

# BIE PSO Interview

Last Modified on 05/22/2025 9:23 am CDT

## Tool Search: PSO Interview

The BIE PSO (Post School Outcome) Interview tool records former student responses to questions regarding the student's departure from the school system one year prior. The information collected helps schools better understand student exits and post-schooling activities and identify where to allocate programs and resources to meet student needs. This tool is available to both District Edition and NASIS State Edition users.

This tool syncs to the NASIS State Edition. A successful sync-to-state requires [Zones](#) to be set up.

An expandable **Interview Introduction** section provides users with an introductory script to help explain the purpose of the call to interview respondents.

Instructions

The Post School Outcome (PSO) editor is used to collect information from students who exited the school system one year prior.

The Interview Introduction field provides an introductory script to assist in explaining the purpose of the call to interview respondents. Selecting an Interview Outcome is required. The Additional Interview Details field may be used to add information not captured in the other available fields.

Interview Introduction

The Bureau of Indian Education Division of Performance and Accountability requires school staff to conduct 10 to 15 minute interviews with former students who left high school one year ago. The purpose of the interview is to learn what former students do after they leave high school. This information is used to help high schools improve programs for students with disabilities who are still in high school. I want to assure you that I am not selling anything, and that this interview is completely anonymous and voluntary.

Interview Outcome

1. Interview Outcome

▼

Post-Secondary School

2. At any time since leaving high school, have you ever been enrolled in any school, job training, or education program?

☐ Yes
 ☒ No

3. What type of post-graduation education or job training program?

▼

# Understanding the BIE PSO Interview Tool

The BIE PSO Interview tool includes the following collection fields. Each section can be expanded or collapsed for easier viewing.

Students who left the school in a prior year do not populate in a 'Student' search in the current year. Students only populate in a Student search if searched within a school year they have an enrollment. Otherwise, use 'All People' when searching for former students.

Interview Sections	Description	
Interview Outcome	Records whether or not the interview was completed. The following options are available:	
	Code	Name
	C	Completed Interview
	NC	School Did Not Complete Interview
	NS	Unable to Contact Student
