Digital Equity (Wisconsin)

Last Modified on 06/10/2026 2:28 pm CDT

Tool Search: Digital Equity

The Digital Equity tool allows schools to track digital devices and internet availability for students. More than one record can be added, but records cannot overlap.

See the core Digital Equity article for information on necessary tool rights, available Ad hoc fields, and guidance on adding and printing Digital Equity records.

Digital Equity

Note the following:

- Use the Federal/State Program Updater tool to import Digital Equity information to this tool.
- For OLR Prime users, see the OLR Federal Program Posting Setup article for information on adding Digital Equity fields (and other Federal Program fields) to the Online Registration application. These fields automatically post to the added field.

Digital Equity Field Descriptions

The following fields are available in the Digital Equity Detail editor. Fields with an asterisk and in red text are required entry.

Start Date

Indicates the date the student began participation in the program.

> Records cannot overlap.
