Release Pack Campus.2032 - August 2020

Last Modified on 08/13/2026 10:37 am CDT

Release notes provide the applicable personnel the ability to review enhancements, modifications, and regulated changes prior to accepting an updated. It is advised that users review the release notes carefully and alert appropriate district staff to changes in Campus.

The Release Information article lists the approximate release date of all 2020 Campus releases. See the Rx Pack - Campus.2032 article for a list of Rx releases to the Campus.2032 release pack. Questions or concerns regarding an update should be directed to Campus Support.	Campus.2036 **> Campus.2032** Campus.2028 Campus.2024 Campus.2020

See the Supported Platforms article for more information about supported technologies.

Admin To Dos

- Many Blended Learning enhancements and modifications to current tools are included in this release, building on what was included in the Campus.2028 Release Pack. See the Release Notification for a summary of the Blended Learning Enhancements for Campus.2032, and the Blended Learning section below.
- A fix is being made to the 'Messenger Maintenance' Scheduled Task that runs each day permanently deleting expired messages from messenger logs and database tables. Prior to the fix, the task continued to follow the daily schedule but failed to delete the expired messages. Please refer to the Release Notifications for more information and steps to take prior to the Campus.2036 Release.

Activity Registration

New Activity Staff District Assignment and Misc Updates (SIS-138765) **[Enhancement]**

A new District Assignment checkbox called "Activity Staff" is now available. When this checkbox is marked, the staff member may be assigned as the primary or secondary owner responsible for an activity in the Activity Registration tool. This new option was also added as a "Role" for districts that use the Human Resources module.

A new option called "Receipt Comments" was added to Step 4 - Link to Portal in the Activity Builder

tool. This field allows you to enter comments or special instructions that you want on the customer's receipt.

The "Post to Course Section" toggle is now available on the Roster tool. When the toggle is turned on, you can associate the activity with a School, Calendar, Course and Section then you can push the applicable students to the roster in Campus once registration is closed.

Cosmetic changes were also made to improve the general user experience.

Blended Learning

Virtual Attendance Preferences (SIS-138400) **[Enhancement]**

New Virtual Attendance Preferences are now available for tracking student participation in a virtual classroom setting.

For virtual students in a course section, users can:

- Use classroom attendance
- Turn off classroom attendance, so all attendance is processed through administrative tools.
- Choose to allow students and/or parents to check in for the day or for each course section.
- Choose a start and end time for daily or course check in or limit check in between the period start and end times.
- Allow the teacher to mark a student as participated for a number of previous days.
- Allow the teacher to override a student's participation check in.

Options for posting virtual attendance are also available. These options determine when the attendance entries are posted and what attendance code is used.

Student Schedule - Blended Learning Display (SIS-138392) **[Enhancement]**

The Student Schedule has been updated to include an indication of Virtual when a student has been assigned to a Virtual Learning Group that is attending virtually on the day being viewed on the schedule. This displays on the Day, Week and Agenda views.

Article(s): Student Schedule

Path: Student Information > General > Schedule

Course Section Attendance Display for Blended Learning (SIS-138409) **[Enhancement]**

The Section Attendance editor now includes an indication of which students are Virtual students for a given day.

Students who are on-site (not virtual) for the day display first. Virtual students display with a

Participated indicator next to their name if their participation is confirmed by the teacher or student check in.

Blended Learning - Job for Posting Attendance Records for Virtual Students (SIS-138407) **[Enhancement]**

An attendance posting job for students who are attending classes virtually on a specific date has been created. This process assigns a calendar-specific attendance code when the student does not have a check in or a participation confirmation from the teacher for a particular course section. If

the calendar was using the COVID-19 attendance solution previously, the same attendance code can be used for this posting job.

This job is only enabled when the Enable Virtual Attendance Posting option is selected on the Virtual Attendance Preferences and the following fields are populated for the selected calendar:

- Posting Job Start Date
- Frequency
- Time
- Attendance Posting Start Date
- Attendance Posting Code

Every time the job runs, students in a Blended Learning Group that is virtual on a day between the current date and the Attendance Posting Start Date who do not have participation confirmed by the teacher or by student check in will have an attendance record created with the selected code and a comment of "Virtual participation not verified." Existing records for the date and period will be updated if student participation is confirmed.

As part of this process, the **Allow assignment-based attendance modification** checkbox on the Attendance Codes editor has been renamed to **Use code in virtual attendance posting**. Functionality of the checkbox has not changed.

Blended Learning - COVID-19 Attendance Tools (SIS-138416) **[Enhancement]**

Attendance tools that were updated to allow for the recording of attendance through assignments for schools transitioning to distance learning for COVID-19 restrictions have been removed or modified for additional features that are part of the Blended Learning workflow and toolset.

COVID-19 Assignment-Based Attendance attributes on the Calendar Details/Calendar Information editors have been removed. These attributes are now part of the Virtual Attendance Preferences editor (see SIS-138400). Details on converted data are included in the Virtual Attendance Preferences article.

COVID-19 Assignments have been converted to Student Participation records if the Assignment has a score of 1 or greater or has the Turned In flag set. The COVID-19 score group, grading task, and category used for these assignments have been deactivated. The scheduled tasks for inserting COVID-19 assignments and posting attendance have been removed.

Blended Learning Group Display on Schedule Report Preferences (SIS-138483) **[Enhancement]**

A new Display Option for Blended Learning Groups has been added to the Schedule Report Preferences. When marked and a student is assigned to a Blended Learning Group, the group name prints at the end of the report with the other Display Options.

As long as the Blended Learning Display Option is marked, the Group Name is included on the report, regardless of whether it is being generated from the Student Schedule tab, Schedule Batch tool or the Campus Student/Parent Application.

Section Roster - Blended Learning Indicator (SIS-138598) **[Enhancement]**

An indication of a student being in a Blended Learning Group and a total number of students who are in Blended Learning Groups has been added to the Section Roster tool.

Article(s): Roster (Section)

Path: Scheduling > Courses > Course > Section > Roster

Section Roster Report - Blended Learning Options (SIS-138599) **[Enhancement]**

The Section Roster Report has been modified to include options to display Blended Learning information.

- A **Show Blended Learning Group Summary** option has been added to the Display Options. When marked, Blended Learning Group roster summary counts display in the summary information just below the header of the report.
- A **Blended Learning Group** option has been added to the Student Options. When marked, the name of the Blended Learning Group displays for each student.

This new functionality is not yet available on the Section Roster report when loaded from Campus Instruction.

Blended Learning Groups (SIS-138746) **[Enhancement]**

The following enhancements have been made to Blended Learning Groups:

- Group names can now be modified after their original creation.

- Users can now choose between two different icons to assign to groups. This allows for distinguishing between groups that may be always virtual or always on-site.
- Users can now assign different colors to groups.

A new option for Adjust Group Day Assignments has been added. This allows users to quickly modify which days a group is scheduled to be virtual or on-site and to change the rotation of those groups accordingly, if needed.

When assigning students to groups automatically, a status bar displays, showing the percentage of completion for the selected calendar(s).

Blended Learning - Campus Fields for Letters/Messages (SIS-139300) **[Enhancement]**

Blended Learning fields have been added to the Campus Fields available when creating messages and building letters. These fields are now available for inclusion in all tools that allow messages (e.g., Message Builder, Class Messenger, Schedule Messenger, etc.) and letters (e.g., Ad Hoc Letter Designer, Attendance Letter Wizard, etc.) to be created.

Article(s): Message Builder; Letter Designer

Path: Messenger > Message Builder; Ad hoc Reporting > Letter Designer

Ad hoc Reporting - Blended Learning Fields (SIS-139304) **[Enhancement]**

New Query Wizard fields for the Student Data Type have been added to see if a student has an active assignment in a Blended Learning Group that is assigned to the current day and to the next day.

These fields, called virtualToday and virtualTomorrow are available in the Learner > Blended Learning > Active Group Assignment folder. These fields use the =True/=False operators and report as either 1 (true - the student has an active assignment in a group that is virtual today or tomorrow) or 2 (false - the student has an active assignment in a group that is NOT active today or tomorrow).

Virtual Attendance in Instruction and Campus Student/Parent (SIS-139175) **[Enhancement]**

Attendance tools in Instruction have been updated for Virtual Attendance. Based on the selections made by the school in the Virtual Attendance Preferences and Blended Learning setup, an additional section may display in the Attendance tool for recording attendance for students attending virtually. Depending on setup, teachers may see the following options:

- May or may not be able to mark attendance for students attending virtually.
- An indicator of whether the student has responded to the attendance Check-In may display. Parents may also be able to respond to the check-in for the student.
- A checkbox indicating if the student participated that day. Teachers may be able to mark students as participated, and may be able to modify the student's response.
- A date picker displays at the top of the Attendance screen - teachers may be able to record attendance for previous days or access a read-only view.

Note: Depending on school setup, this Participated checkbox may be used to determine student attendance. Follow school guidelines for how these fields are used.

The Control Center was also updated to allow recording of virtual attendance. In the Seating Chart, a Virtual tag displays for students attending virtually but virtual attendance cannot be recorded from this tool.

In Campus Student and Campus Parent, a Virtual tag has been added to the Today screen and Calendar > Schedule to indicate days when the student is Virtual. Check-Ins also display on the Today screen. Check-ins may be posted once per day or per section (with the option to limit by period times or set start and end times). If enabled, parents can also respond to a Check-in.

Massachusetts – SIF StudentSectionEnrollment/CourseEnrollmentStatus Logic Update (SIS-138926)

Logic for the SIF StudentSectionEnrollment/CourseEnrollmentStatus has been updated to the following:

- Report Value found in Roster > Enrollment Status. If that is null:
  - When any of the following conditions are met, report 02:
    - Roster End Date = NOT Null and before course/section Term End Date AND Roster End Date is before State Reporting Date AND State Reporting Date is on or before course term end Date.
    - When student has a (latest) score mapped to 21,22 or 23 in a Grading Task or Standard with State Reported = Checked
  - When student has a (latest) score mapped to 50 in a Grading Task or Standard with State Reported = Checked, report 05.
  - When student has a (latest) score mapped to 40 in a Grading Task or Standard with State Reported = Checked, report 04.
  - When any of the following conditions are met, report 03:
    - When the 'Local Enrollment Status' is set to 04
    - When the course term end date is <= the state reporting date and the roster end date is null, equal to or after the term end date
  - When State Reporting Date >= the course term Start Date and < course term End Date, report 01.
  - Else, report 02

Note: The logic is run strictly in order from top to bottom. As soon as it hits a condition that is true, it will stop processing and report that given value.
