

# NASIS Programs

Last Modified on 03/13/2026 2:15 pm CDT

Tool Search: NASIS

The NASIS tool is used to collect BIE student tribal information. The data fields are available in Ad hoc Reporting and sync to the State.

The screenshot shows the NASIS Editor interface. At the top, it displays the student's name 'Student, Anna', student ID '123456789', grade '10', and date of birth '01/01/2011'. Below this, there are 'Save' and 'Print Summary Report' buttons. The main form area is titled 'Native America SIS' and contains several fields: 'Tribe' (dropdown), 'Native Language' (dropdown), 'Certificate Type' (dropdown), 'Date of Certification' (calendar icon), 'ISEP documentation on file?' (checkbox, checked), 'ISEP Eligibility Certified By' (text input), 'Navajo Chapter' (dropdown with 'Select a Value' option), 'Home Agency' (text input), and 'Residential Agency' (text input). The interface is labeled 'NASIS Editor' at the bottom.

**Read** - View existing NASIS records.

**Write**- Edit existing NASIS records.

**Add**- Add new NASIS records.

**Delete** - Remove NASIS records.

For more information about Tool Rights and how they function, see the [Tool Rights](#) article.

## Add a NASIS Record

1. Click the **New** icon. A BIE CEIS Detail editor displays.
2. Search for and select the **Tribe**.
3. Search for and select the student's **Native Language**.
4. Select the **Certificate Type** (method used to verify a student's tribal membership).
5. Enter the **Date of Certification**.
6. Mark the **ISEP documentation on file** checkbox if applicable.
7. Complete the **ISEP Eligibility Certified By** field with the name of the person who confirmed the student for ISEP eligibility.
8. Select the code for the **Navajo Chapter** of which the student is a member.
9. Enter the **Home Agency**.
10. Enter the **Residential Agency**.
11. Click **Save**.
12. Click the **Print Summary Report** icon to generate a PDF view of the NASIS record.

## Field Descriptions

Field	Description																		
<b>Tribe</b>	<p>The code of the (Native American) Tribe to which the student belongs.</p> <p>When a value is selected, the student's Federal Race Ethnicity reports as 2: American Indian or Alaskan Native</p>

## Ad hoc Reporting

Create a report that pulls NASIS (tab) fields in the Filter Designer using the Student Data Type.

Custom attributes on 'custom' NASIS Programs tabs are not available as fields in Ad hoc.

The screenshot shows a software interface titled "Select categories & fields". At the top, there is a "Filter By" input field, a "Search" button, and a "Clear" button. Below this, the interface is divided into two main panes. The left pane, labeled "All Fields", contains a hierarchical tree structure. The "NASIS Programs" category is expanded, and its sub-items are listed: "personID", "tribalCode", "certificateOnFile", "certificateBloodType", "cibCertifiedBy", "certificationDate", "navajoChapter", "homeAgency", "residentAgency", and "nativeLanguage". A red rectangular box highlights this entire list. The right pane, labeled "Selected Fields", contains a list of the same field names: "nasis.personID", "nasis.tribalCode", "nasis.certificateOnFile", "nasis.certificateBloodType", "nasis.cibCertifiedBy", "nasis.certificationDate", "nasis.navajoChapter", "nasis.homeAgency", "nasis.residentAgency", and "nasis.nativeLanguage". A left-pointing arrow button is located between the two panes.
