Release Notes for Mobile Apps

Last Modified on 09/21/2026 9:11 am CDT

Campus Student is designed specifically for students, with simple access to grades, assignments, and more, with advanced options for submitting assignments based on district offerings.

Campus Parent provides an experience tailored to parents, switching seamlessly between students and prioritizing announcements, attendance, and assignments.

Apps are available on iTunes and Google Play.

iOS

The iOS apps can be downloaded from the iTunes store.

Version 1.12.6 (September 2026)

Summary: Various bug fixes

Case Number	Description
MBL-883	Various bug fixes

Version 1.12.3 (June 2026)
Summary: Various bug fixes

Version 1.11.5 (January 2026)
Summary: Various bug fixes

Case Number	Description
MBL-874	Previously, districts that used an identity provider that redirected through Google as part of their SSO configuration were unable to log in to the Campus Student or Campus Parent iOS mobile app. This issue has been fixed.

Version 1.11.4 (July 2025)
Summary: Various bug fixes

Case Number	Description
MBL-872	A new prompt has been added to the mobile apps to notify users when a new version is available. The prompt allows them to update the app now or be reminded later. If the current version is not supported, users only have the option to update the app. Push notifications have also been updated to improve routing and accommodate when linked accounts are disabled.

Version 1.10.8 (March 2025)
Summary: Various bug fixes.

Case Number	Description
MBL-869	Bug fixes and improvements.

Version 1.10.6 (August 2024)
Summary: Various bug fixes

Case Number	Description
MBL-878	New app icons, dependency updates, and security improvements.

Version 1.11.5 (January 2026)
Summary: Various bug fixes

Case Number	Description
MBL-874	Various bug fixes

Version 1.11.4 (July 2025)
Summary: Various bug fixes

Case Number	Description
MBL-872	A new prompt has been added to the mobile apps to notify users when a new version is available. The prompt allows them to update the app now or be reminded later. If the current version is not supported, users only have the option to update the app. Push notifications have also been updated to improve routing and accommodate when linked accounts are disabled.

Version 1.10.8 (March 2025)
Summary: Various bug fixes.

Case Number	Description
MBL-869	Bug fixes and improvements.

Version 1.10.6 (August 2024)
Summary: Various bug fixes

Case Number	Description

Case Number	Description
MBL-865	An option has been added that allows parents and students who have accounts in multiple districts to link their accounts. When accounts are linked, the user can switch between accounts from the user menu without having to log in each time, and push notifications are sent for all linked accounts. Note: This option is currently only available in Delaware and North Carolina. Additional states will be rolled out over the coming months. To use account linking, districts must be on the Campus.2435 release or later. Additionally, addressed an issue that closed the mobile app when parents attempted to add a new payment method.

Version 1.9.1 (February 2024)
Summary: Regular maintenance. Earliest supported version updated to iOS 13.4.

Case Number	Description
MBL-856	Dependencies have been updated. The earliest supported version for iOS has been updated from iOS 12.2 to iOS 13.4.

Version 1.8.4 (October 2023)
Summary: Bug fixes

Case Number	Description
