

Rx Pack - Campus.2044

Last Modified on 11/20/2025 12:42 pm CST

The following corrections are included in Rx Packs for October and November 2020. Rx Packs contain a small number of critical cases to fix urgent issues, with delivery in an immediate time frame (e.g., the fix cannot wait for the next four week Release Pack).

It is recommended that customers apply all subsequent Release Packs immediately following Rx Packs. Doing so will benefit both customers and Infinite Campus when it comes to supporting the patch.

Rx Packs are cumulative; each Rx pack will automatically include all previous Rx packs within that release. These cases will also be included in the Campus.2048 pack unless otherwise noted.

Below is a list of all Rx Packs for Campus.2044 and the date of availability:

- Rx Pack Campus.2044.8 - Wednesday, November 25, 2020
- Rx Pack Campus.2044.7 - Thursday, November 19, 2020
- Rx Pack Campus.2044.5 - Thursday, November 12, 2020
- Rx Pack Campus.2044.4 - Friday, November 6, 2020
- Rx Pack Campus.2044.3 - Friday, October 30, 2020
- Rx Pack Campus.2044.2 - Wednesday, October 28, 2020
- Rx Pack Campus.2044.1 - Monday, October 26, 2020

See the [Release Pack Campus.2044 - October 2020](#) article for a full list of cases included in the Campus.2040 release.

[Massachusetts - HR License Numbers and MA Degree Info Missing from SIF Data \(SIS-142759\)](#)

HR License Numbers and MADegreeInfo extended element info were pulling data from incorrect data tables and reporting null values via SIF. To correct this issue the following updates were

made:

- For the SIF StaffPersonal object, the following trigger logic was added:
 - A Change event occurs when any changes are made to a staff's License Number
 - A Change event occurs when any changes are made to a staff member's MADegreeInfo element.
- Logic for the StaffPersonal/OtherIdList/OtherId element has been updated to the following:
 - When the License is Active as of the State Reporting Date (or today's date if the State Reporting Date is Null) and the License Number is Null, element (OtherIDList) does not report.
 - When multiple licenses exist for the same Employment record, then report the License that is Active as of the State Reporting Date (or today's date if the State Reporting Date is Null) and use the Active License that contains the latest Start Date.
 - If any of the 3 fields of Degree Type, Degree Institution, or Degree subject are Null, then report all Null values for all fields.
 - If any of the 3 fields of Degree Type, Degree Institution, or Degree subject contain 00 values, then report those 00 values in addition to any field that may contain numeric values.
 - The data table location has been updated to now pull from Human Resources > Personnel > Personnel Master > Qualifications > Education > Qualifications Details.

Utah – December 1 Reporting Updates (SIS-141976)

The following SIF-related updates were made to ensure proper Dec 1 reporting:

- Logic for the StudentAcademicRecord/AcademicPerformanceSummary/ProjectedGraduationDate element has been updated to report the year in NGA Cohort End Year, followed by the month in which the student's latest year calendar ends, prioritized by latest Start Date, then Primary enrollment.
- Logic for the StudentParticipation/ExtendedElement/TimeCode element has been updated to report null when the Time field is Null or N/A.
- Logic for the StudentParticipation/StudentSpecialEducationFTE element has been updated to report null when the Regular Percent field is null or N/A.
- Logic for the StudentParticipation/ExtendedElement/IsOnePercent element has been updated to the following:
 - In the SPED StudentParticipation (0270) instance:
 - Reports "Y" when DLM 1% field = Yes.
 - Otherwise, reports blank.
- Logic for the StudentAcademicRecord/ExtendedElement/PercentileRank element has been updated to have a maximum allowed value of 99.99.
- Logic for the DisciplineIncident object has been updated to the following:
 - For a Primary Event - When there is only 1 Behavior Event on the Behavior Incident:
 - When Primary Event = Checked.
 - Otherwise, report "Primary" for the lowest Event ID when no Primary Event exists.
 - When there is more than 1 Behavior Event on the Behavior Incident, and the student

does not belong to a Behavior Event with "Primary Event" = Checked, report "Primary"

- Logic for the StudentSchoolEnrollment object has been updated to include the following:
 - When a student has > 1 enrollment that belongs to the same School, where the enrollment Start Date and End Dates (or null End Date) overlap, and the Service Type of the overlapping enrollment(s) is NOT Primary, only 1 StudentSchoolEnrollment record must be reported, which will be from the Primary enrollment.
 - Note: When an enrollment End Date is entered, we report End Date +1, which means that if the subsequent enrollment begins on the End Date +1, the prior End Dated enrollment will overlap the subsequent enrollment, and so this would be considered an overlapping enrollment.

The Title 1 Start Date and Title 1 End Date fields have been reactivated on the Title 1 program.

The Special Ed Time, Regular Percent, and DLM 1% fields have been added to Ad hoc:

- Time (settingCode1)
- Regular Percent (settingCode 2)
- DLM 1% (extendedTime)

Blended Learning

Blended Learning - Ad hoc Participation Detail View (SIS-142194)

In the Campus.2044 Release (see SIS-141293), spaces were removed from column names in the Blended Learning Participation Detail View to maintain consistency with other database views. This caused errors for users who had saved filters using the column names with spaces.

To correct this, the original column names with spaces have been re-added but are deactivated. Use the Element Replacement tool in Data Utilities to update the saved filters with the spaced column names to instead use the non-spaced column names.

Arizona - Attendance Extract Updates (SIS-141470)

The following updates were made to the Attendance Extract:

- The Student Attendance Summary has been split into two reports: Student Attendance Audit and Distance Learning Student Summary.
 - The Student Attendance Audit provides aggregate attendance data per student within the selected calendar.
 - Additional fields have been added to the Student Attendance Audit to assist with state audits.
 - The Distance Learning Student Summary provides distance learning statistics per student within the selected calendar.
- The Distance Learning Summary has been renamed to the Distance Learning School Summary.
- The description at the top of the Attendance Extract editor has been updated to properly refer to and describe the new Student Attendance Audit and Distance Learning Student Summary reports as well as reference the renamed Distance Learning Summary.

NOTE: The Student Attendance Audit will not populate the Aggregate Ed-Fi Days Absent field for any school year prior to the 19-20 school year. For the 19-20 school year, the field will only report if a resync of the attendance data can successfully be performed. There are no issues in reporting for the 20-21 school year and beyond.

Also, the Student Attendance Detail will not populate properly for any school year prior to the 19-20 school year. For the 19-20 school year, the report will only populate correctly if a resync of the attendance data can successfully be performed. There are no issues in population for the 20-21 school year and beyond.

Massachusetts - SIF StaffAssignment to Send Non-Teacher Record to State (SIS-142578)

Population and business rules for the SIF StaffAssignment object have been updated to include the following:

- The following requirements only apply to assignments where the title codes only have a value attribute of "t"

- The staff must be assigned to the section as a Primary Teacher OR a Teacher
- Note: If all assigned sections have no students with primary enrollments rostered into the course, staff assignment will not pull (in other words, at least 1 student with a primary enrollment must be enrolled in at least one course section the teacher is assigned to).

Also, the following Non-Teaching Staff Assignment Codes were updated with a "t" in the Value column to identify those non-teaching staff codes that should report to the State. These Staff Assignment Codes can be found under System Administration > Custom > Attribute Dictionary > EmploymentAssignment > Title > Dictionary. "T" values can be updated by the district at any time as needed.

Value = t for the following Staff Assignment Codes/Titles:

- 2305 - Teacher
- 2306 - Co-Teacher
- 2307 - Virtual Course Teacher
- 2308 - Virtual Course Co-Teacher
- 2310 - Teacher - support content instruction

The population requirement for the SIF StaffSectionAssignment object has been updated to the following:

- Records associated with a Calendar marked with exclude or sifExclude or with a Staff Assignment that is marked with exclude or with a District Employment that is marked with exclude will not report.

The following updates were made to the SIF StaffAssignment object:

- Reporting logic was updated to trigger a delete when the Exclude check box is checked on the StaffAssignment Object.
- Reporting logic was updated to trigger an add when the Exclude check box is unchecked on the StaffAssignment Object.
- New population requirements were added to not send StaffAssignment objects when the District Employment Exclude checkbox is checked.
- Reporting logic was updated so that if more than 1 District Assignment exists for the same JobFunction/OtherCodeList/OtherCode (Title standard code) within the reported school year, report the earliest start date and the oldest end date from all assignments.
- Logic for the JobStartDate element has been updated so that if more than one assignment exists for the same JobFunction/OtherCodeList/OtherCode (Title standard code) within the reported school year, the element will populate with the earliest start date from all assignments.
- Logic for the JobEndDate element has been updated so that if more than one assignment exists for the same JobFunction/OtherCodeList/OtherCode (Title standard code) within the reported school year, the element will populate with the oldest end date from all assignments. If the end date is null, logic will consider that the oldest end date and report based on the end date of the calendar

The following updates were made to the SIF EmploymentRecord object:

- Reporting logic was updated to trigger a delete when the Exclude checkbox is checked on the EmploymentRecord object.
- Reporting logic was updated to trigger an add when the Exclude check box is unchecked on the EmploymentRecord Object.
- Reporting logic was updated to report from the most recent District Employment record that was active based on the state reported date where Start Date <= the state reported date.
 - Report staff if the District Employment End Date is NULL or is >= the state reported date.
 - If the state reported date is not populated, use current date
- Logic for the MAEmploymentStatus element has been updated to the following:
 - When District Employment End Date = Null or when District Employment End Date = NOT Null, AND is >= State Reported Date (If state reported date is not populated, use current date),
 - If state reported date is 10/1 and the 'Oct 1. Status Override' field is populated, report status value

Massachusetts - Virtual Day Attendance Override Added (SIS-141936)

A Virtual Day Event Override was added to Day > Type attribute. This field helps in attendance reporting for calendars where blended learning groups were not set up completely correct at the beginning of the school year. This option allows districts to count a calendar day as virtual for the district even if blended learning groups were not set up.

To properly report attendance for Virtual Day Override Events on calendars, the following SIF logic was modified:

- StudentAttendanceSummary/DaysAttended
 - In Person is defined as a student who does not have a Blended Learning Group assigned to them or is in a Blended Learning Group that is not assigned to a Day Event on the Calendar or there is NOT a Virtual Day Override Event on the calendar.
- StudentAttendanceSummary/ExcusedAbsences
 - In Person is defined as a student who does not have a Blended Learning Group assigned to them or is in a Blended Learning Group that is not assigned to a Day Event on the Calendar or there is NOT a Virtual Day Override Event on the calendar.
- StudentAttendanceSummary/UnexcusedAbsences
 - In Person is defined as a student who does not have a Blended Learning Group assigned to them or is in a Blended Learning Group that is not assigned to a Day Event on the Calendar or there is NOT a Virtual Day Override Event on the calendar.
- StudentAttendanceSummary/DaysAttendedRemote
 - To determine virtual, look at the blended learning group the student is in and the instructional days the blended learning group is added to the calendar as a day event OR there is a Virtual Day Override Event on the calendar.
- StudentAttendanceSummary/DaysAbsentRemote
 - To determine virtual, look at the blended learning group the student is in and the instructional days the blended learning group is added to the calendar as a day event OR there is a Virtual Day Override Event on the calendar.

The following elements on the SIMS Extract have been updated to account for Virtual Day Override events:

- daysInAttendance
 - A student is considered in-person if they are NOT in a blended learning group OR they are in a blended learning group where there is NOT a day event on that instructional day or there is NOT a Virtual Day Override Event on the calendar.
- studentTruancy
 - A student is considered in-person if they are NOT in a blended learning group OR they are in a blended learning group where there is NOT a day event on that instructional day Or there is NOT a Virtual Day Override Event on the calendar.
- daysAttendedRemote
 - To determine virtual, look at the blended learning group the student is in and the instructional days the blended learning group is added to the calendar as a day event

OR there is a Virtual Day Override Event on the calendar.

- If a student is not in a blended learning group and there is not the Virtual Override Day Event on the Calendar, report 0
 - daysAbsentRemote
 - To determine virtual, look at the blended learning group the student is in and the instructional days the blended learning group is added to the calendar as a day event
- OR there is a Virtual Day Override Event on the calendar.
