Tool Search: Digital Equity

The Digital Equity tool allows schools to track digital devices and internet availability for students. More than one record can be added, but records cannot overlap.

Fields vary by state. Please see the [State-Specific Information](#) section for more information on Digital Equity procedures in your state.

The screenshot shows the Digital Equity tool interface. At the top, there is a search bar with the text "Search for a tool or student". Below the search bar is the title "Digital Equity" with a star icon, and a breadcrumb trail: "Student Information > State Programs > Digital Equity".

Below the breadcrumb trail are four action buttons: "New" (with a plus icon), "Save" (with a floppy disk icon), "Delete" (with an X icon), and "Print Summary Report" (with a printer icon).

The main content area is divided into two sections:

- Digital Equity Summary:** This section contains a table with two columns: "Start Date" and "End Date". The "Start Date" column has a value of "09/01/2020".
- Digital Equity Detail:** This section contains several fields:

 - *Primary Internet Access Type in Res: RB: ResidentialBroadband (DSL, Cable, Fiber)
 - *Internet Performance: Yes: Yes - No issues
