

Digital Equity (Texas)

Last Modified on 10/21/2024 8:21 am CDT

Tool Search: Digital Equity

The Digital Equity tool allows schools to track digital devices and internet availability for students. When a student's instruction method changes, the existing Digital Equity record should be ended and a new record created. Records may not overlap.

Currently, the state of Texas is using the standard Digital Equity Fields defined by Infinite Campus. Please see the [Digital Equity](#) article for more information.
