## Tool Search: Digital Equity

The Digital Equity tool allows schools to track digital devices and internet availability for students. More than one record can be added, but records cannot overlap.

Fields vary by state. Please see your state's [State Tools](#) articles for more information on Digital Equity procedures in your state.

The screenshot shows the Digital Equity tool interface. At the top, there is a search bar with the placeholder text "Search for a tool or student". Below the search bar, the page title "Digital Equity" is displayed with a star icon, followed by a breadcrumb trail: "Student Information > State Programs > Digital Equity". A toolbar contains four icons: a plus sign for "New", a floppy disk for "Save", a trash can for "Delete", and a printer for "Print Summary Report".

The main content area is divided into two sections. The first section, titled "Digital Equity Summary", contains a table with two columns: "Start Date" and "End Date". The "Start Date" column has a value of "09/01/2020". The second section, titled "Digital Equity Detail", contains several form fields:

- \*Start Date:** 09/01/2020
- End Date:** (empty)
- \*Internet Access In Residence:** Yes: Yes - Internet Access in Residence
- \*Primary Internet Access Type in Res:** RB: ResidentialBroadband (DSL, Cable, Fiber)
- \*Internet Performance:** Yes: Yes - No issues
- \*Primary Digital Device:** DL: Desktop/Laptop
- \*Primary Device Access:** PD: Personal - Dedicated

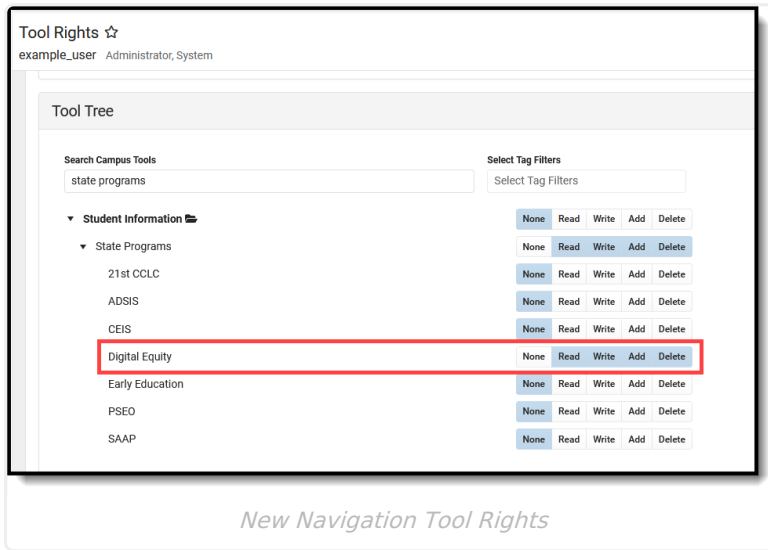

At the bottom of the detail section, it says "Modified By: Administrator; System 10/01/2020 10:07 AM" and "District Defined Elements".
