Rx Pack - Campus.2016

Last Modified on 10/31/2025 3:12 pm CDT

The following corrections are included in Rx Packs for April and May 2020. Rx Packs contain a small number of critical cases to fix urgent issues, with delivery in an immediate time frame (e.g., the fix cannot wait for the next four week Release Pack).

It is recommended that customers apply all subsequent Release Packs immediately following Rx Packs. Doing so will benefit both customers and Infinite Campus when it comes to supporting the patch.

Rx Packs are cumulative; each Rx pack will automatically include all previous Rx packs within that release. These cases will also be included in the Campus.2020 pack unless otherwise noted.

Below is a list of all Rx Packs for Campus.2016 and the date of availability:

- Rx Pack Campus.2016.8 - Thursday, May 21, 2020
- Rx Pack Campus.2016.7 - Friday, May 15, 2020
- Rx Pack Campus.2016.6 - Friday, May 8, 2020
- Rx Pack Campus.2016.5 - Thursday, April 30, 2020
- Rx Pack Campus.2016.4 - Wednesday, April 22, 2020
- Rx Pack Campus.2016.3 - Friday, April 17, 2020
- Rx Pack Campus.2016.2 - Wednesday, April 15, 2020
- Rx Pack Campus.2016.1 - Monday, April 13, 2020

Security

Content Security Policy Tool Default Set to Disabled (SIS-137744)

To alleviate performance issues caused by large amounts of CSP violations, the default value of the Content Security Policy tool has been set to Disabled.

Note: The value change affects all users, including those who have enabled CSP or are currently using the Report Only option. Once this update is taken, users will need to manually go back into the Content Security Policy tool and select Report Only or Enable CSP.

Grading & Standards

Snapshot Comparison Report (SIS-137206)

A new report, Snapshot Comparison, is now available that districts can use to identify a student's score in a class prior to distance learning. The report compares a student's posted grades and in-progress grades against a snapshot of what their grade would have been had it been calculated based only on assignments due between the entered start and end dates.

Path: Grading and Standards > Reports > Snapshot Comparison

Copy Course Master - Catalog Selection (SIS-137458)

When copying a Course Master, a catalog could not be selected. This has been corrected.

Path: Grading and Standards > Course Master > Copy Course Master

Campus Instruction

Section Summary Report (SIS-136620)

Previously, some users experienced an abnormal termination error when generating the Section Summary report. This has been corrected for most districts and an additional case is being worked on to address this issue in districts where it is still occurring. If your district is experiencing this error after taking this release, please submit a new Support case and Campus Support will link it to the outstanding issue.

This error occurs when generating the report in PDF format; Campus recommends using the .DOCX format as a workaround until this issue is fully addressed.

Path: Campus Instruction > Reports > Section Summary

Federal Programs

Federal/State Program Updater Bug Fix (SIS-137298)

An error was occurring in the Federal/State Program Updater tool where the State Edition's Import function was blocked from updating existing State-owned records if an overlapping District-owned record was present. This issue has been resolved.

Path: Program Admin > Federal/State Program Updater

Finance

Update for Editing Invoices (SIS-137299)

An error was displaying when users tried to save changes to an invoice in Entry status. This issue was fixed.

Localization - Arizona

Arizona - Ed-Fi v3.1 CTE Reporting Updates (SIS-137138)

The triggering logic for the Class Periods resource has been updated to only send a record for each unique period name. The Put triggering logic for Natural Key changes has been removed. The classPeriodName element in the Class Periods resource has been updated to only report the period name.

The Course Schedules array has been updated to report scheduleDate and instructionalMinutesPlanned for each date the course meets in a calendar, instead of only

recording it for the first day the course meets.

A resync on the Class Periods and Course Offerings resources needs to be completed with this update.

Path: System Administration > Ed-Fi

Arizona - Ed-Fi 21st Century Community Learning Centers Cycle 15 Program Update (SIS-137258)

The 21st Century Community Learning Centers Cycle 15 Program has been added to the list of hard coded programs names. This will resolve any errors received when adding a Student Flag with this program value.

Attendance

COVID-19 Attendance and Calendar Modifications (SIS-136720)

To further assist districts in recording attendance for distance learning, modifications that convert assignment data into actual attendance data have been made:

- Attendance Codes - A new checkbox was added, called **Allow assignment-based attendance modification**. When marked on an Attendance Code, the code is made available for selection in Enable Attendance Posting on the Calendar. It is recommended that a new attendance code be created for this purpose, rather than adding the checkbox to a previously created code.
- Calendar Details - New attributes added in another update for distance learning have been reorganized into a **COVID-19 Assignment-Based Attendance** section. The following fields are available:
  - **Enable Attendance Assignment Insert** (previously named **COVID-19 Attendance Teacher Only**). This indicates that a COVID-19 assignment should be created in every section of an attendance-taking course on an attendance day that it is scheduled in an instructional period. When the related Task runs, assignments are created. Subsequent fields are dependent on this field being checked.
  - **Enable Student Assessment** (previously named **COVID-19 Attendance by Student**). This indicates that a quick assessment linked to the assignment created above will be created for students to enter attendance in Campus Student. When the related Task runs, assessments are created. Campus Learning must be enabled for this to happen.
  - **Enable Attendance Posting**. This indicates that attendance will be posted to the attendance table based on scores and flags in the COVID-19 assignments when the related Task runs.
  - **Attendance Posting Date**. This indicates the earliest date for which attendance will be posted to the attendance table. Every time the Task runs, attendance from the Start Date forward will be reviewed and updated based on scores and flags in the COVID-19 assignments.
  - **Attendance Posting Code**. This indicates the Attendance Code that will be posted on the date/period when a COVID-19 assignment has scores or flags that indicate non-participation/absence. The list of codes is populated with the Attendance Codes that are checked marked for **Allow assignment-based attendance modification** as described above.
