Maine Student Exit Report Editor

Report Logic

Logic determines the report population as follows:

- Report a record for *each* enrollment record associated with the Calendar(s) selected in the extract editor where the student has an enrollment end date that is \leq extract editor

effective date

- Students with enrollment records marked State Exclude are excluded from reporting.
- Students with enrollment records marked No Show are excluded from reporting.
- Students in Grade Levels marked Exclude from state reporting are excluded from reporting.
- Students in calendars marked Exclude are excluded from reporting.
- Enrollment records with a Start Date that is greater than the Effective Date entered on the extract editor are not included.

Generating the Extract

1. Enter the Effective Date. Only enrollment records with a Start Date greater than this date and in the selected calendar(s) are included.
2. Select which **State Grade Levels** will report data.
3. Select which **Calendar(s)** will report data.
4. Select the report **Format**. For submission to the state, select the CSV (State Format).
5. To further narrow results, select an **Ad Hoc Filter** (optional).
6. Decide if you want to generate the report or send the report to the state:

Generate Report	Click the Generate Report button to immediately generate the report. The report will appear in a separate window in the designated format.
Submit to Batch	Clicking the Submit to Batch button to send the extract to the Batch Queue List. Batch Queue functionality provides the ability to schedule when the extract is generated and allows users to navigate away from the Student Exit Report editor while the extract is being built. The Batch Queue List also lets users view and access historical Special Education Reports which were run through the Batch Queue tool.
Send to State	<p>Clicking the Send to State button will send the report data to the state system (Synergy). Reports sent to the state will appear in the Web Service Queue List where you can view its current status (Status), view all data sent to the state (View Submission), and review any errors returned from the state (View Result).</p> <div style="background-color: #fff9c4; padding: 10px; border: 1px solid #ccc;"> <p>This functionality requires proper Web Service Account and Web Service Configuration setup.</p> </div>
