Release Pack Campus.2008 - February 2020

Last Modified on 10/31/2025 3:00 pm CDT

Release notes provide the applicable personnel the ability to review enhancements, modifications and regulated changes prior to accepting an update. It is advised that users review the release notes carefully and alert appropriate district staff to changes in Campus.

The Release Information article lists the approximate release date of all 2020 Campus releases. See the Rx Pack - Campus.2008 article for a list of Rx releases to the Campus.2008 release pack. Questions or concerns regarding an update should be directed to Campus Support.	Campus.2016 Campus.2012 > **Campus.2008** Campus.2004 Campus.2001

For additional information platform support, see the Supported Platforms article.

Admin To-Do's

- This release includes the new Standards Alignment Wizard, which greatly simplifies the process of aligning standards to courses and course masters. Give tool rights to users who would find this tool helpful.
- Review the Campus Instruction in the New Look and Feel of Infinite Campus release notification and share it with any teachers who have been having trouble using the New Look of Campus.

Technical Information

See the Technical Information - Release Pack Campus.2008 article for a list of schema changes in this release.

Academic Programs

Academic Programs (SIS-132886) **[Enhancement]**

A new field, "Program Type" has been added to the Academic Program Detail editor allowing districts to differentiate between CTE and Academic programs. Districts should refer to their state reporting guidelines to determine which Program Type to use.

Ad Hoc Reporting (SIS-133420)

An error was produced if the logged in user did not have state reporting tool rights (Student> General> Flags> State Reporting) and attempted to generate a filter containing ONLY spProgramCte fields. This has been corrected.

Article(s): Ad Hoc Reporting

Path: Ad Hoc Reporting> Filter Designer

Cube Analysis Export Format Generating Error in Data Export Tool (SIS-134434)

Users were receiving an error when attempting to export data in the Data Export tool via the Cube Analysis export format. This issue was corrected.

Article(s): Data Export

Path: Ad Hoc Reporting > Data Export

Attendance

Sub Attendance Roster (SIS-132583)

The Sub Attendance Roster report has been corrected to only display active students in the course when printing for Primary Teachers only. Students who are inactive in the course will not display on the report when using this option.

Behavior

Behavior Incident Context and Location Dictionary Values (SIS-135128)

A script was included in the Campus.2001 Release Pack that added dictionary items to unlocked dictionaries. This script has been removed.

Importing Standards from a CASE Server (SIS-129416) **[Enhancement]**

Districts now have the option of importing standards from a CASE server directly into their Standards Bank. CASE, which stands for Competencies and Academic Standards Exchange, is a specification used to share standards from states to districts. Each standard has its own CF Item ID, which is an identification number that ties a standard in the Standards Bank back to the state framework.

Standards are imported using the import wizard found in the Standards Bank. Begin by pasting a URL for a verified CASE provider, then select the creator, framework, and any other details. Some frameworks require a key and secret to be imported. Once imported, standards are available in the Standards Bank and differentiated using import icons. Frameworks can only be imported once and imported standards cannot be deleted.

Note: Only standards frameworks that adhere to the CASE specification can be imported using this tool. Not all states provide standards in this format

Student Names in the Seating Chart (SIS-130329)

Previously, if a student had two last names, the second last name was not capitalized in the seating chart. This has been corrected.

Article(s): Seating Charts

Path: Campus Instruction > Seating Charts

Standards Alignment Wizard (SIS-131339) **[Enhancement]**

The new Standards Alignment Wizard allows users to align standards to courses and course masters en masse. This tool greatly increases the efficiency of aligning standards compared to the process of searching for each course or master individually and adding alignments through the Standards tab. This wizard also includes the option to align a standard to all courses/masters in a calendar/catalog at once.

Updates to Advisory (SIS-133523) **[Enhancement]**

The Advisory tool has been updated to give teachers easier access to student assignments and grades. From the full section view of the Advisory tool:

- Click on the number of Missing or Late assignments to see a list of those assignments, sorted, by section. Click an assignment to view details.
- Click the number of Non-Passing Grades to view grades listed by section, with both posted and in-progress grades. Click the row to view a list of assignments contributing to that grade, if available, or the blue 'i' icon to view the grading scale.
- In districts using Early Warning, click the student's GRAD score to view more information, as shown on the student's Early Warning tab.

The eye icon on each row filters the view to just that student, suitable for using in 1:1 student conferences.

Access the existing student details screen by clicking the student's name.

Path: Campus Instruction > Advisory

Pushing Advisory Checkbox (SIS-133568)

Previously, the Advisory checkbox had to be pushed all the way from Course Masters to the Section for teachers to have access to the Advisory tool, even though the checkbox should only need to be marked on the Course for access to be granted. This has been corrected.

Article(s): Advisory

Path: Campus Instruction > Advisory

Campus Instruction Reports (SIS-133896) **[Enhancement]**

The Campus Instruction reports have been updated to be accessible in the new look and feel of Campus. This change includes removing the tool that collects all of the reports, in favor of the navigation options available in the new style. Only users who have turned on the new navigation will see this change.

A change has also been made to the tool rights for the new Roster report, which affects all users. Teachers who previously had rights to the Roster have been given the following tool rights: the main Reports tool right, the subright to the group of Roster reports, and rights to the Roster report itself.

Ed-Fi

Ed-Fi – Bug Fixes, UI Updates, Performance Updates and Additional 2.0 Resources (SIS-133389)

The following bug fixes have been made to the v2.0 and v3.1 resources for the Core Ed-Fi solution:

- Resync errors on the Student School Association, Student Section Association, Course Transcripts, and Grades resources have been fixed.
- The Discipline Action resource has been updated to not report if the Resolution Start Date is blank.
- The Student Education Organization Association resource has been updated to report the PO Box in front of the number.
- Special characters that were in a Key/Secret were being converted upon saving, making the connection validation invalid. This issue has been corrected.
- All dependent attendance data is now removed if the Student Section Association is deleted.

The following UI updates have been made:

- Page loading indicators have been added to display when pages are loading.
- The Session Overrides have been updated to filter on Active and Inactive courses.
- The Resync tool has been updated to not lock resources when a resync is performed on an individual person.

The following performance updates have been made:

- The Event Queue has been updated to prepare the next block of queue items while the current block is processing.
- Additional tracking has been added to Greylog.
- The Error Log has been updated to delete any error that is over 12 months old.

The following v2.0 resources have been moved to the Ed-Fi Configuration Tool:

- Discipline Incidents
- Student Discipline Incident Associations
- Discipline Actions
- Cohorts
- Staff Cohort Associations
- Student Cohort Associations

Finance

New Credit Card Upload Tool for P-Card Purchases (SIS-125763) **[Enhancement]**

The Credit Card Upload tool creates invoices and payment records from credit card statements. This tool can use CSV or OFX files and allows you to choose which Payments/Returns you want to include or exclude in the upload to Infinite Campus. The Credit Card Upload tool can also create a manual payment record in the Payment Register if the credit card statement was already paid. The following tools were also added as part of this new feature: Credit Cards, Credit Card Vendors.

Online Payments

New E-Check Service Fee Option (SIS-130786) **[Enhancement]**

Districts may now set up a Card Service Fee and an E-Check Service Fee. Previously, there was only one service fee for all payment types. Now, the service fee can be different for credit cards and e-checks. As part of this change, Infinite Campus will use the district's current Service Fee as the new Card Service Fee and E-Check Service Fee.

Previously, service fees for recurring payments could be displayed as a percent. Now, the service fee is always presented to the payer as a flat amount.

New Record Transfer Enrollment Types System Preference Added (SIS-63885)

A new system preference called Record Transfer Enrollment Type(s) has been added to State

Editions of Infinite Campus. This new preference allows users to determine which district to send a Records Transfer request to based on the enrollment type of the student's most recent enrollment record(s).

For example, if this field is set to 'Primary (P) OR Special Ed (N)' and the student has a Primary enrollment in District A and a more recent Special Ed enrollment record in District B, District B would be sent the enrollment record request.

Kansas KIDS Collection - Logic for School Entry/District Entry/State Entry (SIS-133591)

Logic for reporting the School Entry Date, District Entry Date and State Entry Date has been modified for students who end enrollment and return. The reported date - either the Current Enrollment Start Date or the Previous Enrollment Start Date - is dependent on the End Status assigned to the enrollment. See the article below for a list of End Statuses that indicate what date reports.

In addition, Enrollment End Statuses for private school have been updated.

- 4: Transfer to an accredited private school in Kansas
- 4a: Transfer to an accredited private school in other state
- 5: Transfer to a non-accredited school in Kansas
- 5a: Transfer to a non-accredited school in other state

Codes 4a and 5a report as 4 and 5, respectively. This breakout allows reporting of the correct date for the School Entry, District Entry and State Entry logic.

Also, the SMSC Extract and QERY Extract no longer reports a value for First Instructional Date.

Kentucky

Kentucky – Duration in School Days Logic Update and Resolution Length Calculation Tool Created (SIS-129034) **[Enhancement]**

The Duration in School Days field has been modified as follows:

- The field will now auto-populate to the hundredth as soon as a Resolution End Time is entered on a behavior resolution. This value is calculated as follows:
  - The field will calculate Duration in School Days to the hundredth of the Standard Day Minutes.
  - Resolutions that span multiple days will calculate the amount missed per day and sum the totals together.
  - Resolution minutes need to be calculated per day for the calendar in which the resolution takes place. Standard Day Minutes can vary on different days.
  - Resolutions that extend beyond the calendar will only calculate Duration in School Days through the end of the calendar.
  - A Resolution End Time of blank is assumed to be 12:00 A.M.
  - Duration in School Days is read only and there is not an option to adjust this value manually.

A new Resolution Length Calculation Tool has been created. This tool allows you to manually recalculate the Duration in School Days value for all resolutions impacted by a change in the calendar after the resolution was created.

Existing 2019-2020 Behavior Resolutions will be converted to have the Duration in School Days

value populated for resolutions that have a Resolution End Time populated. Behavior records prior to 2019-2020 can be converted/recalculated by using the Resolution Length Calculation Tool.

The Duration in School Days field will sync to the Kentucky State Edition. A DIS sync will be triggered when:

- A state-mapped Event or Resolution is saved.
- The state resyncs Behavior data.
