Badge Printing

Last Modified on 12/14/2025 8:45 pm CST

The Scanning toolset is part of the [Campus Workflow Suite](#).
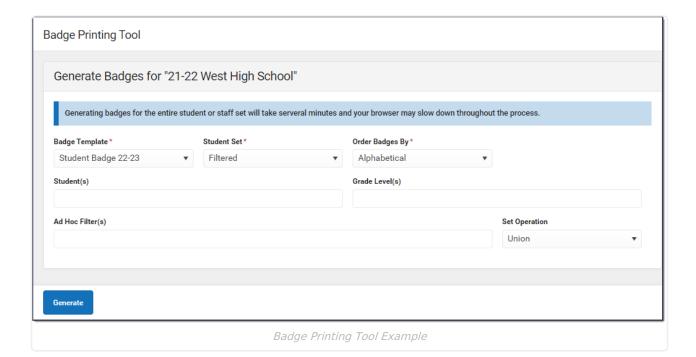

[Print Student Badges](#) | [Print Staff Badges](#)

Tool Search: Badge Printing

The Badge Printing tool generates a PDF of badges based on templates created in the [Badge Designer](#) tool. Badge generation is specific to the selected calendar.

Generating badges for the entire student or staff set will take several minutes and your browser may slow down throughout the process.

What can I do?

- [Print Student Badges](#)
- [Print Staff Badges](#)

Badge Printing Tool

Generate Badges for "21-22 West High School"

Generating badges for the entire student or staff set will take serveral minutes and your browser may slow down throughout the process.

Badge Printing Tool Example

See the [Census Reports Tool Rights](#) article for information about rights needed to use this tool.

Print Student Badges

1. Select the **Badge Template for Front**.

> Optional: select the **Badge Template for Back**. If you have a printer that supports duplex printing, a second badge template can be selected to print onto the back of each badge. If you do not have a duplex printer, leave the field blank.

2. Select **Entire Calendar** or **Filtered** from the **Student Set** dropdown list.

> If "Current Calendar" is chosen as the Student Set, it will find all students in the calendar (both active and inactive).

The following options are available when the Student Set is set to **Filtered**.

Filter Option	Description
Student(s)	Narrows the student set to specific student(s) for whom you want to print badges. You can select multiple students.
Grade Level(s)	Narrows the student set by grade(s). You can select multiple grades.
Ad Hoc Filters(s)	Narrows the student set by ad hoc filters created in the Filter Designer. You can select multiple Ad hoc filters.
Set Operation	Narrows the student set within the Ad hoc filters. **Union** includes all studen within all Ad hoc filters selected. **Intersection** only includes students that overlap between the selected ad hoc filters.

3. Select whether you want to generate the badges in **Alphabetical** order or by **Grade** then Alphabetical order in the **Order Badges By** field.
4. Click **Generate**.
   Result: Campus creates a PDF file with the badge(s).

Print Staff Badges

1. Select the **Badge Template for Front**.

> Optional: select the **Badge Template for Back**. If you have a printer that supports duplex printing, a second badge template can be selected to print onto the back of each badge. If you do not have a duplex printer, leave the field blank.

2. Select one of the following options from the **Staff Set** dropdown list.

- **Current School**
- **School Filtered**
- **Entire District**
- **District Filtered**

  The following options are available when the **Staff Set** is *School Filtered* or *District Filtered*

Filter Option	Description
Staff Member(s)	Narrows the student set to specific staff member(s) for whom you want to print badges. You can select multiple staff members.
Ad Hoc Filters(s)	Narrows the student set by ad hoc filters created in the Filter Designer. You can select multiple Ad hoc filters.
Set Operation	Narrows the student set within the Ad hoc filters. **Union** includes all students within all Ad hoc filters selected. **Intersection** only includes students that overlap between the selected ad hoc filters.

3. Click **Generate**.
   Result: Campus creates a PDF file with the badge(s).
