Tool Search: Homeless

The Homeless tool records basic homeless information as well as district-defined fields. The list of homeless records is sorted by Start Date. This information reports in the [Student Demographics](#) and the [IPST Overwrite](#) extracts.

Homeless status can be assigned to a student at any point of the enrollment period. If a student is determined Homeless at any point in the school year, the student will report as Homeless for the entire enrollment period. The amount of time the student is deemed homeless is not considered.
