

ISBE Physical Restraint and Time Out (Illinois)

Last Modified on 06/02/2026 10:28 am CDT

Tool Search: ISBE Extracts

The ISBE Physical Restraint and Time Out Extract reports students who have been physically restrained or assigned to a time out or an isolated time out as part of a Behavior Response to a Behavior Incident.

Report Logic

All students who are assigned a Behavior Response Type of the following in the selected calendar are included in the report:

- P: Physical Restraint
- T: Time Out
- I: Isolated Time Out
- PP: Prone Physical Restraint
- SP: Supine Physical Restraint

All behavior response records during the specified time (before the entered Effective Date, before the end of the selected calendar, after the start of the selected calendar) are included. This means multiple records for a student are reported.

The date of the Behavior Response must fall on or before the Effective Date entered in the Extract Editor, on or before the Calendar End Date and must be on or after (or null) the Calendar Start

Date.

The student must have at least one enrollment record in the selected calendar and the enrollment start date must be less than or the same as the Effective Date entered on the extract editor.

Students are not reported when:

- The enrollment record is marked as **State Exclude** or **No Show**.
- The Grade Level of Enrollment is marked as **Exclude from State Reporting**.
- The Calendar of enrollment is marked as **Exclude**.

Report Editor

Field	Description
Extract Type	Selection determines the extract that is generated. For this instance, select the Physical Restraint and Time Out option.
Effective Date	Entered date is used to return current enrollments for the report. This field automatically populates with the current date, but can be changed by entering a new date in <i>mm/dd/yyyy</i> format or by clicking the calendar icon to select a date. This date is required in order to generate the report. <ul style="list-style-type: none"> • If an enrollment record has an end date before the effective date, that record is not included • If an enrollment record has an end date after the effective date or does not have an end date, that record is included.
File Identifier	Indicates the number attached to the end of the file name and is used to differentiate the file from other files generated.
Students without State IDs	When marked, the report returns students who do not have state IDs assigned.
Strip Apostrophes	When marked, the following marks are removed from student names and other reported data: <ul style="list-style-type: none"> • Apostrophes (') • Commas (,) • Periods (.) • Umlaut (Ö) • Tilde (Ñ) • Grave Accents (Ò), Acute Accents (Ó) • Circumflex (Ô) When not marked, these marks are not removed.
Report Protected Identities	When marked, student identity information (last name, first name, etc.) reports from the Protected Identity Information fields.

Field	Description
Format	Determines how the report generates. Use the State Format (Comma Delimited) when submitting the report to the state. Use the HTML or Tab Delimited option when reviewing data prior to state submission.
Ad hoc	Select a saved ad hoc filter to use when generating this report. Only those students included in the filter will be returned on the report if they meet the reporting requirements.
Calendar Selection	At least one calendar needs to be selected for the report to generate. Calendars can be chosen by Active Year , by School or by Year . If a calendar is selected in the Campus toolbar, that calendar is automatically selected.
Report Generation	The report can be generated immediately using the Generate Extract button. When there is a larger amount of data chosen (several calendars, large date range, etc.), use the Submit to Batch button, which allows the user to choose when the report is generated. See the Batch Queue article for more information.

Generate the Report

1. Select **Physical Restraint and Time Out** from the **Extract Type** field.
2. Enter the **Effective Date** for the report.
3. Enter a **File Identifier**. This is a three-digit number attached to the file name used to differentiate it from other ISBE Demographic and Enrollment Extract files generated.
4. Select the **Students w/o stateIDs** checkbox to include students without state IDs within the report.
5. If desired, mark the **Strip Apostrophes** checkbox.
6. If desired, mark the **Report Protected Identities** checkbox.
7. Select which **Format** to generate the report in. To preview information prior to submission to the state, use the HTML format. When submitting data to the state, use the State Format (Comma Delimited).
8. If desired, select an **Ad hoc Filter** from which to pull the student set.
9. Select which **Calendars** to include within the report.
10. Select the **Generate Extract** button or use the **Submit to Batch** option. The report displays in a separate window in the designated format.
