[Prenatal Fields Available in Ad hoc Query Wizard](#) | [Prenatal Detail](#) | [Add a Prenatal Record](#)

Tool Search: Prenatal

The Prenatal tool tracks information about a person's Prenatal history and reports that information in the [ISBE Prenatal Extract](#).

The screenshot displays the 'Prenatal State Program Editor' interface. At the top, there is a green header with the Infinite Campus logo and a search icon. Below the header, the user profile for 'Prenatal ☆' is shown, including a student name 'Student, Andrea', grade '10 #123456', and date of birth '08/29/04'. There are also indicators for 'Health Alert' and 'IEP'. Action buttons for 'Save', 'Delete', and 'New' are present.

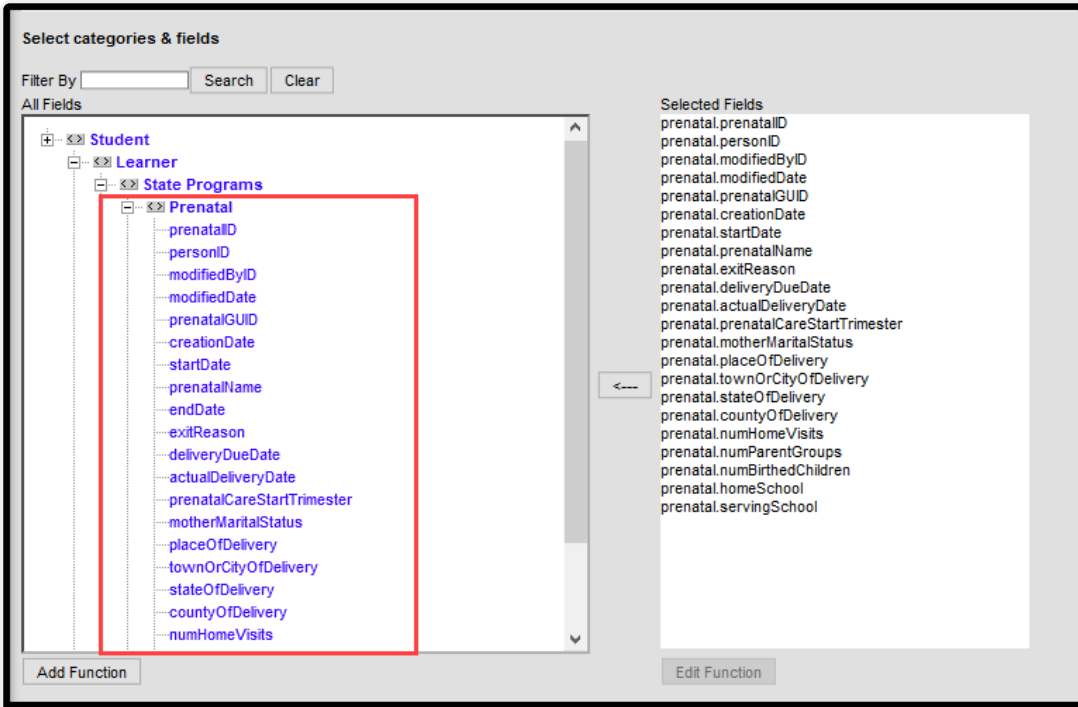

The main content area is divided into two sections:

- Prenatal Summary:** A table with columns for Prenatal ID, Prenatal Services Start Date, Prenatal Services Exit Date, and Prenatal Services Exit Reason. One record is visible with Prenatal ID 12345 and a start date of 01/01/2022.
- Prenatal Detail:** A form for editing a specific prenatal record. It includes fields for:
 - *Prenatal Services Start Date:** 01/01/2022
 - Prenatal ID:** 12345
 - Prenatal Services Exit Date:** (empty)
 - Prenatal Services Exit Reason:** (dropdown menu)
 - Delivery Due Date:** 05/13/2022
 - Actual Delivery Date:** (empty)
 - Prenatal Care Start Trimester:** (dropdown menu)
 - Marital Status of Mother:** (dropdown menu)
 - Place of Delivery:** (text input)
 - Town or City of Delivery:** (text input)
 - State of Delivery:** (text input)

At the bottom of the interface, the text 'Prenatal State Program Editor' is displayed.

Prenatal Fields Available in Ad hoc Query Wizard

Use the fields available in the **Student > Learner > Birth to 3** folder to create ad hoc reports. Select the Student Data Type from the Filter Designer options.

Prenatal Ad hoc Fields

Prenatal Detail

The following fields are available on the Prenatal editor.

Field	Description	Ad hoc Name
Prenatal Services Start Date <i>Required</i>	Indicates the start date of prenatal services.	prenatal.startDate
Prenatal ID	Provides an identification value for the prenatal record.	prenatal.prenatalID
Prenatal Services Exit Date	Indicates the end date of prenatal services.	prenatal.endDate

Field	Description	Ad hoc Name
Prenatal Services Exit Reason	Indicates why the prenatal services ended. When the selected reason is 01: Live Birth, additional fields display in red (required).	prenatal.exitReason
Delivery Due Date	Indicates the individual's due date.	prenatal.deliveryDueDate
Actual Delivery Date	Indicates the date the baby was delivered. This field is required when the Prenatal Services Exit Reason is 01: Live Birth.	prenatal.actualDeliveryDate
Prenatal Care Start Trimester	Indicates in what trimester the individual began receiving services.	prenatal.prenatalCareStartTrimester
Marital Status of Mother	Indicates whether the mother is married, not married, divorced, etc.	prenatal.motherMaritalStatus
Place of Delivery	Indicates where the baby was delivered (hospital, home, etc.). This field is required when the Prenatal Services Exit Reason is 01: Live Birth.	prenatal.placeofDelivery
Town or City of Delivery	Indicates the town or city in which the baby was delivered. This field is required when the Prenatal Services Exit Reason is 01: Live Birth.	prenatal.townOrCityOfDelivery
State of Delivery	Indicates the state (IL, etc.) in which the baby was delivered. This field is required when the Prenatal Services Exit Reason is 01: Live Birth.	prenatal.stateOfDelivery
County of Delivery	Indicates the county in which the baby was delivered. This field is required when the Prenatal Services Exit Reason is 01: Live Birth.	prenatal.countyOfDelivery
Number Home Visits in Year	Indicates the total number of home visits the mother and baby received during the year.	prenatal.numHomeVisits

Field	Description	Ad hoc Name
Number Parent Groups in Year	Indicates the total number of parent groups the mother (and baby) attendance during the year.	prenatal.numParentGroups
Number of Birthed Children	Indicates the total number of children the mother has birthed. This field is required when the Prenatal Services Exit Reason is 01: Live Birth.	prenatal.numBirthedChildren
