[BIE Graduation Rate Data Mart Logic](#) | [Data Mart Workflow](#) | [Generate a Snapshot](#) | [Snapshot Editor](#) | [Field Descriptions](#) | [Notifications](#) | [Generate a Report](#) | [Report Example](#) | [BIE Graduation Rate Data Mart Reported Fields](#)

Data Marts provide a way for states and districts to federally report on a variety of student data collections. The information stored in a data mart is collected with a snapshot and cannot be altered. Each data mart follows the same validation and authentication workflow process to allow for corrections to be made to student information fields before final sign-off and submission to federal reporting.

The **BIE Graduation Rate Data Mart** collects and stores student information relative to high school graduation and exit data for students of a specific cohort year. This tool should be used after the completion of a cohort year. Example: if the 2019-2020 year is complete, a snapshot is collected for the cohort class of 2020. Users should review the information collected and make all necessary changes in the user interface.

The BIE Graduation Rate Data Mart tool is available in both BIE District Edition and NASIS State Edition sites. However, the **Authentication Snapshot** is only available to State Edition users.

**BIE Graduation Rate Data Mart** ☆  
Reporting > BIE Reports > BIE Graduation Rate Data Mart

---

**BIE Graduation Rate Data Mart**

This tool is used to collect, validate and authenticate student graduation cohort data for federal reporting.

Users must begin by selecting the 'Snapshot' button to start the data capture process. Data from the snapshot is then built into a table where it can be extracted into a readable report by selecting the 'Report' button.

It is recommended this tool be used after the completion of the cohort year. Example: if the 19-20 year is complete, a snapshot is collected for the cohort class of '20.

**Snapshot**

Captures a snapshot of student data for validation and authentication.

>

**Report**

Print a report of the data gathered by the snapshot. This option is not available until after a snapshot is captured.

>

*BIE Graduation Rate Data Mart Tool*

**Read** - View the BIE Graduation Rate Data Mart tool.

**Write** - Generate snapshots and reports using the BIE Graduation Rate Data Mart tool.

**Add**- N/A

### Delete - N/A

Users must have tool rights to both the BIE Graduation Rate Data Mart tool and its validation / authentication sub-tools. Users with **Read** rights to the BIE Graduation Rate Data Mart tool will receive a notification in their [Process Alerts](#) when either a snapshot or report has finished processing. Only BIE State Edition users can generate an Authentication Snapshot. The Authentication Snapshot sub-right is ONLY available in NASIS State Edition sites.

For more information about Tool Rights and how they function, see the [Tool Rights](#) article.

## BIE Graduation Rate Data Mart Logic

State Edition and District Edition sites use the following logic when a snapshot is generated.

▶ [Click here to expand...](#)

### School and Calendar:

- Calendar Type must be I: Instructional to report.
- Calendar must NOT be marked excluded.
- Calendar end year must equal one of the 4 years tied to the cohort.
- Calendar Grade Levels must be mapped to BIE Grade Level Code of 9, 10, 11 or 12.
- Requires DIS be enabled for data to sync and reporting to complete in both District and State Edition.

### Student:

- Enrollment must NOT be marked as BIE enrollment type of 3: Public Enrolled or the student will not report.
- Enrollment start date must NOT EQUAL enrollment end date
- Enrollment must NOT be marked as No Show
- Enrollment must NOT be marked BIE Exclude
- Student must have a NASIS ID to report.
- If a student has one or more primary enrollments within a calendar OR across multiple calendars in a school, the following logic applies:
  - 1 DISTINCT record is created of all combined enrollments and the student reports once for the school.
- If a student has one or more primary enrollments at more than one school within a District, the following logic applies:
  - 1 record reports from each school in which the student has a primary enrollment.

### Cohort:

- If all of the above are true, the student will report within the selected cohort if the date first entered 9th grade falls on or within the reporting window identified as:
  - Window Start = 07/01 of the Cohort Year selected on the report editor **minus** 4 years
  - Window End = 06/30 of the Cohort Year on the report editor **minus** 3 years
- Cohort Start Date and End Date Status Logic:
 

Using the [Code Defining](#) tool to map local Start and End Date Status' to the state codes

described below.

- TIN (Transfer In): Student is considered TIN If the enrollment start status is mapped to the code definition of TIN
- TOT (Transfer Out): Using the calendar tied to the enrollment, identify the last day marked instructional. The student is considered TOT if BOTH of the following conditions apply:
  - The student's BIE grade level code on enrollment is NOT 12 where the end date on enrollment equals the instructional day.
  - The enrollment end status maps to the code definition of TOT.
- DRP (Drop Out): Student is considered DRP If the enrollment end status is mapped to the code definition of DRP
- DED (Cohort Deduction): The student is considered DED If the enrollment end status is mapped to the code definition of DED
- GRD (Graduated): If enrollment end date is NULL, the calendar tied to the enrollment is used to identify the calendar end date. The student is considered GRD if ONE OR MORE of the following conditions apply:
  - The enrollment end status maps to the code definition of GRD.
  - The diploma date is BETWEEN the enrollment start date and the identified end date.
  - The diploma type is mapped to the code definition of NOT NULL.

### Snapshot:

- The BIE Graduation Rate Data Mart tool assumes validation and authentication activities occur AFTER all four *school years* tied to a graduating cohort have ended.
- Only one validation snapshot will be retained for a school. The existing snapshot will be overwritten each time a new snapshot is generated.
- Only one authentication snapshot will be retained for a school. The existing snapshot will be overwritten each time a new snapshot is generated. This snapshot type is only available in State Edition sites.

### Code Defining:

- Codes must be mapped and published every year for all four years of the cohort. This is required for:
  - Start/End Status
  - BIE Diploma Type

Additional information including how to use the Code Defining tool for mapping can be found [here](#).

## Data Mart Workflow

Additional information regarding the process and workflow of a Data Mart can be viewed in the [Data Mart Workflow](#) article.

All Data Marts follow a two-step Validation and Authentication process. By following this process, student data can be reviewed and corrected before it is submitted on for federal reporting.

# Generate a Snapshot

Snapshots are the student data collection method data marts use to capture specific data points (first name/last name, gender, etc.) at a particular moment in time and build them into a data table. Student information captured by a snapshot is static and will not be reflective of real-time changes made in the user interface where the data fields live.

For each school included in the snapshot, one data table is built. A school must have at least one eligible calendar for a snapshot to generate. This process can be done for one to multiple schools at a time, but processing time may vary when more than one school is selected.

The **Authentication Snapshot** is only available to State Edition users.

**BIE Graduation Rate Data Mart**

This tool is used to collect, validate and authenticate student graduation cohort data for federal reporting.

Users must begin by selecting the 'Snapshot' button to start the data capture process. Data from the snapshot is then built into a table where it can be extracted into a readable report by selecting the 'Report' button.

It is recommended this tool be used after the completion of the cohort year. Example: if the 19-20 year is complete, a snapshot is collected for the cohort class of '20.

**Snapshot**  
Captures a snapshot of student data for validation and authentication.

**Report**  
Print a report of the data gathered by the snapshot. This option is not available until

**BIE Graduation Rate Data Mart**

Instructions

Snapshot Set up

Snapshot Type \*

Validation Authentication

Cohort Year \*

2020

School Selection Filter (Ad Hoc)

School \*

Select All	School	Validation Snapshot	Authentication Snapshot
<input type="checkbox"/>	NorthWest Day School (D53S02)		
<input type="checkbox"/>	A.C. Community School (D34N27)		
<input type="checkbox"/>	Blackfeet Dormitory (D51C03)		
<input type="checkbox"/>	Horse Creek (D53F13)		
<input type="checkbox"/>	Meadows Indian School (D02P02)		

1 - 5 of 83 items

Generate Reset Back

*BIE Graduation Rate Data Mart Snapshot Editor-State Edition*

1. Select **Snapshot** from the BIE Graduation Rate Data Mart tool.
2. Select a **Snapshot Type**: Validation or Authentication.
3. Select a **Cohort Year**. If calendar year is 19-20 the cohort year is 2020.
4. Select a pre-created Ad Hoc filter from the **School Selection Filter**. (Optional) This field is only available in State Edition.

5. Select one or multiple **schools**. One snapshot will generate per school.
6. Select **Generate**. Notification will be sent to [Process Alerts](#) when the snapshot is done processing.

**Consider generating new snapshots when:**

- Corrections made to student information fields are not reflected when the report is generated.
- A length of time has passed from when the last snapshot was generated and the final report is being submitted.

Snapshots can be generated as needed. However, a history of snapshots is not be stored and data from the previous snapshot will be overwritten when a new snapshot is generated.

## Snapshot Editor Field Descriptions

Field	Description
<b>Snapshot Type</b> (State Edition only)	<p>This field determines the type of snapshot to generate.</p> <ul style="list-style-type: none"> <li>• <b>Validation</b> captures the records from the user interface and builds a data table. A validation snapshot is required before an authentication snapshot can be generated. After generating the validation snapshot use the validation report to review the data.</li> <li>• <b>Authentication</b> is a copy of the data collected from the most recent validation snapshot and is used for federal reporting submission. After generating the authentication snapshot use the authentication report for final sign-off and submission.</li> </ul> <div style="background-color: #fff9c4; padding: 10px; margin-top: 10px;"> <p>Consider generating a final validation snapshot before the authentication snapshot is generated. This will ensure any changes made during the validation process are captured and all correct information is submitted for final reporting.</p> </div>
<b>Cohort Year</b>	<p>Identified as the last year of the graduating cohort. Example: If it is the 19-20 school year, select 2020 for the Cohort Year.</p>
<b>School Selection Filter (Ad hoc)</b> (State Edition only)	<p>Allows for the selection of an ad hoc filter to filter down to a pre-defined list of schools.</p>

Field	Description
<b>School</b>	<p>Allows for the selection of one or multiple schools. Snapshot processing time may vary if more than one school is selected. Use the search field located at the top of the school list to search for a specific school.</p> <p>Only one snapshot will be generated and stored per school.</p>
<b>Count of Selected Schools</b>	Displays a numeric value for the amount of schools that have been selected to be included in the snapshot.
<b>Select All</b>	Selects all schools across all pages to be included in the snapshot.
<b>View Selected</b>	Displays a view-only side panel with a listing of all the schools selected for the snapshot.
<b>Generate</b>	<p>Select after all other required field selections have been made. A report is not automatically produced when a snapshot has finished generating. Refer to the Report section for further details.</p> <div style="background-color: #e1f5fe; padding: 10px; border: 1px solid #cfe2f3;"> <p>Campus does not retain a history of snapshots. When a new snapshot is generated, data from the previous snapshot will be overwritten. Users may choose to generate a new snapshot as corrections are being made to various areas of student information.</p> </div>
<b>Reset</b>	Returns screen to original defaults.
<b>Back</b>	Returns user to the BIE Graduation Rate Data Mart editor screen.

## Notifications

Users with **Read** access to the BIE Graduation Rate Data Mart tool receive notifications in their [Process Alerts](#) when:

- **A snapshot has been submitted** . Only the user who submitted the snapshot will receive this notification. A notification report displays by clicking on the message link.
- **A snapshot (validation or authentication) has been submitted and has completed syncing**. To view the data captured by the completed snapshot, a report must be generated.
- **A report is available** . If a user selected Submit to Batch Queue to generate the report (validation or authentication), a notification will display when it is ready to view. Click the message link to view the report. The report can also be retrieved from the data mart's Report tool.
- **An error has prevented a record from syncing to the state** . The DIS Sync error can be further reviewed in the Error Log under System Administration > Data Interchange.
  - Errors can not be corrected in the snapshot. If a correction is needed, it must be made in the location the data is entered. Generate a new snapshot to sync the corrected record.
  - If a record failed to sync, only that record is affected and will not prevent other records from syncing.

# Generate a Report

Generate a report for a specific school and cohort year to review or authenticate the student information captured by the snapshot. Only one school and cohort year may be selected at a time.

A sign-off page appends to the end of the printed Authentication Report. This only appends to PDF report formats.

The BIE Graduation Rate Data Mart report includes personally identifying student information including NASIS IDs.

### BIE Graduation Rate Data Mart

This tool is used to collect, validate and authenticate student graduation cohort data for federal reporting.

Users must begin by selecting the 'Snapshot' button to start the data capture process. Data from the snapshot is then built into a table where it can be extracted into a readable report by selecting the 'Report' button.

It is recommended this tool be used after the completion of the cohort year. Example: if the 19-20 year is complete, a snapshot is collected for the cohort class of '20.

**Snapshot**

Captures a snapshot of student data for validation and authentication.

>

**Report**

Print a report of the data gathered by the snapshot. This option is not available until after a snapshot is captured.

>

## BIE Graduation Rate Data Mart Reported Fields

Field	Description	Location
<b>Authentication Date</b>	The date and time when the BIE Graduation Rate Data Mart snapshot was authenticated for the school.	N/A
<b>Validation Date</b>	The date and time of the last BIE Graduation Rate Data Mart validation snapshot for the school.	N/A
<b>NASIS ID</b>	The unique identifier for the student.	Census > People > Demographics > NASIS ID  <b>Database:</b> person.otherID

Field	Description	Location
<b>Last Name</b> <i>CSV Only</i>	Reports the student's last name.	Census > People Identities > Current Identity > Last Name  <b>Database:</b> identity.lastName
<b>First Name</b> <i>CSV Only</i>	Reports the student's first name.	Census > People Identities > Current Identity > First Name  <b>Database:</b> identity.firstName
<b>Middle Name</b> <i>CSV Only</i>	Reports the student's middle name.	Census > People Identities > Current Identity > Middle Name  <b>Database:</b> identity.middleName
<b>Name Suffix</b> <i>CSV Only</i>	Reports the suffix of the student's name.	Census > People Identities > Current Identity > Suffix  <b>Database:</b> Identity.suffix
<b>Birth Date</b> <i>CSV Only</i>	Reports the student's date of birth.	Census > People > Identities > Current Identity > Birth Date  <b>Database:</b> Identity.birthDate
<b>Gender</b> <i>CSV Only</i>	Reports the student's sex.	Census > People > Identities > Current Identity > Gender  <b>Database:</b> student.gender
<b>Grade 9 Date</b>	Reflects the date the student first entered 9th grade.	Student Information > General > Graduation > Date First Entered the 9th Grade  <b>Database:</b> graduation.grade9Date
<b>NCLB Cohort Year</b>	The NCLB Cohort End Year for the student .	Student Information > General > Graduation > NCLB Cohort End Year  <b>Database:</b> graduation.cohortYearNCLB

Field	Description	Location
<b>Cohort Start (Enrollment Start Date, Grade)</b>		
Start Date	Reports the enrollment start date the student entered into the cohort.	<p>Student Information &gt; General &gt; Enrollment &gt; Start Date</p> <p><b>Database:</b> enrollment.startDate</p>
Grade	Reports the BIE Grade Level Code mapped to the student's grade level on their enrollment.	<p>Student Information &gt; General &gt; Enrollment &gt; Grade</p> <p>System Administration &gt; Calendar &gt; Calendar &gt; Grade Level &gt; BIE Grade Level Code</p> <p><b>Database:</b> GradeLevel.regionalGrade</p>
<b>Transfer In (Enrollment Start Date, Start Status, Grade)</b>		
Start Date	Reports the enrollment start date when the student transferred in to the cohort.	<p>Student Information &gt; General &gt; Enrollments &gt; Start Date</p> <p><b>Database:</b> enrollment.startDate</p>
Start Status	Reports the code of the BIE Start Status when the student first transferred into the cohort.	<p>Student Information &gt; General &gt; Enrollments &gt; Start Status</p> <p><b>Database:</b> bie.startStatusBIE</p>
Grade	Reports the BIE Grade Level Code mapped to the student's grade level on their enrollment.	<p>Student Information &gt; General &gt; Enrollments &gt; Grade</p> <p>System Administration &gt; Calendar &gt; Calendar &gt; Grade Levels &gt; BIE Grade Level Code</p> <p><b>Database:</b> GradeLevel.regionalGrade</p>
<b>Transfer Out (Enrollment End Date, BIE End Status, Grade)</b>		

Field	Description	Location
End Date	<p>The enrollment end date when the student transferred out of the cohort.</p> <p>If the enrollment End Date field is blank, the end date on the calendar tied to the enrollment reports.</p>	<p>Student Information &gt; General &gt; Enrollment &gt; End Date</p> <p>System Administration &gt; Calendar &gt; Calendar &gt; End Date</p> <p><b>Database:</b> enrollment.endDate</p>
BIE End Status	<p>Reports the BIE End Status of the enrollment when the student transferred out of the cohort.</p>	<p>Student Information &gt; General &gt; Enrollment &gt; BIE &gt; End Status</p> <p><b>Database:</b> bie.endStatusBIE</p>
Grade	<p>Reports the BIE Grade Level Code mapped to the student's grade level on their enrollment.</p>	<p>Student Information &gt; General &gt; Enrollment &gt; Grade</p> <p>System Administration &gt; Calendar &gt; Calendar &gt; Grade Level &gt; BIE Grade Level Code</p> <p><b>Database:</b> GradeLevel.regionalGrade</p>
<b>Other Deduction (Enrollment End Date, End Status, Grade)</b>		
End Date	<p>Reports the enrollment End Date when the student was removed from the cohort for other non-deduction reasons.</p> <p>Reports the end date of the calendar tied to the enrollment if the end date on enrollment is blank.</p>	<p>Student Information &gt; General &gt; Enrollment &gt; End Date</p> <p>System Administration &gt; Calendar &gt; Calendar &gt; End Date</p> <p><b>Database:</b> enrollment.endDate</p>
BIE End Status	<p>Reports the BIE End Status on the enrollment when the student was removed from the cohort for other non-deduction reasons.</p>	<p>Student Information &gt; General &gt; Enrollment &gt; BIE &gt; End Status</p> <p><b>Database:</b> bie.endStatusBIE</p>

Field	Description	Location
Grade	Reports the BIE Grade Level Code mapped to the student's grade level on their enrollment.	<p>System Administration &gt; Calendar &gt; Calendar &gt; Grade Level &gt; BIE Grade Level Code</p> <p>Student Information &gt; General &gt; Enrollment &gt; Grade</p> <p><b>Database:</b> GradeLevel.regionalGrade</p>
<b>Cohort End (Enrollment End Date, Grade)</b>		
<i>End Date</i>	Reports the enrollment end date that indicates the student is no longer in the cohort.	<p>Student Information &gt; General &gt; Enrollment &gt; End Date</p> <p><b>Database:</b> enrollment.endDate</p>
<i>Grade</i>	Reports the BIE Grade Level Code mapped to the student's grade level on their enrollment.	<p>Student Information &gt; General &gt; Enrollment &gt; Grade</p> <p>System Administration &gt; Calendar &gt; Calendar &gt; Grade Level &gt; BIE Grade Level Code</p> <p><b>Database:</b> GradeLevel.regionalGrade</p>
<b>Graduate (Enrollment End Date, Grade, Diploma Date, BIE Diploma Type)</b>		
<i>End Date</i>	Reports the End Date of the student's enrollment.	<p>Student Information &gt; General &gt; Enrollment &gt; End Date</p> <p><b>Database:</b> enrollment.endDate</p>

Field	Description	Location
<i>Grade</i>	Reports the BIE Grade Level Code mapped to the student's grade level on their enrollment.	<p>Student Information &gt; General &gt; Enrollment &gt; Grade</p> <p>System Administration &gt; Calendar &gt; Calendar &gt; Grade Level &gt; BIE Grade Level Code</p> <p><b>Database:</b> GradeLevel.regionalGrade</p>
<i>Diploma Date</i>	<p>The date the student received their diploma.</p> <p>If null, reports blank.</p>	<p>Student Information &gt; General &gt; Graduation &gt; Diploma Date</p> <p><b>Database:</b> graduation.diplomaDate</p>
<i>BIE Diploma Type</i>	Reports the code of the BIE Diploma Type the student earned.	<p>Student Information &gt; General &gt; Graduation &gt; BIE Graduation Information &gt; BIE Diploma Type</p> <p><b>Database:</b> graduation.diplomaTypeBIE</p>
<b>Dropout (Enrollment End Date, BIE End Status, Grade)</b>		
End Date	Reports the enrollment end date tied to when the student was considered a drop-out and removed from the cohort.	<p>Student Information &gt; General &gt; Enrollment &gt; End Date</p> <p><b>Database:</b> enrollment.endDate</p>
BIE End Status	Reports the BIE enrollment end status of the ended enrollment tied to when the student dropped-out and removed from the cohort.	<p>Student Information &gt; General &gt; Enrollment &gt; BIE &gt; End Status</p> <p><b>Database:</b> bie.endStatusBIE</p>
Grade	Reports the BIE Grade Level Code mapped to the student's grade level on their enrollment.	<p>System Administration &gt; Calendar &gt; Calendar &gt; Grade Level &gt; BIE Grade Level Code</p> <p><b>Database:</b> GradeLevel.regionalGrade</p>
<b>Remain In School (Enrollment Start Date, Grade)</b>		

Field	Description	Location
Start Date	<p>Indication that the student did NOT leave the cohort for the following reasons:</p> <ul style="list-style-type: none"> <li>• DRP (Drop-Out)</li> <li>• DED (Cohort Deduction)</li> <li>• GRD (Graduated)</li> <li>• TOT (Transfer Out)</li> </ul> <p>End date is not a required field on enrollment. Because of this, the start date is used to refer back to.</p>	<p>Student Information &gt; General &gt; Enrollment &gt; End Date</p> <p>System Administration &gt; Calendar &gt; Calendar End Date</p> <p><b>Database:</b> enrollment.startDate</p>
Grade	<p>Reports the BIE Grade Level Code mapped to the grade of the student's reporting enrollment.</p>	<p>System Administration &gt; Calendar &gt; Calendar &gt; Grade Level &gt; BIE Grade Level Code</p> <p><b>Database:</b> GradeLevel.regionalGrade</p>
<b>Activity After Graduation/Exit</b> <i>CSV Only</i>	<p>Reports the code of the value identifying the student's activities after graduating or exiting the school.</p> <p>If null, reports blank.</p>	<p>Student Information &gt; General &gt; Graduation &gt; BIE Activity after Grad/Exit</p> <p><b>Database:</b> Graduation.dropoutCodeBIE</p>
<b>Post Graduation/Exit Plans</b> <i>CSV Only</i>	<p>Reports the code of the value identifying the student's post school graduation/exit plans.</p>	<p>Student Information &gt; General &gt; Graduation &gt; BIE Post Grad/Exit Plans</p> <p><b>Database:</b> Graduation.postGradPlansBIE</p>
<b>Primary Disability</b> <i>CSV Only</i>	<p>Reports the student's primary disability from the last year of their enrollment within the cohort.</p> <p>The following LOCKED BIE plan types will report:</p> <ul style="list-style-type: none"> <li>• BIE IEP</li> <li>• BIE IEP with Transition</li> </ul>	<p>Student Information &gt; Special Ed &gt; General &gt; Documents &gt; Plans &gt; Enrollment Status &gt; Primary Disability</p> <p><b>Database:</b> planstate.disability1</p>

Field	Description	Location												
<p><b>Special Ed Setting</b> <i>CSV Only</i></p>	<p>Reports the student's Special Ed Setting from the last year of their enrollment within the cohort.</p> <p>The following LOCKED BIE plan types will report:</p> <ul style="list-style-type: none"> <li>• BIE IEP</li> <li>• BIE IEP with Transition</li> </ul>	<p>Student Information &gt; Special Ed &gt; General &gt; Documents &gt; Plans &gt; Enrollment Status &gt; Special Ed Setting</p> <p><b>Database:</b> planstate.specialEdSetting</p>												
<p><b>English Learner</b> <i>CSV Only</i></p>	<p>Using the last cohort year identified for the student, a temporary reporting window is created WHERE:</p> <ul style="list-style-type: none"> <li>• Window Start is the earliest calendar start date across all calendars of a school</li> <li>• Window End is the latest calendar end date across all calendars of a school</li> </ul> <table border="1" data-bbox="438 1025 917 1803"> <thead> <tr> <th data-bbox="438 1025 678 1093">If...</th> <th data-bbox="678 1025 917 1093">Reports as...</th> </tr> </thead> <tbody> <tr> <td data-bbox="438 1093 678 1249">Student's Program Status equals EL</td> <td data-bbox="678 1093 917 1249">EL</td> </tr> <tr> <td colspan="2" data-bbox="438 1249 917 1317" style="text-align: center;"><b>OR</b></td> </tr> <tr> <td data-bbox="438 1317 678 1473">Student's Program Status = Exited EL</td> <td data-bbox="678 1317 917 1473"></td> </tr> <tr> <td colspan="2" data-bbox="438 1473 917 1541" style="text-align: center;"><b>AND</b></td> </tr> <tr> <td data-bbox="438 1541 678 1803">Program Exit Date is EQUAL TO OR GREATER THAN system date</td> <td data-bbox="678 1541 917 1803"></td> </tr> </tbody> </table>	If...	Reports as...	Student's Program Status equals EL	EL	<b>OR</b>		Student's Program Status = Exited EL		<b>AND</b>		Program Exit Date is EQUAL TO OR GREATER THAN system date		<p>Student Information &gt; General &gt; Program Participation &gt; English Learners (EL) &gt; Program Status</p> <p>Student Information &gt; General &gt; Program Participation &gt; English Learners (EL) &gt; Identified Date</p> <p>Student Information &gt; General &gt; Program Participation &gt; English Learners (EL) &gt; Fourth Year Monitoring</p> <p>Student Information &gt; Program Participation &gt; English learners (EL)</p> <p><b>Database:</b> Calculated</p>
If...	Reports as...													
Student's Program Status equals EL	EL													
<b>OR</b>														
Student's Program Status = Exited EL														
<b>AND</b>														
Program Exit Date is EQUAL TO OR GREATER THAN system date														

Field	Description	Reports as...	Location
	<p>Student Program Status = Exited EL</p> <p><b>AND</b></p> <p>First Year Monitoring Date is on or within the reporting window</p>	1	
	<p>Student Program Status = Exited EL</p> <p><b>AND</b></p> <p>Second Year Monitoring Date is ON OR WITHIN the Reporting Window</p>	2	
	<p>Student Program Status = Exited EL</p> <p><b>AND</b></p> <p>The Third Year Monitoring Date ON OR WITHIN the Reporting Window</p>	3	

Field	Description	Reports as...	Location
	<p>Student Program Status = Exited EL</p> <p><b>AND</b></p> <p>The Fourth Year Monitoring Date ON OR WITHIN the Reporting Window</p>	4	
	<p>Student did NOT meet any of the above conditions</p>	NOT EL	
<p><b>Economic Disadvantaged</b> <i>CSV Only</i></p>	<p>Reports a status of Y.</p>		N/A
<p><b>Migrant</b> <i>CSV Only</i></p>	<p>Reports a status of N.</p>		N/A
<p><b>Homeless</b> <i>CSV Only</i></p>	<p>Reports the student's homeless status of the Homeless Nighttime Residence field from the last year of their enrollment within the cohort.</p>		<p>Student Information &gt; General &gt; Enrollment &gt; BIE Reporting &gt; Homeless Nighttime Residence</p> <p><b>Database:</b> bie.homelessNighttimeResidenceBIE</p>
<p><b>Foster Care</b> <i>CSV Only</i></p>	<p>Reports the student's BIE Foster Care status from the last year of their enrollment within the cohort.</p>		<p>Student Information &gt; Program Participation &gt; BIE Foster Care &gt; Start Date</p> <p>Student Information &gt; Program Participation &gt; BIE Foster Care &gt; End Date</p> <p><b>Database:</b> Calculated</p>

Field	Description	Location
<b>Race/Ethnicity</b> <i>CSV Only</i>	Reports the student's Federal Designation race/ethnicity of their current identity.	Census > People > Identities > Race Ethnicity > Federal Designation  <b>Database:</b> Identity.raceEthnicity
<b>Military Connection Status</b> <i>CSV Only</i>	Reports the status of the student's relationship to the military from the last year of their enrollment within the cohort.  Otherwise, reports N.	Student Information > General > Enrollment > BIE Reporting > Military Connected  <b>Database:</b> enrollmentBIE.militaryConnected
<b>Section 504</b> <i>CSV Only</i>	Reports the student's 504 plan status from the last year of their enrollment within the cohort.	Student Information > Program Participation > BIE Section 504 > Start Date  Student Information > Program Participation > BIE Section 504 > End Date
<b>Tribe</b> <i>CSV Only</i>	Reports the tribal code the student belongs to.	Student Information > General > NASIS > Tribe  <b>Database:</b> nasis.tribalCode
<b>BIE Enrollment Type (ISEP Status)</b> <i>CSV Only</i>	Reports the student's BIE Enrollment Type from the last year of their enrollment within the cohort.	Student Information > General > Enrollment > BIE Reporting > Enrollment Type  <b>Database:</b> bie.stateAidBIE
<b>BIE District Number</b> <i>CSV Only</i>	Reports the BIE District Number of the District tied to the school that is reporting.	System Administration > Resources > District Information > BIE District Number  <b>Database:</b> District.groupNumber
<b>BIE Group Number (State School Number)</b> <i>CSV Only</i>	Reports the BIE Group Number of the school that is reporting.	System Administration > Resources > School > BIE Group Number  <b>Database:</b> School.groupNumber
