[Digital Equity Field Descriptions](#)

Tool Search: Digital Equity

The Digital Equity tool allows schools to track digital devices and internet availability for students. When a student's instruction method changes, the existing Digital Equity record should be ended and a new record created. Records cannot overlap.

See the core [Digital Equity](#) article for information on necessary tool rights, available Ad hoc fields, and guidance on adding and printing Digital Equity records.

The screenshot shows the 'Digital Equity' editor interface. At the top, there's a header with 'Digital Equity' and a star icon, and a breadcrumb trail: 'Student Information > State Programs > Digital Equity'. Below the header, there are fields for 'Student #' and 'DOB:'. A 'Related Tools' button is on the right. The main area has a toolbar with 'New', 'Save', 'Delete', and 'Print Summary Report' buttons. Below the toolbar is a 'Digital Equity Summary' table with columns: 'Start Date', 'End Date', 'Program Status', and 'Created By'. The table is currently empty. Below the summary table is the 'Digital Equity Detail' form. It includes fields for 'Start Date' (09/09/2023), 'End Date', 'Instruction Method for Remote Learning' (Blended Instruction), 'Internet Access for Remote Learning' (Y: Yes Internet Access), and 'Device Access for Remote Learning' (Y: Yes Device Access). There is also a 'Comments' text area.

Digital Equity Editor

Note the following:

- Use the [Federal/State Program Updater](#) tool to import Digital Equity information to this tool.
- For OLR Prime users, see the [OLR Federal Program Posting Setup](#) article for information on adding Digital Equity fields (and other Federal Program fields) to the Online Registration application. These fields automatically post to the added field.

Digital Equity Field Descriptions

The following fields are available in the Digital Equity Detail editor.

Start Date

Reports the start date for the Digital Equity record.
