The CALPADS Student Discipline (SDIS) Extract is used to submit student discipline information in the End of Year 3 reporting period. There are three separate files included in this version:

- **Student Incident File (SINC)**, which generates one record for every incident that has an event with a state code, a resolution with a state code, or a restraint/seclusion response associated to the incident.
- **Student Incident Result File (SIRS)**, which generates one record for every resolution that has a state code or a restraint/seclusion response associated to the incident.
- **Student Offense File (SOFF)**, which generates one record for each student associated to an incident that has an event with a state code.

CALPADS Student Discipline

This is a version of the 2019-2020 Student Discipline extracts. There are 3 extracts that are needed for CALPADS reporting

Student Incident File - Generates one record for every incident that has an event with a state code, a resolution with a state code or a restraint/seclusion response attached to the incident.

Student Incident Result File - Generates one record for every resolution that has a state code or a restraint/seclusion response attached to the student.

Student Offense File - Generates one record for each student attached to an incident that has an event with a state code.

Report Logic

All behavior incidents that are either tied to a Behavior Event that is assigned a State Code or a behavior response that is associated with a restraint or seclusion report. The Reporting Year is July 1 through June 30.

Only incidents in which the behavior event has a state code and/or the behavior resolution has a state code that is not equal to 300 or 400, OR if multiple resolutions exists, at least one state must not equal 300 or 400. For example, when a student has a behavior event with no state code and a resolution with only 400, nothing reports. When a student has a behavior event with no state code, resolution code of 400 and resolution of 100, then both resolutions report.

All reportable events within the same Incident ID and same Incident Number report.

Each reportable Behavior Event has one record. When a student is assigned multiple Behavior Resolutions for the same event, all state resolutions associated with that event report, including behavior responses with restraints and seclusions.

The following students do not report:

- Student not marked as Offender.
- Students who do not have a State ID.
- Students who have Behavior Referrals that are in draft status or In-Progress Behavior Incidents.
- Students marked as state exclude, in grade levels marked as state exclude or in calendars marked as state exclude.

Incidents containing students marked as Offender with Behavior Events (State Event Code 100-105, 200-205, 300, 400-401, 403, 500-513, 600-602) with a resolution of **Suspension** or **Expulsion** (State Resolution Codes: 3, 100, 110, or 200) report. The Event Date must be during the current Reporting Year (July 1 to the following June 30).

- When a student has multiple reportable Offenses in an Incident, only one Offense needs to have a reportable Resolution associated with it. The same Resolution Code and other related data reports for all of the student's Offenses in the Incident.

Each applicable behavior event/resolution within the Incident has one record. Multiple records report with the same Incident ID when there are multiple Events with reportable codes (100-105, 200-205, 300, 400-401, 403, 500-513, 600-602). All students with reportable events/resolutions within the Incident report with the same Incident ID.

When the student has multiple reportable resolutions linked to the same event, only the final resolution reports. The final resolution is identified as:

- The reportable resolution with the most recent Start Date.
- When there are multiple reportable resolutions with the same start date, the order of priority is State Resolution Code 200 (1), 3 (2), 100 (3), 110 (4), 300 (5).

Non-Binary Gender Reporting

Schools can assign students a gender of M: Male, F: Female or X: Non-binary. This is done on the [Identities](#) tool and/or the [Demographics](#) tool.

CALPADS Extracts use the Legal Gender field included in the Protected Identity Information to report student identity information.

To properly record a gender of X: Non-Binary, on the Identities tool:

1. Assign the **Gender of X: Non-Binary** in the standard identify fields.
2. Assign the **Protected Identity Information Legal Gender** field to either M: Male or F: Female.
3. Save the record when finished.

The screenshot shows the 'Identities Editor' interface. At the top, a table lists student identities with columns for Identity, Current, Effective Date, Birth Date, and District. The selected record is for 'Student, Luke W' with a current status of 'X', an effective date of '07/30/2007', a birth date of '06/10/2002', and a district of 'Calaveras Unified'.

Below the table is the 'Identity Information' section, which includes fields for PersonID (2318), Last Name (Student), First Name (Luke), Middle Name (Wesley), and Suffix. The Gender field is set to 'X: Non-binary' and the Birth Date is '06/10/2002'. There is also a 'No Image Available' message.

The 'Protected Identity Information' section is expanded, showing 'Legal Last Name' (Student), 'Legal First Name' (Luke), 'Legal Middle Name', and 'Legal Suffix'. The 'Legal Gender' field is set to 'Female'. At the bottom, there is a 'Race/Ethnicity (Edit)' field.

Validate SDIS Data

Use the [Data Validation Report](#) to correct any student data prior to the submitting the CALPADS file to the state. Validation Groups and Validation Rules are provided by Infinite Campus for a specific CALPADS extract (listed below). These groups are used to return certain rules assigned to each group.

- [CALPADS SSID Enrollment](#)
- [CALPADS Student Information](#)
- [CALPADS Student Programs](#)
- [CALPADS Student English Language Acquisition](#)
- [CALPADS Student Discipline](#)

- [CALPADS Staff Assignments](#)
- [CALPADS Course Section](#)
- [CALPADS Student Course Section](#)
- [CALPADS Work-Based Learning](#)
- [CALPADS Postsecondary Status Summary](#)

Modifications to the Validation Rules and Validation Groups can be made if your district has purchased the [Campus Analytics Suite](#); otherwise, they are read-only.

Users can select the **Missing or Incorrect Data** Validation Group, which returns any missing or incorrect data that is reported in the CALPADS Extract, like a missing enrollment exit reason or an incorrect date, for example.

Note that examples refer to CALPADS SENR.

Instructions

The Data Validation Report returns results from the Data Validation Group selected. The Summary section includes the number of occurrences for each Data Validation Rule; if a Baseline Rule is used its Total population will be returned along with the Rate of the primary Rule compared against the Baseline Rule. State Owned Data Validation Groups can be run against the State Dataset via DIS.

The following fields are available on the Student Discipline Extract.

Field	Description
Report Type	Indicates which file generates. Select one of the following: <ul style="list-style-type: none"> • Student Incident File • Student Incident Result File • Student Offense File
Transaction Type	Indicates the type of transaction that occurs - Replace or Delete.
Format	Determines how the report generates. Select State Format (Caret Delimited) when submitting records to the state. Other formats available for testing and review purposes are CSV and HTML.
Report Participants	When marked, reports a record for students when their behavior incident role is Participant the same way as when their behavior incident role is Offender.

Field	Description
Ad hoc Filter	Select which students to include in the extract, when desired, by choosing a filter that was created in the Filter Designer .
Calendar Selection	Select the calendar(s) of enrollment from which to pull student data. Calendars can be chosen by the active year, by the school name or by the year.
Report Generation Options	Choose the Generate Extract button to display the results of the chosen items immediately. Choose the Submit to Batch option to generate the report without affecting general system usage. This option is helpful when generating large amounts of data.

Generate the Student Discipline File

1. Select the desired **Report Type** from the dropdown list.
2. Select the **Transaction Type** from the dropdown list: **Replace** or **Delete**.
3. Select the **Format** of the file. Choose the State Format (Caret Delimited) when submitting records to CALPADS.
4. Mark the **Report Participants** checkbox, if desired.
5. Use the **Ad hoc Filter** to select students already included in a filter. This is not required. When not chosen, all students who have reportable behavior records are included.
6. Select the **Calendars** to include in the file.
7. Click the **Generate Extract** button. Or generate the extract through the Batch Queue using the **Submit to Batch** button. The file appears in a new window in the selected format.
