[Compare Data in Ed-Fi and Infinite Campus](#) | [View Ed-Fi JSON](#) | [View Errors](#) | [Perform a Resync](#)

Tool Search: Ed-Fi Data

The Ed-Fi Data tool allows users to compare student-related Ed-Fi resources with the data in Infinite Campus. To compare the data, a configuration and resource need to be selected. This tool can be used only for configurations on Ed-Fi versions 3.1 or higher and Campus version 2048.

Compare Data in Ed-Fi and Infinite

Campus

The Ed-Fi Data tool allows districts to compare student records in Infinite Campus with data that has been sent to Ed-Fi. The comparison is done by configuration and resource.

The screenshot shows the 'Ed-Fi Data' tool interface. At the top, there are navigation links: 'Student Information > General > Ed-Fi Data'. Below this, there are two dropdown menus: 'Select a Configuration*' with '2020-2021 Core' selected, and 'Select a Resource*' with 'Students' selected. Below the dropdowns is an 'Errors' section containing a table with the following data:

Error ID	Timestamp	Data Source	Name	Resource Name	Error Message	Configuration
78743	12/8/20, 8:45 AM	Trumbull High School 20-21 Trumbull High School 2901 Math Workshop Section # 101 Ed Fi Final	[REDACTED]	Grades	Student does not have a Student Section Association record for the section. This record must exist before Grades can be sent.	2020-2021 Core
78742	12/8/20, 8:45 AM	Trumbull High School 20-21 Trumbull High School 2901 Math Workshop Section # 101 Ed Fi Final	[REDACTED]	Grades	Student does not have a Student Section Association record for the section. This record must exist before Grades can be sent.	2020-2021 Core

At the bottom of the interface, there are three buttons: 'Compare' (highlighted with a red box), 'Get Ed-Fi JSON', and 'Resync'. Below the buttons is the text 'Compare Ed-Fi Data'.

1. Select a **student** for whom data will be compared.
2. Select a valid **configuration**. Only configurations the student has an association with appear in the droplist.

This tool can be used only for configurations on Ed-Fi versions 3.1 or higher.

3. Select the **resource** in which to compare data. Only resources marked as Active are displayed in the Resource droplist.
4. Click the **Compare** button.
5. The data for the selected student is displayed. The column on the left displays data sent to Ed-Fi for the specific resource, and the column on the right displays data within Infinite Campus. If all of the records match, a 'All Records Match' message will be displayed above the data.

Resync

1. Click the **Resync** button.
2. The Resync side panel displays. Select the **Configuration** for which the resync will be performed.
3. Select the **Resources** for which data will be resynced. The Resync will not include any dependencies of the selected resource.
4. Click the **Start Resync** button.
5. When a resync is performed, all errors for the selected student in the Error Log for the selected resource(s) will auto-archive.
