s)** OR **Disable user accounts for all staff in the selected calendar(s)** radio button.
4. Select which calendar(s) will have user accounts disabled. To select multiple calendar, hold the CTRL button while selecting each calendar.
5. To preview a list of all user accounts that will be disabled, click the **Preview Changes** button. A report will appear in CSV format.
6. To initiate the disabling of student or staff user accounts, click the **Save Changes** button. A report will appear in CSV format, detailing all user accounts disabled.

## Disable User Accounts for All Selected Students or Staff

To disable user accounts for a specific student or set of students:

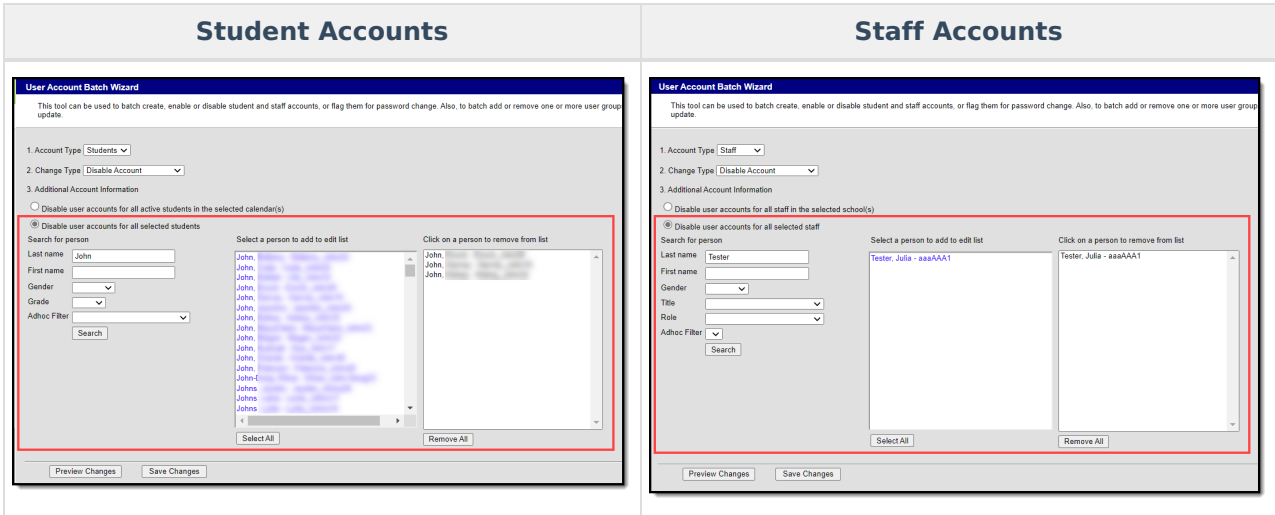

1. Select an **Account Type**
  - **Students** - Select this option to disable specific students within a selected calendar(s).
  - **Staff** - Select this option to disable specific staff within a selected calendar(s).
2. Select a **Change Type** of 'Enable Account'.
3. Mark the **Disable user accounts for selected students** OR **Disable user accounts for all selected staff** radio button.
4. Enter search criteria for the student (e.g., Last Name, First Name, Gender, Grade) or staff (e.g., Last Name, First Name, Title, Role) and click the **Search** button. Users matching search criteria will appear in the window on the right.

Search results are district-wide.

5. In the **B. Select a person to add to edit list** window, select the name of each person who will have their user account disabled. When a person is selected, their name will appear in the

**C. Click on a person to remove from list** window.

6. To preview a list of all user accounts that will be disabled, click the **Preview Changes** button. A report will appear in CSV format.
7. To initiate the disabling of student or staff user accounts, click the **Save Changes** button. A report will appear in CSV format, detailing all user accounts disabled.

Below is an example of the CSV report that will generate once the **Save Changes** button is selected (Image 20).

## Forcing a Password Change

The Force Password Change option allows you to force a password change for all student or staff user accounts in a school(s) or for a specific set students or staff.

Only students with a student user account which is enabled and does not already have the Force Password Change field selected will be forced to change their password.

See the following sections below for more information.

- Force a Password Change for All Students or Staff in a Selected School(s)
- Force a Password Change for All Selected Students or Staff

**User Account Batch Wizard**

This tool will allow for batch creation, enabling, disabling, and flagging for password change of user accounts via school filter or search and select.

Force password change for all selected students

Image 21: Force Password Change Option

## Force a Password Change for All Students or Staff in a Selected School(s)

To force a password change for all student or staff accounts in a selected school(s):

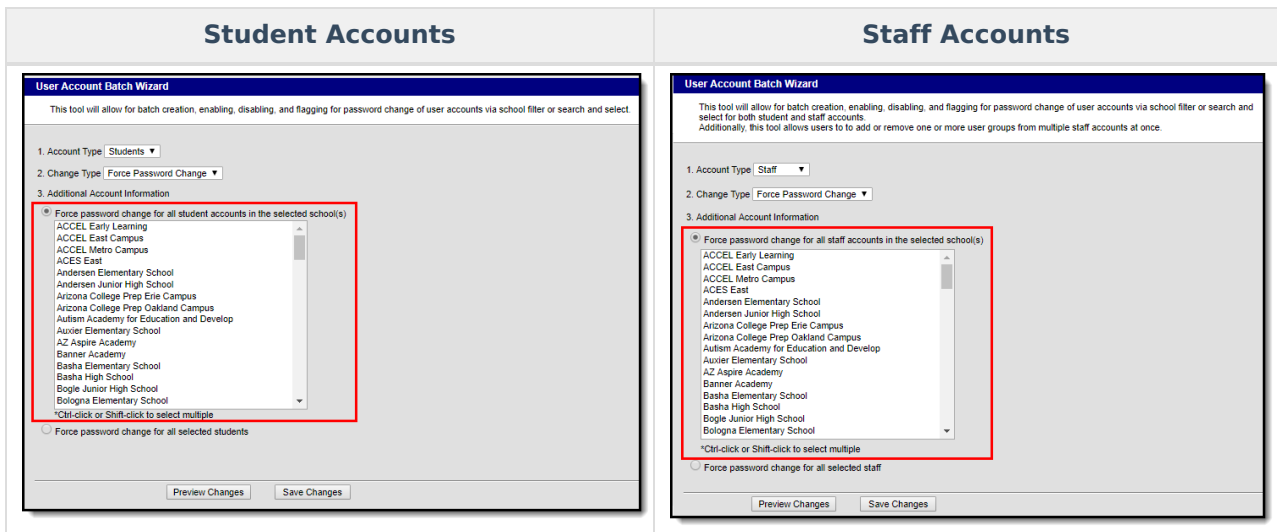

1. Select an **Account Type**
  - **Student** - Selecting this option means all students within the selected school(s) will be forced to change their password.
  - **Staff** - Selecting this option means all staff within the selected school(s) will be forced to change their password. Staff are identified based on the presence of a District Assignment record.

When forcing a password change for staff, the tool omits staff members with the following Product Security Roles: Application Security, Finance, Human Resources, Open Market Food Service, Payroll, Student Information System, Campus Learning.

2. Select a **Change Type** of 'Force Password Change'.

3. Mark the **Force password change for all student accounts in the selected school(s)** OR **Force password change for all staff accounts in the selected school(s)** radio button.
4. Select which schools will have all student or staff accounts forced to change their password.
5. To preview a list of all user accounts that will be impacted, click the **Preview Changes** button. A report will appear in CSV format.
6. To initiate the forcing of a password change for student or staff user accounts in the selected school(s), click the **Save Changes** button. A report will appear in CSV format, detailing all user accounts impacted.

Only students with an active user account, an active or future enrollment record in the selected school(s), and does not already have the Force Password Change field selected will be required to change their user account password.

## Force a Password Change for All Selected Students or Staff

To force a password change for specific students or staff:

1. Select an **Account Type**.
  1. **Student** - Select this option to force a password change for specific students.
  2. **Staff** - Select this option to force a password change for specific staff. Logic identifies staff members by looking for user accounts set with a Homepage of 'Campus Application' and then excluding some users based on their user group/product security roles.

When forcing a password change for staff, the tool omits staff members with the following Product Security Roles: Application Security, Finance, Human Resources, Open Market Food Service, Payroll, Student Information System, Campus Learning.

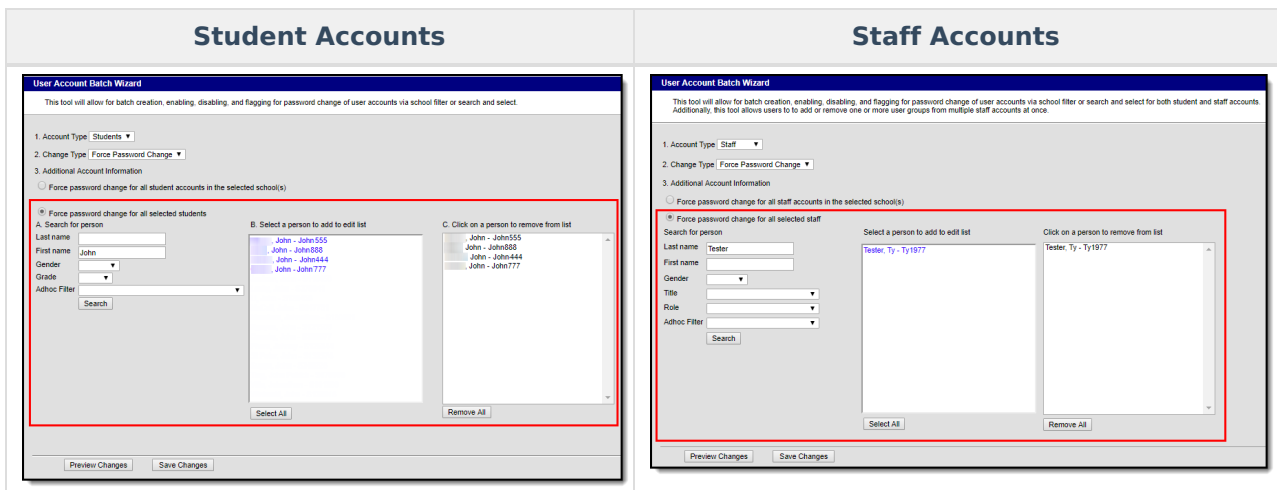

2. Select a **Change Type** of 'Force Password Change'.

3. Mark the **Force password change for all selected students** or **Force password change for all selected staff** radio button.
4. Enter search criteria for the student (e.g., Last Name, First Name, Gender, Grade) or staff (e.g., Last Name, First Name, Title, Role) and click the **Search** button. Users matching search criteria will appear in the window on the right.

Search results are district-wide.

5. In the **B. Select a person to add to edit list** window, select the name of each person who will be forced to change their password. When a person is selected, their name will appear in the **C. Click on a person to remove from list** window.
6. To preview a list of all user accounts that will be impacted, click the **Preview Changes** button. A report will appear in CSV format.
7. To initiate the forcing of a password change for all selected students or staff, click the **Save Changes** button. A report will appear in CSV format, detailing all user accounts impacted.

Only selected students with an active user account, an active or future enrollment record in the selected school(s), and does not already have the Force Password Change field selected will be required to change their user account password.

Below is an example of the CSV report that will generate once the Save Changes button is selected (Image 20).

## Adding User Groups to Staff Accounts

User Groups can be assigned to all staff user accounts within a school or for a specific set of staff members. This functionality is useful in mass applying calendar rights and tool rights for all staff members in a school or for a specific set of staff members (e.g., all teachers, specific counselors, etc).

User Groups are broken into the three following categories:

- **Tool Rights Groups** - These groups only contain tool rights and do not assign calendar rights.
- **Calendar Group** - These groups only contain calendar rights and do not assign tool rights.
- **Mixed or Empty Group** - These groups assign a combination of tool and calendar rights or they are blank and contain no calendar or tool rights at the moment.

By separating user groups into these categories, users have more control over what types of rights are assigned and can easily identify and sort through different user groups when assigning.

**User groups containing all schools and all calendars cannot be added to staff accounts via the User Account Batch Wizard. User accounts requiring all schools/all calendars must be handled manually.**

See the following sections below for more information.

- [Add User Groups for All Staff in a Selected School\(s\)](#)
- [Add User Groups for Specific Staff Members](#)

### User Account Messenger

The User Account Messenger is used to send user account-related emails to students, staff, or parents/guardians who meet the selected filter criteria. This tool is primarily used to send activation messages to users without Portal accounts or to inform users who have had an account created by the User Account Batch Import tool.

## User Account Messenger Scheduler

The User Account Messenger Scheduler is used to establish recurring user account-related messages to be sent on a daily, weekly, or monthly schedule. This tool is useful in establishing recurring account activation emails for accounts created via the Account Security Preferences tool and the User Account Batch Wizard.

## Updating Existing User Accounts

### User Account Type Wizard

For existing user accounts, the User Account Type Wizard allows you to convert accounts from using Local Campus Authentication to SAML SSO or LDAP authentication.
