

# Minnesota Homeless

Last Modified on 03/11/2024 8:46 am CDT

**PATH:** *Student Information > Program Participation > Homeless*

The Homeless tab records basic homeless information as well as district-defined fields.

## Homeless Tab

The list of homeless records is sorted by Start Date.

Previously, homeless fields were stored on the Enrollment tab. Using a separate homeless tab allows these records to have more accurate dates representing the student's period of homelessness. (Currently, the [MARSS B Extract](#) still reports from the Enrollments tab.)

The homeless tab includes the following fields:

Field	Description
<b>Homeless Nighttime Residence</b>	The nighttime residence of the homeless student.
<b>Unaccompanied Youth</b>	Indication of whether the student is unaccompanied by a parent/guardian.
<b>McKinney Vento</b>	Indication of whether the homeless student is being served by a McKinney-Vento program.
<b>Start Date</b>	The first day the student was considered to be homeless.
<b>End Date</b>	The last day the student was considered to be homeless.

Records cannot have overlapping dates.

# Custom Fields and Tabs

Districts have the option of adding district-specific elements to the Homeless tab or district-specific tabs.

The [Custom Attribute](#) article explains how to add a field to the Homeless tab. Select *Homeless* as the **Screen Location**.

See the [Custom Tab](#) article for instructions on adding a district-specific tab. Select *Homeless* as the **Tabset** and then use the [Custom Attribute](#) tool to add fields to the tab.
