The following corrections are included in Rx Packs for November and December 2020. Rx Packs contain a small number of critical cases to fix urgent issues, with delivery in an immediate time frame (e.g., the fix cannot wait for the next four week Release Pack).

It is recommended that customers apply all subsequent Release Packs immediately following Rx Packs. Doing so will benefit both customers and Infinite Campus when it comes to supporting the patch.

Rx Packs are cumulative; each Rx pack will automatically include all previous Rx packs within that release. These cases will also be included in the Campus.2052 pack unless otherwise noted.

Below is a list of all Rx Packs for Campus.2048 and the date of availability:

- Rx Pack Campus.2048.6 - Wednesday, December 16, 2020
- Rx Pack Campus.2048.5 - Thursday, December 10, 2020
- Rx Pack Campus.2048.4 - Tuesday, December 8, 2020
- Rx Pack Campus.2048.3 - Thursday, December 3, 2020
- Rx Pack Campus.2048.2 - Wednesday, November 25, 2020
- Rx Pack Campus.2048.1 - Monday, November 23, 2020

See the [Release Pack Campus.2048 - November 2020](#) article for a full list of cases included in the Campus.2040 release.

Blended Learning - Update to Virtual Attendance Posting Job (SIS-142931)

The Virtual Attendance Posting Job now includes the ability to compare the date was scheduled to run with the date the job was triggered. Transcript - Display Issue for Records Missing a Year (SIS-143164)

Transcripts would not display if a transcript record was missing a Year value. This has been corrected.

The Year column was removed from the main view of the Transcript in a previous release, and is used to group records together. It is a required field, but for records that may have been converted from another system, that field could still be blank. When it is blank, the Transcript still loads and groups the records using the End Year, the School Name and the Grade Level.

 - For a Primary Event - When there is only 1 Behavior Event on the Behavior Incident:
 - When Primary Event = Checked.
 - Otherwise, report "Primary" for the lowest Event ID when no Primary Event exists.
 - When there is more than 1 Behavior Event on the Behavior Incident, and the student does not belong to a Behavior Event with "Primary Event" = Checked, report "Primary"
