Technical Information

Ad hoc Reporting

Ad hoc Misspelled as One Word on Ad hoc Letters Tab (SIS-116775)

Ad hoc was incorrectly spelled on the Ad hoc Letters tab. This issue was corrected.

Article(s): Ad hoc Letters (Student)

Path: Student Information > General > Ad hoc Letters

At-Risk Field Rights in Ad hoc (SIS-131986)

Access to the At-Risk field in Ad hoc Reporting has been updated to be governed by the same tool right as the other non-state reporting fields on enrollments. As of this release, this At-Risk tool right is not assigned to any users.

This change applies to Iowa and Idaho.

Article(s): N/A

Path: Ad hoc Reporting > Filter Designer

Attendance Letters (SIS-132507)

When trying to generate an attendance letter, an error was returned if the letter template included Term Summary and Daily Exact Term Summary fields. This has been corrected.

Ed-Fi

Ed-Fi – Multiple Version Support, Core Framework Changes, and Bug Fixes (SIS-130653) **[Enhancement]**

The Ed-Fi tools and logic have been updated to allow a District to have a Core connection to Ed-Fi as well as a State Reporting connection.

The Event Queue Statistics tool has been updated to include totals by resource name for records triggered by a Resync.

The option to select unique identifiers for Students and Staff has been added to the Core Ed-Fi Connection Configuration.

On the Resync tool, resources will become read only if a resync is in progress for that resource/school combination.

The Event Queue page has been updated to display a temporary table showing what resyncs are in progress and which resource/school combination was selected.

An Excel report can now be generated while a resync is in progress to provide additional details about a resync.

Service Fee Fund Account Removed (SIS-130160)

The option to set up a Fund Account for Service Fees was removed. Since Vanco always uses the Fund ID FEE for Service Fee transactions, the Payments Reporter will always use FEE as the Fund ID too. All previous Service Fee transactions have been updated to display FEE in the Fund ID column.

As part of this change, the "Service Fee" checkbox was removed from the Fund Account panel. If you previously set up a Fund Account for Service Fees only, the Fund Account will no longer display in the Online Payments Setup tool.

Section Rosters Report (SIS-129800)

New options and functionality has been added to the Section Rosters Report editor:

- A new *Show Section Placement* Display Option has been added. When selected, period information displays for the selected course(s).
- Batch Queue functionality has been added, allowing users to determine when the report generates.
- These options do not apply to the Instruction Roster report.

The following updates have been made to the Section Rosters print view:
Course and Section Information

- In the header, *Course* now prints as *Courses*.
- Course and Section count information (how many of the selected courses and sections apply to the report for this teacher) prints in the fourth line of the header.

Period Schedules

- When the selected calendar only contains one period schedule or the option to print all period schedules is selected, *All Period Schedules* prints in the header.
- When the selected calendar contains more than one period schedule and not all are selected to print, the header lists the selected period schedules.
- Period Schedule names may be truncated in the header if several are selected and the allotted space is met.

Section Placement Section
When the Show Section Placements option is selected, the report includes start and end period and time information for the selected courses and period schedules. If this option is not selected, the report will only display course number, state code (if enabled), course name, room and term information.

Depending on selected options and calendar configuration, Period Information displays differently.

Period information may include period schedule names, start and end period names, start and end times, or any combination thereof.

- For grades 03-12, the student's course section that are scheduled within the report generation start and end dates that include a Course State Code and the Course Grading Task is marked as State Reported report.
    - If the student is enrolled as of the report generation date, a record only reports if there is a final grade for each unique State ID, Course State Code, Section Number and Term ID combination. If there are multiple grades, the grading task from the most recent term as of the report generation date reports. The student's enrollment end date must be on or before the report generation end date, even if the student has no final grade.

Course End Date (field 26) looks at the end date of the course based on the student's schedule and roster end date.

- If there is an End Date entered in the Roster Edit field on the student's Schedule tab for a course, that date reports.
- If the Roster Edit field is not populated, the End Date for the last term in which the section is scheduled reports.
- If the course/section ends after the date the report is generated, or the end date on the student's schedule (roster) is after the date the report is generated, no date reports.
- Future end dates do not report.

Course Final Grade (field 27) reports the student's final grade in the course, based on the grading task grade posted to the student. This score includes successful completion, failure or otherwise.

- When In-Progress checkbox is marked, the report score (grade) reports. If there is no score, this field reports blank.
- When In-Progress is NOT marked, enrollments that have ended and do not have a score report as 17 (Withdraw).
- When 99 Records Only is marked, all records report a value of 99.

Minnesota - Ed-Fi ID Script (SIS-133118)

This release runs a one-time script on production sites for all students to update their Ed-Fi ID, if it is currently NULL, to be their current Student State ID. If the Student State ID is less than 13 characters, the number is increased to 13 characters in length via leading zero padding. If a student's Ed-Fi ID already contains a value, no change is made.

If your Ed-Fi Configuration is successfully configured and your resources are mapped and turned to 'On' status, this release also serves as a district-wide Ed-Fi resync, pushing data to MDE for your district.
