This article explains how and where Kentucky Infinite Campus users should store, manage, and access custom EL documents and forms.

EL Documents Custom Module - State Edition Only

The EL Documents module has been added to the Custom Forms tool.

EL state forms cannot be deleted at the district level.

Currently, Infinite Campus adds a state flag to documents existing in all Kentucky districts. State-flagged and inserted forms will sync locked and completed forms to the State Edition.

The screenshot shows the Infinite Campus Custom Forms interface. On the left, a navigation sidebar lists various modules, with 'Custom Forms' highlighted by a red box and a red arrow pointing to the main content area. The main area is titled 'Custom Forms' and contains a table of documents. The table has columns for MODULE, STATUS, NAME, SEQUENCE, FORM TYPE, START DATE, and END DATE. A red box highlights the first row of the table, which corresponds to the 'EL Documents' module. The table also shows other modules like 'Gifted & Talented' and 'Special Ed'.

Accessing and Using EL Documents - District Edition

Districts can align district EL Forms under this new module, and once EL documents have been added, users can access these forms in the Forms tool.

For example, in the image below, the user can access the Program Services Plan (PSP) for English Learners form.
