Technical Information

See the Technical Information - Release Pack Campus.2028 article for a list of schema changes in this release.

Academic Programs

Academic Planning – Course Plan Report and Progress Report display active school year in header (SIS-135579) **[Enhancement]**

Previously, both the Course Plan Report and Progress Report (when printed from Campus Student/Parent Portals) displayed the school year of the student's future-most enrollment in the report header. This has been corrected to display the current (active) school year, matching what displays if the reports are printed from the Campus Application.

Students who do not have an active enrollment in the current school year will see the school year of their next (future) enrollment display.

Academic Planning –Using the Batch Assignment Tool with a Pass Through SQL Query (SIS-134997)

The Batch Assignment Tool does not support a Pass-through SQL Query containing an "Order By" statement where the field values included in the 'Order By' are not field values found in the 'Select' clause (i.e personID/CourseID).

Order By statements are manually entered into Box B of the Pass-through SQL Query tool. When writing a statement, only include fields found in Box A's 'Select Clause' or an error will occur.

Academic Planning – Security error produced when attempting to view Progress and Course Plan tabs (SIS-137652)

Multiple areas related to viewing student academic program, progress and course plan information were impacted by a security error if a user did not have RW access to Student Information > Academic Planning > Programs. The following areas were affected and have been fixed.

- Student Information > Academic Planning, users were receiving an error when attempting to view the Progress and Course Plan tabs.
- Campus Student and Campus Parent applications, users were unable to open the Course Plan and a security error would display.
- Student Course Recommendations, teachers were unable to save course recommendations entered through the Student Course Recommendations tool in Campus Instruction.
- Fixes have also been made to any report where Progress and Course Plan data can be pulled including Program Admin reports, Ad hoc Reporting using Course Plan subreport, Messenger messages using Course Plan subreport and Early Warning curriculum details.

Activity Registration

New Activity Registration Module (SIS-136967) **[Enhancement]**

A new module called Activity Registration is now available for districts that also use the School Store. The Activity Registration module provides districts with a tool for managing activities that require a registration process including a registration packet, payment, and a roster.

Registration and payments are completed in the School Store. Activities display in the School Store based on registration dates that the district controls. An Activity Roster in Campus displays all registered students and allows the district to identify which students have paid and completed their required forms.

To use the Activity Registration module, districts must first set up supplemental Activity Registration documents in the Custom Forms tool and create an Ad Hoc filter for selecting eligible students. For more information, see the Activity Registration documentation.

Ad hoc Reporting

Filter Designer - Grouping and Aggregation Display (SIS-135519)

Filters that use Grouping options were not displaying the results without the user choosing the Simple HTML view. This has been corrected.

Article(s): Filter Designer

Path: Ad hoc Reporting > Filter Designer

Attendance

Attendance Letters – Students not triggering to receive attendance letters (SIS-135610)

A fix has been made to attendance letters to include all students whose attendance marks qualify them to receive a letter trigger when 'Preview' is selected. Students are included when they have an active enrollment (Primary or Partial) in the current (active) school year.

Article(s): Attendance Letters

Path: Attendance > Attendance Letters

Attendance – Consecutive Absence Report errors out when multiple calendars are selected (SIS-136666)

The Consecutive Absence Report has been fixed allowing the report to generate without error when multiple calendars are selected. This includes the Submit to Batch option when generating the report.

Blended Learning

See the Release Notification for Blended Learning for additional information.

Blended Learning Schedules (SIS-138055) **[Enhancement]**

New scheduling tools for Blending Learning classroom and instruction is now available. Schools can create learning groups, allowing each student to be designated as a virtual learner, a physical (on-site) learner, or a learner who alternates between virtual instruction and physical instruction.

This is the first in a series of enhancements related to Blended Learning as you prepare your

building for students to return to school in the fall. Look for additional enhancements in the next release.

Calendar Days - Blended Learning Group Display (SIS-138506) **[Enhancement]**

As part of the new Blended Learning tools, the Calendar Days tool now includes indication of the Blended Learning Group assigned to the selected day. Days can be assigned to a Blended Learning Group en masse through the Scheduling > Blended Learning tools, or manually added/modified on the Days tool.

Blended Learning Group Assignment is not impacted by the Day Reset function, but is removed by the Day Rotation function if the Day Rotation is used AFTER the Groups have been assigned.

This is part of a series of enhancements related to Blended Learning as you prepare your building for students to return to school in the fall. Look for additional enhancements in the next release.

Path: Instruction > Progress Monitor

Data Extract Utility

Data Extract Utility Bug Fixes (SIS-138687)

The Pathname field has been increased to a size of varchar 100. A district who had previously altered this field length and were impacted by the size increase has been fixed. Also, very long SQL queries were causing issues when trying to test the extract or connection. This issue was corrected.

Article(s): Data Extract Utility

Path: System Administration > Data Utilities > Data Extract Utility

Data Integrity Tools

Data Validation Tools Updates (SIS-135583) **[Enhancement]**

The User Interface for the Data Validation tools has been updated to be more user friendly. The tools have also been updated to allow more control over DIS, and Stored Procedures are now supported.

Full Access to the new Data Validation tools has been made available to State Editions and Restricted Access has been made available to state-linked District Editions. Full Access will be made available to District Editions that have licensed the Data Analytics Suite in the future. Restricted Access will also be

made available to all other non-state-linked District Editions in the future.

Fees

New Options for Hiding Fees from Campus Parent & Campus Student (SIS-133966)
[Enhancement]

Districts can now control which fees are visible in Campus Parent and Campus Student. When creating a fee, there are two new checkboxes on the Fee Editor: Display on Parent Portal and Display on Student Portal. These checkboxes are automatically marked when creating a new fee. As part of this change, existing fees will also have both checkboxes marked. To hide a fee from Campus Parent or Campus Student, clear the appropriate checkbox(es).

Team Members Role Field Update (SIS-132654) **[Enhancement]**

Several updates have been made regarding the Team Members Role fields:

- The Role dropdown has been removed from the Team Member Enter New Team Member tool for all modules.
- The Role dropdown on the Find and Link New Team Member tool has been renamed to Caseload Role for the PLP and Special Ed modules (ILPA for Kentucky users).
- Roles that are no longer used have been removed as options for the Role dropdown, including View Only, Read Only, Write, and Advisor. These roles do not have any additional functionality.

Special Ed Caseload Update (SIS-134610) **[Enhancement]**

The Special Ed Caseload has been updated both visually as well as functionally. Updates include:

- a new look and feel to match the updated Campus UI designs.
- the caseload can now be exported as a PDF and/or to Excel.
- the caseload can now be easily sorted to find students.
- students display in the caseload when the person is either the role of Case Manager or Service Provider selected on the student's Team Members tool.
- information displays based on the most recent Special Ed Evaluation and Special Ed Plan.

Special Ed Service Log Update (SIS-137553)

Previously, the Special Ed Service Log was only pulling the Special Ed Setting from those states that captured this data on the IEP. However, several states, including Wisconsin, Montana, and Maine, have localized tools that capture this data instead of within the IEP itself. With this update, the Service Log now pulls Special Ed Setting information from these tools instead of the IEP when applicable.

A new tool right under the Service Log has been added called Override Dates. This right is either turned on or off and users must have at least Add rights to the Service Log in conjunction with this right. This right allows users to enter records on the Service Log that fall outside of the selected Plan dates.

Arizona - Ed-Fi v3.3 Student Education Organization Association and Student Special Education Program Association Updates (SIS-137955)

The following updates to Ed-Fi have been made for the 2020-21 school year:

- The Student Education Organization Association resource has been updated to report the new values from the Tribal Affiliations dropdown.
- The Student Special Education Program Association resource has been updated to report the assessmentOutcomes array. The ‘H Homebased/ Homebound / Hospital Program’ Special Ed Setting value has been renamed to ‘H Home Placement / Hospital Program’.

If districts had previously sent IEP data for the 2020-21 school year using the Homebased setting, a resync on the Student Special Education Program Association resource needs to be completed.

If districts need to send assessmentOutcomes data with their IEPs for the 2020-21 school year, then an

Evaluation Document should be created and locked.

Any district that has already created their 2020-21 Ed-Fi configuration will need to delete it and recreate it for the new Tribal Affiliations to auto map to the proper Ed-Fi code in the configuration. Any data that has already completed a sync with AzEDS will remain synced.

Colorado - School Discipline and Attendance, School Association Updates (SIS-136851)

The following modifications have been made to the reports listed below:

School Discipline and Attendance Reports - Discipline by Action, Discipline by Student Demographic and Firearm Discipline Files:

- The extract editors for all three available reports include a Start Date, End Date and Type fields. A Summary Report Type and a Detail Report Type are now available.
- On the Detail Report Types, the following applies:
  - The reports no longer report consolidated counts. They now report at a student level per line.
  - The SASID/LASID field has been renamed to LASID and now reports the student number for the student associated with the discipline event being reported.

- The reports only consider discipline events that occurred during the reporting period (between the entered start and end dates).
- Each field included in the report only reports for the student associated with the record.
- For the Discipline by Student Demographic File, the Other Action field reports a count of Behavior Resolutions with a code of 07: Other Action Taken or 09: Removal Other, Death, Incarcerated, etc. Only resolutions mapped to these codes are included.

Student School Association

- The Effective Date field remains and also includes an Attendance Start Date and Attendance End Date fields. The Count Date has been removed.
- The following fields use the Start Date and End Date values entered on the Extract Editor to determine values:
  - Total Days Attended
  - Total Days Excused

Virginia

Virginia - Student Record Collection (SRC) Update (SIS-138364)

The following fields were updated to only report a value when the student's enrollment's End Status = W730 or W731.

- Locally Awarded Verified Credits (122)
- Special Permission Locally Awarded Verified Credits (123)
- Credit Accommodation Codes (124)

If the student's enrollment end status does not equal W730 or W731, the fields report blank even if there is data to report. The reporting logic considers the active enrollment as of reporting Snapshot Date or the

student's most recent enrollment for the End Status = W730 or W731.
