Nevada Foster Care

Last Modified on 03/11/2024 8:46 am CDT

Tool Search: Foster Care

The Foster Care tool indicates whether a student is in Foster Care. A start and end date is associated with each instance of a Foster Care record. These records are not tied to student enrollments or calendars.

See below for further information on fields specific to Nevada. For information on all other fields, please see the Foster Care article.

In order to import Foster Care files, be sure the Federal Programs Publishing tool is properly setup.

See the core Foster Care article for information on necessary tool rights, available Ad hoc fields, and guidance on adding and printing Foster Care records.

Foster Care Detail Fields

The Foster Care Detail fields are used to enter start and end dates, foster care status, and any relevant comments regarding the student's foster care.
