

# Michigan Ed-Fi Data - v3.1

Last Modified on 06/06/2024 8:03 am CDT

Tool Search: Ed-Fi

This information is meant *only* for Michigan customers using Ed-Fi version 3.1 users.

This article defines all of the elements of data sent per entity between Campus and the Ed-Fi system.

- - All data sends if there is a valid configuration and the resource is mapped, if needed, and toggled on. However, a resync needs to be done on a resource after turning it on or when a mapping has changed.
  - Data in schools and calendars marked as Exclude will not send data to Ed-Fi.
  - If calendar or school excludes are checked after data is sent, all sent data will remain and the Delete tool will need to be used to remove data.
  - Person-related records do not trigger a send of data to Ed-Fi if the person does not have an Ed-Fi ID value assigned.
  - Ed-Fi ignores custom field data entered in Campus.

A resource is a collection of related data which is sent in a cluster of data elements from Campus to Ed-Fi. Select the following links to view what data elements are contained and sent within that resource:

<b>Cohorts Information</b>
<a href="#">Cohorts</a>
<a href="#">Student Cohort Associations</a>
<b>Discipline Information</b>
<a href="#">Discipline Actions</a>
<a href="#">Discipline Incidents</a>
<a href="#">Student Discipline Incident Associations</a>
