Academic Programs

Academic Programs– CTE Program's Progress tab errors for students marked 'No Show' (SIS-140761)

An error token was produced when attempting to view a student’s Academic Plan Progress tab for a CTE program if the student's only enrollment is marked ‘No Show’. This has been fixed.

Article(s): Progress (Academic Planning)

Path: Student Information > Academic Planning > Progress

Activity Registration

Activity Roster Update (SIS-141665)

An error was occurring when users marked the Payment Complete or Form Complete checkbox and tried to save the change on the Activity Roster screen. This error was happening when the activity did not have at least one roster record created by a School Store purchase. This issue was corrected.

Article(s): Activity Monitor and Activity Roster

Path: Activity Registration > Activity Monitor

Update for Checking Calendar Rights (SIS-141857) **[Enhancement]**

The Activity Monitor and Builder now verify the user has access to future calendars, associated with the activity, in order to edit activities.

Blended Learning

See the Blended Learning Release Notification for additional information.

Classroom Attendance, Section Attendance - Confirm Student Participation (SIS-140762) **[Enhancement]**

Attendance Office staff can now enter and modify participation for virtual students via the Classroom Monitor and the Course Section Attendance in Scheduling, as long as Virtual Attendance is enabled with Participation-Based Entry selected.

Article(s): Classroom Monitor; Section Attendance

Path: Attendance > Classroom Monitor; Scheduling > Courses > Course > Section > Attendance

Student Attendance - Ability to Backdate Blended Learning Groups (SIS-140704) **[Enhancement]**

The Student Attendance tool now allows the ability to add a start date in the past for the student's blended learning group. This requires users to be assigned Read rights to the **Can Backdate Blended Learning Group** sub-tool right.

When a student has an assignment for another Blended Learning Group that begins in the future, an alert displays asking if that assignment should remain.

When a student moves from a virtual group to a non-virtual group for any date within the affected range of Assignment Start Date to the current date, participation records for that date are removed.

When a student moves from a non-virtual group to a virtual group for any date within the affected range

of Assignment Start Date to the current date, participation records are added for that date for Tardy, Present, Early Release attendance events, and for days where the student does not have attendance events, unless that day is not considered an attendance day or the course is not marked for attendance.

This feature allows the backdating of a Blended Learning Group for a single student. Use the Manage Blended Learning Groups tool to backdate the start date for many students assigned to a Blended Learning Group. See SIS-140901 (https://kb.infinitecampus.com/help/release-pack-campus2044-october-2020#blended-learning---ability-to-backdate-groups-sis-140901) for information on that process.

Update to Allow Modifying Fund Accounts (SIS-131539) **[Enhancement]**

Before this release, districts could only change the Fee Types and School Store Products Types associated with a Fund Account. Now, districts can make any of the following modifications to an existing Fund Account including the Default Fund Account:

- Add or remove the Food Service option.
- Change the Fund ID name.
- Change the Bank Account ID.

Note: When you change a Fund ID name and/or Bank Account ID, Campus creates an inactive copy of the original Fund Account and names it by appending "Archived" to the original name; e.g,"FundName_Archived." Campus reporting uses "FundName_Archived" for past transactions and uses the new Fund ID name for new transactions. My Vanco reporting will use the original Fund ID name and/or original bank account for past transactions and will use the new Fund ID name and/or new bank account for new transactions.

As part of these changes, the "Active" and "Inactive" columns were removed from the summary view of the Fund Accounts. Instead, there is a new section in the table called "Inactive Fund Accounts." Users can expand this section of the table to see all inactive Fund Accounts.

Student Transcripts (SIS-130837) (SIS-108881) **[Enhancement]**

In the Campus.1745 (November 2017) Release, a new Student Transcript was released. Since then, two options of the Student Transcript were available – one in Student Information > Counseling (the new Transcript) and one in Student Transcript in Student Information > General (the original Transcript). In this release, the original Student Transcript has been removed and replaced with the new Student Transcript available in Student Information Counseling.

The new Student Transcript is now available in the New Look of Campus, as is the eTranscript Release Setup.

- When using the Classic View of Campus, Transcripts can be accessed from either Student Information > General > Transcript OR Student Information > Counseling > General > Transcripts.
- When using the New Look of Campus, Transcripts are ONLY available in Student Information > General. Enter the word Transcripts in the Search bar to access student transcripts. Users must have tool rights assigned to Student Information > General > Transcripts for the Transcripts tool to display in the new navigation.

Existing tool rights to both Transcript tools is used to determine access and the highest access assigned is respected. If a user is assigned RWA to the original Transcript and RWAD to the Counseling Transcript, the user has RWAD to the Transcript in both locations.

The original Transcript included a Free Form tool right that allowed users to enter values for course name and number and school name and number that were not included in the school's course catalog (e.g., when a student transfers and transcript records are added with the original school's course details). This tool right is now available in the new Transcript.

Several new features have been added to the Student Transcript, as follows:

- A loading icon displays when the Transcript is loading. Note that depending on the amount of transcript records available, the length of time for it to load may vary.
- The Transcript displays in a read only mode. To update an existing record, click anywhere on the row to open the detail view of that record or use the Edit button to make quick edits to the fields available on the grid. To add a new record, use the New Details button. The ability to edit a Transcript record requires Read and Write tool rights.
- Use the Add Row option to quickly add new records to the Transcript. This functions like the Batch Add feature on the original Transcript. This option is available after selecting the Edit button. When a user adds multiple rows but doesn't populate any of the fields, those blank rows are deleted upon saving.

The following issues have also been addressed:

- Localized fields on the Course editor that are used for state reports now remain marked on a student's Transcript in the Additional Information editor and post properly with a student's score for a transcript record.
- Alert text is now aligned properly within the alert box.
- When a user leaves a required field empty, an alert displays indicating it's a required field when the user leaves the field. Previously, the alert displayed when first clicking into the field.
- When adding a new transcript record or modifying an existing transcript record, the incorrect date of the record displayed, but was saved correctly in the database. This was due to the day of month not being a valid day in the month in which the record was created. This has been corrected.
- Performance of the Transcript has been optimized when modifying or adding a record.

The Distance Learning Summary report in the Attendance Extract has been updated with the following:

- For each ‘number of students’ field, the logic for virtual days has been updated to look for a day event of 'Virtual Code Override' (code 99) in addition to a virtual flag from the blended learning group.
- For each existing ‘percentage’ field, the logic for virtual days has been updated to look for a day event of 'Virtual Code Override' (code 99) in addition to a virtual flag from the blended learning group.
- For each existing ‘percentage of days’ field, the logic has been updated to ignore AOI enrollments and only look at Primary enrollments if more than one enrollment exists.

- Several new fields have been added to report the percentage of scheduled hours Distance Learning.

The Attendance Summary Report in the Attendance Extract has been updated with the following:

- The Aggregate Days in Distance Learning field has been updated to include days with a day event of 'Virtual Code Override' (code 99), ignore AOI enrollments, and only look at Primary enrollments if more than one enrollment exists.
- The Aggregate Membership Days field has been updated to ignore AOI enrollments, and only look at Primary enrollments if more than one enrollment exists.

Kentucky - PeriodID Added Attendance Records Created via Virtual Attendance Posting (SIS-140839)

The Virtual Attendance Post stored procedure has been updated to include the PeriodID associated with the Check Out/Check In record.

A one-time script has been run to clear out all previously posted virtual attendance for Kentucky districts. The Virtual Attendance Post Tool must be run to repopulate the removed attendance records and ensure PeriodID is included. The Attendance Posting Start Date should be backdated to the first instructional day of school.

Kentucky – Ability to Backdate Blended Learning Group Assignments Added (SIS-141173)
[Enhancement]

An update was made to allow for the backdating of blended learning group assignments for users who have at least R(ead) rights to a new tool right called ‘Can Backdate Blended Learning Group’ located under Student Information > Attendance.

When backdating, if an existing blended learning group assign exists, the end date of the new assignment will be the effective start date – 1. If a new group assignment start date is less than or equal to an existing group assignment start date, the existing assignment record will be removed.

If student context changes from Virtual to Physical for any date in the affected range of Assignment Start Date through today's date, the participation records for that date are removed.

If student context changes from Physical to Virtual for any date in the affected range up until yesterday's date, logic will do the following for each scheduled period on the affected date:

- Create Participation Record for student with ModifiedBy PersonID = Current user Person ID and Participation Confirmation = 1
- Participation records are not inserted on days that are not enabled for Attendance on Day Attributes
- Participation records are not inserted for courses that are not enabled for Attendance on Course Attributes

Previously entered attendance data, for dates that change context, will not be altered.

Massachusetts – Virtual Day Attendance Override Added (SIS-141936)

A Virtual Day Event Override was added to Day > Type attribute. This field helps in attendance reporting for calendars where blended learning groups were not set up completely correct at the beginning of the

school year. This option allows districts to count a calendar day as virtual for the district even if blended learning groups were not set up.

To properly report attendance for Virtual Day Override Events on calendars, the following SIF logic was modified:

- StudentAttendanceSummary/DaysAttended
  - In Person is defined as a student who does not have a Blended Learning Group assigned to them or is in a Blended Learning Group that is not assigned to a Day Event on the Calendar or there is NOT a Virtual Day Override Event on the calendar.
- StudentAttendanceSummary/ExcusedAbsences
  - In Person is defined as a student who does not have a Blended Learning Group assigned to them or is in a Blended Learning Group that is not assigned to a Day Event on the Calendar or there is NOT a Virtual Day Override Event on the calendar.
- StudentAttendanceSummary/UnexcusedAbsences
  - In Person is defined as a student who does not have a Blended Learning Group assigned to them or is in a Blended Learning Group that is not assigned to a Day Event on the Calendar or there is NOT a Virtual Day Override Event on the calendar.
- StudentAttendanceSummary/DaysAttendedRemote
  - To determine virtual, look at the blended learning group the student is in and the instructional days the blended learning group is added to the calendar as a day event OR there is a Virtual Day Override Event on the calendar.
- StudentAttendanceSummary/DaysAbsentRemote
  - To determine virtual, look at the blended learning group the student is in and the instructional days the blended learning group is added to the calendar as a day event OR there is a Virtual Day Override Event on the calendar.

The following elements on the SIMS Extract have been updated to account for Virtual Day Override events:

- daysInAttendance
  - A student is considered in-person if they are NOT in a blended learning group OR they are in a blended learning group where there is NOT a day event on that instructional day or there is NOT a Virtual Day Override Event on the calendar.
    studentTruancy
  - A student is considered in-person if they are NOT in a blended learning group OR they are in a blended learning group where there is NOT a day event on that instructional day Or there is NOT a Virtual Day Override Event on the calendar.
- daysAttendedRemote
  - To determine virtual, look at the blended learning group the student is in and the instructional days the blended learning group is added to the calendar as a day event OR there is a Virtual Day Override Event on the calendar.
    - If a student is not in a blended learning group and there is not the Virtual Override Day Event on the Calendar, report 0
- daysAbsentRemote
  - To determine virtual, look at the blended learning group the student is in and the instructional days the blended learning group is added to the calendar as a day event OR there is a Virtual Day Override Event on the calendar.

Missouri - Virtual Minutes Calculation for Attendance Audit Report, MOSIS Enrollment and Attendance (SIS-140909)

Logic for calculating virtual minutes has been modified to be a sum of all instructional hours in the online

course section. This sum is used for the 95, 94 and 47% calculation.

The Section Start Date of the online class to the end date of the report generation is used. When the student's roster start and end date is the same, it is not calculated.

On the MOSIS Enrollment and Attendance Report, Regular Hours Attendance (field 95) uses the sum of the instructional minutes within the date range of the report to find the value.

On the Attendance Audit Report, the Present Hours field on the Detail Report, Summary Report and Student Summary Report uses the sum of the instructional minutes within the date range of the report to find the value.                 - The FRAM End Date is not null and <= the current date
            - When FRAM End Date > the current date or is null, do not report this element
- The SIF ProgramParticiation/GiftedTalented and AlternativeEducation elements have been updated to report new Program Participation types.

NOTE: Districts will need to create 3 new Attendance Codes to properly report Virtual Attendance data. Please make the following:

- DVA
    - Status: Absent
    - Excuse: Excused or Unexcused (district decision)
- DVAP
    - Status: Present
    - Excuse: Excused
- COV
    - Status: Absent
    - Excuse: Excused

To support these new Attendance Codes and properly report daily Virtual student attendance to the state, SIF StudentDailyAttendance logic was updated to include the following:

- Non-blended learning group:
  - When the student's day does NOT qualify to report 0.5 or 1.0 absent (calculated as we currently do - no change):
    - When the student has an attendance code with Code = "DVAP" assigned to any instructional period in the day, report a StudentDailyAttendance record for the student and day that references (in AttendanceCodeInfoRefId) the DVAP attendance code (which, FYI, will be a "Present" status attendance code).
- Blended Learning in use for virtual education:
  - When the student is assigned to a blended learning group that is also assigned to this specific calendar day, AND the student does NOT calculate as half (0.5) or full day (1.0) absent:
    - Report a StudentDailyAttendance record for the student and day that references (in AttendanceCodeInfoRefId) the DVAP attendance code (which, FYI, will be a "Present" status attendance code).

Utah – SIF Object Updates (SIS-140822)

The following updates were made to SIF objects and elements:

- Logic for the SectionInfo/Teacher1ID, Teacher2ID, and Teacher3ID extended elements was updated to report based on the following priority:
  - Primary Teacher

    - Teacher
    - Section Staff
    - Earliest Staff History Start Date or null Start Date
    - Latest Staff History End Date or null End Date
    - Earliest Staff History ID
- Logic for the StudentAttendanceSummary/DaysAttended element was updated so that when the School Membership FTE field is null, logic sums the unique instructional days the student is enrolled where the student had any period in the day not one of the following:
    - Status = “Absent”
    - Excuse = “Unknown”, “Excused” or “Unexcused”
- StudentAcademicRecord/AssessmentPerformanceHistory elements were updated as follows:
    - SubtestCategory was updated to report the name of the Subject.
    - TestScore was updated to report the value entered in the score fields and not include additional decimal places.
- StudentPersonal elements were updated to report whole numbers without decimals.

The Read Grade Level and Reading Intervention fields were added to the Test Setup tool.

The Birth City and Birth State fields were added to the Identities tab.

SIF AddressList/Address/Type has been updated to only report instance of ‘0765’ per student.

The following Date-related elements were updated to report in the proper format:

- StudentAcademicRecord/EnrollmentHistory/StudentSchoolEnrollmentData/EntryDate
    - Now reports in YYYY-MM-DD format.
- StudentParticipation – All date fields now report in YYYY-MM-DD format.

Utah – SIF Updates (SIS-141690)

The following SIF updates were made:

- StudentPersonal/Demographics, StudentDemographics/Demographics, and StaffPersonal/Demographics elements have been updated to report the same Demographics elements, including RaceList.
- The StudentAcademicRecord/AssessmentPerformanceHistory/Assessment section of StudentAcademicRecord has been updated to report the SubtestCategory when the Subject is selected on the Test Setup and the Assessment/Name must report the Test Setup > Test Detail > National Test National Code from the topmost parent assessment with National Test > National Code = "AP", "SAT" or "ACT".
- StudentAttendanceSummary/DaysAttended was incorrectly reporting greater than DaysInMembership. This has been corrected so that Attendance days always count distinct calendar days. If the student qualifies as report present in either, they should be considered present. DaysAttended must never be > DaysInMembership.
- Logic for the StudentPersonal/SIF_ExtendedElements/SIF_ ExtendedElement[@Name='UTExtensions']/ StudentPersonalExtensions/ResidentStatus element has been updated so that when Resident Status is Null:
  - When an attribute Default Value exists, report the Attribute Default Value.
  - When an attribute Default Value does not exist, Reports blank.
- Logic for SPED Program Records - StudentParticipation/ExtendedElement/DaysInMembership element has been updated to the following:
  - When the latest associated enrollment has a Local Start Status mapped to 04 or 05, reports “000”.
  - When Local Start Status is NOT mapped to 04 or 05:
    - Count of days on and between the IEP Plan Start Date and the earliest of (the current date (do not add +1), enrollment SPED Exit Date + 1, IEP Plan End Date + 1, and latest instructional day in the student's latest enrollment calendar in the Zone Year + 1)
- Logic for Youth In Care Program Records - StudentParticipation/ExtendedElement/DaysInMembership element has been updated to the following:
  - When the latest associated enrollment in the SIF Zone Scope that has a Local Start Status mapped to 04 or 05, reports “000”.
  - When Local Start Status is NOT mapped to 04 or 05:
    - Reports the count of days between the Youth In Care Start Date and End Date + 1 when End date is not null.
    - When the Youth In Care End Date is null, the End Date is considered to be the last instructional day in the student’s latest enrolled calendar.
- The StudentAcademicRecord/CourseHistory/SchoolAttendedRefId will use the following hierarchy when reporting:
  - SchoolID if that exists based on matching School Number/Name
  - School Number if it is entered but not matching schoolID is found.
  - School Number of student’s most recent enrolled school if no School Number is entered in transcript
  - 9999
- Logic for the StudentAcademicRecord/AssessmentPerformanceHistory/Assessment/AdministrationDate has been corrected so that when the Date Field is blank, logic reports the Date from any parent assessments it’s attached to, beginning with the direct parent and working up until a non-blank Date field is found.
- Logic for the StudentAcademicRecord/SchoolAttendanceHistory/SchoolAttended/SchoolInfoData/NCESId element has been removed.

- StudentAttendanceSummary/DaysAttended logic has been updated to consider a student absent when they are marked absent/exempt. A student must only be considered not in attendance when all of their enrolled periods are marked absent or exempt.
- YIC StudentParticipation/ProgramType/Code ‘0283’ has been changed to ‘9999’.
- The following extended elements were removed from each of the 3 StudentParticipation record types:
