Technical Information

See the [Technical Information - Release Pack Campus.2012](#) article for a list of schema changes in this release.

Academic Programs

Academic Planning (SIS-123027)

When a teacher added a course recommendation in a previous year to a student's course plan that did not result in the student successfully being scheduled into the recommended course, teachers in subsequent years were unable to recommend that same course. This has been corrected.

Article(s): Recommend Future Courses for Students

Path: Campus Instruction > Student Course Recommendation

Academic Planning (SIS-132581)

Tool rights for the Academic Planning toolset have been updated to allow for users to administer and manage student programs without needing the administrative tool rights to view and create the programs.

Article(s): Academic Planning (Student Information)

Path: Student Information > General > Academic Planning

Academic Planning (SIS-134409)

When a course included a 'Course Rotation' Planning Rule, the portal display was inconsistent when the rule's rotation was greater than two years. This has been corrected.

Article(s): Academic Planning (Student Information)

Path: Student Information > General > Academic Planning

Academic Plan Status Report (SIS-134613)

The Academic Plan Status Report was not including on-track students when generated in CSV format. This has been corrected.

Article(s): Academic Plan Status Report

Path: Program Admin > Reports > Academic Plan Status Report

Academic Programs (SIS-135652)

For districts in OH and WI, the 'State Reported' checkbox and 'Program Type' droplist were missing from the Academic Programs interface. This has been resolved with the restoration of the fields.

Article(s): Academic Programs

Path: Program Admin > Programs > Academic Programs

Activities/Sports

Activity Eligibility Report (SIS-133897)

The Activity Eligibility Report was printing incorrectly in both PDF and DOCX formats. This has been corrected.

Article(s): Activity Eligibility

Path: Student Information > Reports > Activity Eligibility

Ad hoc Reporting

Today's Date Student Ad Hoc Fields Added (SIS-132268) [Enhancement]

The following ad hoc fields were added to the student view to allow for reporting today's date values in ad hoc and messenger tools:

- student.currentDate
- student.currentdatePrintFormat
- student.currentTimestamp

Article(s): Ad hoc Reporting

Path: Ad hoc Reporting > Filter Designer > Student > Demographics

Ad hoc Reporting Filter Designer - Exporting to Excel or PDF with a Concatenate Function (SIS-133873)

When exporting a filter that included a Concatenate Function to either Excel or PDF caused display issues, including an error message and html tags. This has been corrected.

Article(s): Filter Designer

Path: Ad hoc Reporting > Filter Designer

Assessment

Test Results Report (SIS-132893)

The Test Results Report was not filtering on selected grade levels or a result option. This has been corrected. In addition, the following text changes have also been made:

- The Score Type Section now reads as 'Which Score Type(s) would you like to include on the report?'
- When 'Include only tests that students have not taken' is marked, the 'Which results would you like to include in the report?' and 'Which score Types would you like to display in the report?' are not available for selection. This also applies to the Student Assessment Summary available in Campus Instruction.

Article(s): Test Results

Path: Student Information > Reports > Test Results

Attendance

Attendance Wizard (SIS-120838)

When using the 'Period' mode in the Attendance Wizard, 'Current Period' time was using military time. This has been updated to the 12 hour AM/PM time.

Article(s): Attendance Wizard

Path: Attendance > Attendance Wizard

Attendance Letters (SIS-124197)

When generating an attendance letter, 'Qualified Date' was sorting numerically. This has been updated and generated letters will sort by the date the student qualified to receive the letter based on the entered qualification criteria.

Article(s): Generate and Print Attendance Letters

Path: Attendance > Attendance Letters

Attendance (SIS-134355)

When a large number of periods or period schedules exist, certain views of a student's attendance will not display all period absences correctly. This has been corrected.

Article(s): Attendance (Student)

Path: Student Information > General > Profile; Campus Student; Campus Parent

Behavior

[Behavior Audit Attendance Report \(SIS-85143\)](#)

The following modifications have been made to the Behavior Audit Attendance Report:

- Roster start and end dates are now considered when including a student in the Behavior Resolutions without a Selected Corresponding Attendance Code report.
- An Attendance Date column (Attn Date) now displays for the Behavior Resolutions without a Selected Corresponding Attendance Code report.
- Multiple School Months can now be selected for states that use School Months.
- The report editor note has been updated.

Path: [Behavior](#) > [Reports](#) > [Behavior Attendance Audit](#)

Calendars

[Ability to Delete Unwanted Calendars \(SIS-122902\) \[Enhancement\]](#)

With proper assigned tool rights, users can now delete calendars that were created in error or as part of the scheduling process and are no longer needed using the new Mark for Deletion option on Calendar Details and the new Delete Calendar tool.

This process is two-fold.

1. Marking a for deletion (Calendar Details). This means a user can select a particular calendar to be deleted and add a comment as to why it's being deleted. The calendar can also be unmarked for deletion.
2. Removal of calendars that are marked for deletion (Delete Calendar). This involves viewing a list of calendars that have been marked for deletion, validating those calendars, previewing the calendars, deleting those calendars, and printing a report of those deleted calendars.

A user who marks a calendar for deletion may not be the same person who performs the deletion of calendars. Those responsible for scheduling may have the ability to mark unwanted calendars for deletion, but the Campus Administrator may be the one who performs the removal of calendars. Tool rights are required for both the Mark Calendar for Deletion process and Delete Calendars process. See the articles below for information on tool rights.

Campus Parent and Amazon Alexa (SIS-135409) [Enhancement]

Infinite Campus has integrated with Amazon Alexa to provide parents with access to select Campus Parent information via Alexa. This functionality is available as of GA of this release, with the Infinite Campus Alexa Skill available in the Alexa Store.

Parents in districts with both Campus Learning and Campus Messenger licenses have the option of enabling this Alexa skill if they so choose. The same district-managed Portal Preferences and other settings that determine what displays in Campus Parent also apply to data accessed through the Infinite Campus Alexa Skill. Parents in districts with licenses to both products will see a notification in Campus Parent that the Infinite Campus Alexa Skill is available. Parents may then choose to configure the connection to Alexa by following the instructions in Campus Parent.

Ed-Fi – Core Versions Release, Bug Fixes, and Certificate Import Tool (SIS-134331)

The Core Ed-Fi API for version 2.x and 3.1 have been made available with this release.

The Certificate Import Tool has been made available to allow users the ability to import Certificates needed for Ed-Fi that Campus does not support.

The following bug fixes have been made for the Core Ed-Fi solution:

- The gradingScore element was still processing and hitting the Event Queue when the Configuration had the Grades resource off when there was a 3.x and 2.x configuration. This has been updated for gradingScores to look at the configuration preferences for the year they are aligned to. If aligned to v3.1 and Grades is turned off, the events will not enter the Event Queue. If aligned to version 2.x, the scores will enter the Event Queue but not send to the ODS.
- The Resync checkboxes were occasionally being grayed out after a resync was completed. This issue has been resolved.
- The Resync Indicator on the Event Queue has been updated to 'Released' once a resync is completed.
- Triggers were previously not getting updated when configurations were edited in a site with DCT enabled. This issue has been resolved.
- Ed-Fi tool rights will now be hidden when the Ed-Fi Preference is set to OFF.
- A session override will not be created from a course until at least one section placement exists.

Wisconsin - Ed-Fi v3.1 Student Language Instruction Program Association and Student Education Organization Association Updates (SIS-134456)

The following updates have been made to the Student Language Instruction Program Association (SLIPA) resource:

- The serviceStartDate and serviceEndDate elements have been removed from reporting in the Language Instruction Program Services array.
- The logic for reporting EL Services has been updated to report the service if it falls between the enrollment start and end dates. If a student has multiple services mapped to the same Ed-Fi SLIPA records with different start dates that occur within the reported enrollment, then the service is only reported once per reported SLIPA record.
- The resource preferences for the Student Language Instruction Program Association resource have been updated to include a mapping for EL Service Types. Only state owned service types will be available to map.
- The monitoredDescriptor has been updated to send through the entire year of 2nd year monitoring.

The limitedEnglishProficiencyDescriptor in the Student Education Organization Association resource has been updated to match the calculation in the Student Language Instruction Program Association record.

Resyncs need to be completed on the Student Language Instruction Program Association and Student Education Organization Association resources with this update.
