Release Pack Campus.2040 - September 2020

Last Modified on 08/13/2026 10:51 am CDT

Release notes provide the applicable personnel the ability to review enhancements, modifications, and regulated changes prior to accepting an update. It is advised that users review the release notes carefully and alert appropriate district staff to changes in Campus.

The Release Information article lists the approximate release date of all 2020 Campus releases. See the Rx Pack - Campus.2040 article for a list of Rx releases to the Campus.2040 release pack. Questions or concerns regarding an update should be directed to Campus Support.	Campus.2044 **> Campus.2040** Campus.2036 Campus.2032 Campus.2028

See the Supported Platforms article for more information about supported technologies.

This release includes case SIS-140647 which has a long-running script that may extend deployments. Districts updating to 2036.8 or higher can expect the first update to take approximately 20% longer than standard due to a one-time script.

Technical Information

See the Technical Information - Release Pack Campus.2040 article for a list of schema changes in this release.

Activity Registration

Activity Registration Updates (SIS-140429) **[Enhancement]**

The following changes were made for Activity Registration.

- A new tool was added for managing School Store and Activity Registration Categories. Previously, Categories for these modules were managed in separate tools. The new Categories tool can be found in School Store > Administration > Categories. As part of this change, School Store Products and Activities can be assigned to the same Category.
- A new checkbox called "Restrict to Associated School Enrollments" was added to "Step 4 - Link to Portal" in the Activity Builder. When this checkbox is marked, the Recipient dropdown list in the School Store will only display students who have an enrollment in the active school year for the school associated to the activity. This includes primary, secondary, and end dated enrollments.
- A new checkbox called "Partial Refunds" was added to "Step 4 - Link to Portal" in the Activity Builder. When this checkbox is marked, partial refunds can be issued in the Payments Reporter for the activity.
- If the activity has the "Track Limits" option turned on, a new checkbox called "Return to Inventory" now displays when completing a full or partial refund. When this checkbox is marked, Campus will return the activity to the inventory you have available.
- The Activity Name can now be changed until registration closes. Please note that if you change the Activity Name, any completed purchases/registrations that exist when you change

the name will still use the original name (name at the time the purchase was made) in School Store reports.
- For districts using the new looks and feel of Campus, a new menu item called Product Inventory was added in the School Store. The Product Inventory menu includes the Activity Monitor for Activity Registration. The Activity Monitor can also be accessed in Student Information > Activity Registration > Activity monitor. For districts still using classic Campus, the Activity Registration tool location has not changed.
- Miscellaneous changes were made for improved performance and for improving the user's experience.

API

Alpha API and ORM Framework Update (SIS-140854) **[Enhancement]**

An update to the Alpha API and ORM framework was applied. This update corrects an issue some districts were seeing with incorrect counts on the x-total-count and paging headers. This issue only impacted environments with more than one instance of the Infinite Campus application on the same server, and only when the environment was configured with more than one server. This issue primarily impacted districts utilizing the OneRoster 1.x API.

Attendance

Attendance– Period Detail Batch report termination error (SIS-137709)

A termination error was returned when the Period Detail Batch report was generated with only the 'Period Summary' reporting option selected. The issue was related to students with a Status/Excuse code not included in the Period Summary count and has been fixed. The work-around to include Course Summary or any of the other options to resolve the error and run the report are no longer needed.

Blended Learning

See the Blended Learning Release Notification for additional information.

Student Attendance - Virtual Group Icon Display (SIS-140425)

When a student is assigned to a virtual Blended Learning Group, the virtual group icon displays for all attendance records.

Article(s): Student Attendance

Path: Student Information > General > Attendance

Virtual Attendance Preferences - Warning When Modifying Preferences (SIS-140472) **[Enhancement]**

A warning has been added when the Virtual Attendance Posting Preference is enabled and students may not have Student Participation records for dates after the Attendance Posting Start Date because Participation-based Entry was not enabled.

When Virtual Attendance Posting is enabled and saved in a calendar where Participation-based entry of Virtual Attendance was not enabled in the range between the Attendance Posting Start date and the Posting Job Start date, a warning displays that indicates the following:

- The Attendance Posting Code will be applied to EVERY period from the Attendance Posting Start Date forward for virtual students.
- Teacher-entered attendance will be removed.

Section Roster Report - Blended Learning Group Option (SIS-140108)

An error occurred when generating the Section Roster Report with no Student Options marked and the Blended Learning Group Summary option marked. This has been corrected.

Also, a Blended Learning Group with a long name now wraps in the report header.

Article(s): Section Roster Report

Path: Scheduling > Courses > Course > Section > Roster; Scheduling > Reports > Section Rosters

Blended Learning Updates (SIS-140336) **[Enhancement]**

New features have been added to the Blended Learning tools:

Scheduling Blended Learning Tools

- Entering any part of a calendar name now returns matching options for all of the calendar selection fields.

Student Attendance

- The total number of students currently assigned to a group is now listed in parentheses when updating a group assignment.
- An End Group Assignment option has been added. Enter an Effective Date to indicate the LAST DAY the student is assigned to the current group. Future dates and the current date can be entered, but past dates cannot be entered.
- When a student is not currently assigned to a learning group, but is assigned to a group in the future, the start date of that group displays.

The following modifications have been made to Blended Learning Tools:

- When Creating New Blended Learning Groups or Adjusting Blended Learning Groups, the validation messages that display are now consistent between the two processes.
- The Adjust Blended Learning Groups interface has been updated slightly. Fields have been relocated for ease of use.
- Editing a group (modifying the group color and name) can no longer be done when using the Adjust Learning Groups tool. This option can only be done when using the New Blended Learning Groups tool.
- Performance for creating Blended Learning tools has been optimized.

Path: Scheduling > Reporting > Section Roster Report; Scheduling > Courses > Course > Section > Roster > Roster Print Options

Multiple Blended Learning Groups with no End Date (SIS-140598)

A modification to Blended Learning Groups has been made that prohibits the assignment of multiple Blended Learning Groups with different start dates without one group having an end date. With this modification, the correct end date is updated for the current group assignment record.

A student can only have one future group assignment.

Blended Learning - Instruction Changes & Campus Student and Parent (SIS-140863)
[Enhancement]

The following updates have been made in Instruction to support Blended Learning:

- The Roster, Student Groups, and the Message Center have been updated so that the blended learning group that displays for students is the one that is active during the term selected in the Campus toolbar.
- Seating Charts has been updated so that the blended learning group that displays is the one that is active for the section.
- Printed Planner Roster report has been updated to show blended learning groups.

Additionally, a new Virtual Attendance Preference has been added called 'Indicate that attendance was taken when a teachers saves participation for a previous day.' If this preference is marked, when a teacher saves participation for a section for a previous day, the Classroom Monitor and Attendance screens will indicate that attendance has been taken for that day.

The following updates have been made to Campus Student and Campus Parent:

- A new preference has been added to the Display Options to display the student's Blended Learning Group on the Today screen.
- (Kentucky only) A log of student responses to check-ins now displays, as is shown in other states.
- Check-in data for all states now displays in a side panel, instead of mixing the data in with attendance.

Grading Window - Incorrect Date Display (SIS-140730)

When creating a new Grading Window or modifying an existing Grading Window, the incorrect date of the window displayed in the tool, but was saved correctly in the database. This was due to the day of month not being a valid day in the month in which the Grading Window was active (e.g., created in a month that has 31 days for a window that begins and ends in a month that has 30 days). This has been corrected.

Arizona

Arizona – ESS DDC Extract Now Available (SIS-138747)

A new ESS DDC Extract is now available. This extract identifies students who are both designated as Special Ed and have a qualifying set of behavior records tied to the selected calendar(s).

In conjunction with this new extract, the following updates were also made:

- State Event Code Mapping attributes were updated to meet state requirements.
- State Resolution Code Mapping attributes were updated to meet state requirements.
- Violation Level 1 and Violation Level 3 attributes were updated to meet state requirements.
- A script was implemented to convert existing Event, Resolution, and Violation 3 codes to the updated attribute values.

NOTE: The following codes do not have a one to one conversion so will be scripted to map to "No State Code Mapping". Districts will have to manually update their event types to the correct matching state code. Likely, these codes are used in conjunction with the Violation Level 1 drop down. If that is the case, then districts should map this to the 'Other State Reported Violation' state event code. This event will likely need to be created at the district level for schools to use.

- 22 - Theft
- 50 - Firearms
- 52 - Other Weapons
- 53 - Dangerous Items
- 57 - Drug Violation

These events are currently available in the Violation Level 1 drop down. Schools can continue to use that drop down as long as the event assigned is tied to the 'Other State Reported Violation' state event code. If they want more detailed reporting at the event level without having to go to a sub category, they can create new events that are specific to each of these values.

- 88 - Theft - Non School Property
- 89 - Theft - School Property
- 90 - Destructive Devices e.g. Bomb or Grenade
- 91 - Handgun or Pistol
- 92 - Shotgun or Rifle
- 93 - Starter Gun or Pistol
- 94 - Air Soft Gun
- 95 - B.B. Gun
- 96 - Knife with a blade at least 2.5 inches
- 97 - Laser Pointer
- 98 - Letter Opener
- 99 - Mace/Pepper Spray
- 101 - Paintball Gun
- 102 - Pellet Gun
- 103 - Razor blade/box cutter
- 104 - Simulated Knife
- 105 - Taser or Stun Gun
- 106 - Tear Gas
- 107 - Billy Club
- 108 - Brass Knuckles
- 109 - Knife with a blade length of less than 2.5 inches
- 110 - Nunchakus
- 111 - Inhalants
- 112 - Prescription Drugs (Inappropriate use of)
- 113 - Over the Counter Drugs (Inappropriate Use of)
- 114 - Drug Paraphernalia
- 115 - Illicit Drug
- 116 - Substance represented as illicit drug
- 117 - Unknown Drug
- 119 - Serious Bodily Injury

A Most Severe checkbox has been added to the Behavior Event editor. Districts should go into existing events and check this box where appropriate in order for it to report correctly.

A Duration in School Hours text box has been added to the Resolution Details editor. Districts must go back and fill in this field where appropriate, otherwise 0 will report.

Arizona - Ed-Fi v3.3 Student Special Education Program Association Update (SIS-140677)

The endDate logic in the Student Special Education Program Association (SSEPA) resource has been updated to only look at overlapping enrollments in the same school and to account for null enrollment end dates when enrollments are overlapping within the same school.

The MainSPEDSchool logic in the SSEPA resource has been updated to report 'True' for the main enrollment if there are overlapping enrollments at different schools and to report ‘False’ for all other enrollments.

The reasonExitedDescriptor in the SSEPA resource has been updated to report SPED05 when a student has an End Status of W1 and there is not another consecutive enrollment in the same school year, in the same school, that starts the very next instructional day.

The reasonExitedDescriptor has also been updated to report SPED09 when a student has an End Status of W1 and there is another consecutive enrollment in the same school year, in the same school, that starts the very next instructional day.
