Last Modified on 10/23/2025 3:48 pm CD7

Tool Search: ISBE Extracts

The ISBE Student Attendance Extract reports attendance for each student enrolled in the selected calendar within the selected school month dates.

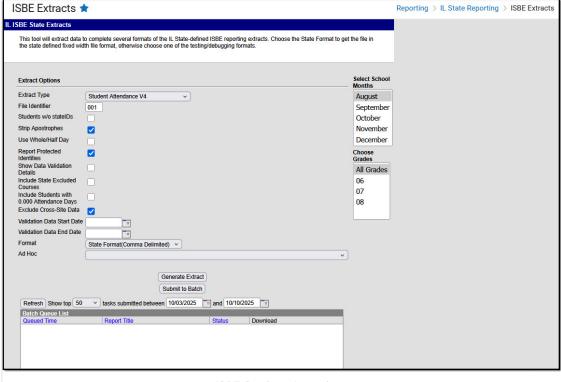

This article includes reporting logic/layouts for both versions of the Student Attendance extract:

- Student Attendance V4
- Student Attendance 21-22 and Prior

Users can generate the <u>Student Attendance Layout</u> or an <u>Attendance Data Validation Details Layout</u>, which is used to validate attendance data for each student included in the extract. Consider using Submit To Batch when selecting large datasets for reporting.

This extract reports the same information as the <u>ISBE Monthly Attendance Extract</u>, but includes calculations for E-Learning, Remote Learning, and In-Person Instruction.

At this time, both extracts can be submitted.

ISBE Student Attendance

# **Report Logic**

A student must be enrolled in the calendar selected in the Campus toolbar and scheduled into courses in instructional calendar periods to be included.

All Enrollment types are reported (Primary, Partial, and Special Education). If a student has multiple active enrollments with different enrollment types, Primary enrollments are reported first, followed by Partial enrollments, and then Special Education enrollments.

Courses marked as State Excluded are not part of the attendance calculation, unless the **Include State Excluded Courses** checkbox is marked on the report editor.

For every student enrolled during a selected school month, each attendance type reports as a separate record. This means that multiple lines report for every student.

Students are not included when the:

- Student is not scheduled into instructional periods.
- Enrollment record is marked as State Exclude or No Show.
- Grade Level of enrollment is marked as Exclude from State Reporting.
- Calendar of enrollment is marked as State Exclude.

# **Report Editor**

The following fields are available for selection.

Field	Description
Extract Type	Selection indicates which extract is generated.  • Student Attendance V4  • Student Attendance 21-22 and Prior
File Identifier	A numeric field that notes the number of times the report has been generated. This field is used in the File Naming Convention of the extract to be used when submitting the extract in the State Format (EC + RCDT or District Name + + MMDDYYY_File Identifier).
Students without State IDs	When marked, the report identifies students who do not have a state-issued ID.

Field	Description
Strip Apostrophes	When marked, the following marks are removed from student names and other reported data:  • Apostrophes ('), Commas (,), Periods (.)  • Umlaut (Ö)  • Tilde (Ñ)  • Grave Accents (Ò), Acute Accents (Ó)  • Circumflex (Ô)  When not marked, these marks are not removed.
Use Whole/Half Day	<ul> <li>When marked, a day of attendance is counted if the student is scheduled for that day for the Days Absent field. FTE or minutes attended are not considered.</li> <li>Based on the student's scheduled instructional minutes for the day: <ul> <li>If the student missed all scheduled instructional minutes, a full day of absence is reported as a value of 1 in the Days Absent field.</li> <li>If the student missed half of the scheduled instructional minutes up to one minute less than the full instructional minutes, a value of .5 reports.</li> <li>If the student missed less than half of the scheduled instructional minutes, they are considered present for the day.</li> </ul> </li> <li>When this option is selected, the Excused Absence, Unexcused Absence, Days Medically Homebound, and Days Hospitalized fields are not included.</li> <li>When marked, the sum of Present Days is rounded to the half or whole day. When not marked, the sum of the Present Days reports is rounded to two decimal places.</li> </ul> <li>See the Report Logic section for details on the calculation.</li>
Report Protected Identities	When marked, student identity information (last name, first name, etc.) reports from the Protected Identity Information fields.
Show Data Validation Details	This field is used when generating the <u>Attendance Validation Details</u> Layout. When marked, an Attendance Validation report is generated instead of the Monthly Attendance Layout, which districts can use to validate attendance data.  When this is marked, the Validation Data Start and End Date fields must be populated.
Include State Excluded Courses	When marked, courses marked as State Exclude are included in the attendance calculation.

Field	Description
Include Students with 0.000 Attendance Days	Defaults to unmarked.  When selected, student records with 0.000 attendance days are included in the report.  Students with attendance greater than 0.000 are always included, regardless of this checkbox.
Exclude Cross-Site Data	<ul> <li>Cross-site section enrollment data is <u>not</u> included in the report when checked.</li> <li><u>Cross-site enrollment</u> functionality must be enabled at the district level for the checkbox to display.</li> <li>Defaults to checked.</li> </ul>
Validation Data Start Date	This field is used when generating the <u>Attendance Validation Details</u> Layout. Indicates the start date used in the validation report. Attendance records from this date to the Validation Data End Date (limited to 30 days) are included in the validation report.  When the "Show Data Validation Details" checkbox is not selected, the entered date is ignored.
Validation Data End Date	This field is used when generating the <u>Attendance Validation Details</u> Layout. Indicates the end date used in the validation report. Attendance records from the Validation Data Start Date to this date (limited to 30 days) are included in the validation report.  When the Show Data Validation Details checkbox is not marked, the entered date is ignored.
Format	Determines how the report is generated. Use the <b>State Format (Comma Delimited)</b> when submitting the report to the state. Use the <b>HTML</b> or <b>Tab Delimited</b> option when reviewing data prior to state submission.
Ad hoc	Select a saved ad hoc filter to use when generating this report. Only students included in the filter who meet the reporting requirements are included in the report.
Select School Months	Select which school months to include in the report. More than one can be selected. Student attendance data is displayed by the month.
Choose Grades	Choose which grades to include in the report. Select individual grades or choose All Grades.
Report Generation	The report can be generated immediately using the <b>Generate Extract</b> button. When there is a larger amount of data chosen (several calendars, a large date range, etc.), use the <b>Submit to Batch</b> button, which allows the user to choose when the report is generated. See the <u>Batch Queue</u> article for more information.

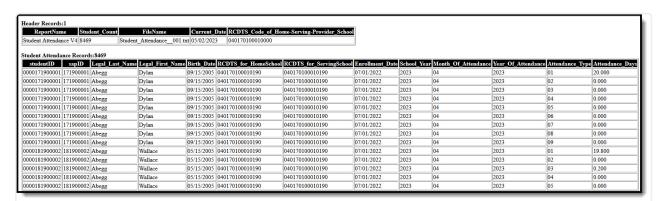

# **Student Attendance Extract**

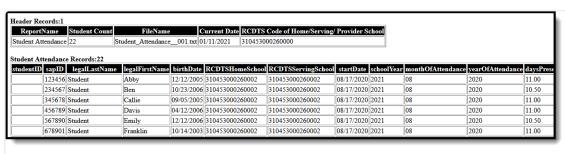

The Student Attendance Layout reports student attendance for the selected calendar and school month. One record for each school month reports for enrolled students.

### **Generate the Student Attendance Report**

- 1. Select the **Student Attendance** option from the **Extract Type** dropdown list.
- 2. Enter a File Identifier.
- Mark the Students w/o stateIDs checkbox, if desired, to include students without assigned state IDs within the report.
- 4. Mark the **Strip Apostrophes** checkbox, if desired.
- 5. Determine if actual attendance calculations are used, or if whole day/half day calculations are used. If whole day/half day, mark the **Use Whole/Half Day** checkbox.
- 6. If desired, mark the **Report Protected Identities** checkbox.
- 7. Mark the **Show Data Validation Details**, if applicable.
- 8. Determine if courses marked as state-excluded should be included. If yes, mark the **Include State Excluded Courses** checkbox.
- 9. Enter the Validation Data Start Date and Validation Data End Date values.
- Select the desired Format of the extract.
- 11. Select an Ad hoc filter, if desired, to only return those students included in the filter.
- 12. Select the **School Months** to include in the report.
- 13. Select the **Grade Levels** to include in the report.
- 14. Click the **Generate Extract** button or the **Submit to Batch** button. The extract appears in a separate window in the designated format.

# **Students with a Partial Enrollment Type:**

#### **Partial Attendance**

For enrollments with a Service Type of Partial, the daily presence value is calculated as the sum of the period minutes per day.

- If it is a regular period schedule and there are any present minutes on the attendance event, then the absence is not counted.
- If a block period schedule, then it is the period minutes minus the present minutes.

Partial presence is then recalculated based on the ratios in the following table.

Minutes Present	Attendance/Membership
240 or more	1
201-239	5/6
160-200	2/3
120-159	.5
80-119	1/3
40-79	1/6
0-39	0

The attendance totals are then summed for the schedule structure. If the student is enrolled in schedule structure A and schedule structure A is 20 days, the calculation would look at each individual day to determine the presence minutes, then sum all 20 days.

#### **Partial Membership**

Partial membership is the sum of the minutes of the scheduled periods in a day (the number of minutes the student is scheduled). Partial membership is recalculated based on the ratios in the table below.

Minutes Present 240 or more	Attendance/Membership
201-239	5/6
160-200	2/3
120-159	.5
80-119	1/3
40-79	1/6
0-39	0

The partial membership becomes the sum of the partial membership values from the student's schedule structure. If the student is enrolled in schedule structure A and schedule structure A is 20 days, the calculation would look at each individual day to determine the membership, then sum all 20 days.

### **Absent Days**

The calculation for Absent Days is the Membership Value minus the Attendance Days value.

### **Homebound Students**

This calculation is used for students considered homebound, where the Homebound field on the Enrollment record is marked (Student Information > General > Enrollments > Homebound).

Minutes Present	Attendance	Absence
240 or more	1	0
60-239	.5	.5
59 or Less	0	1

### **Actual Attendance Calculation**

When the Use Whole/Half Day checkbox is NOT marked on the Extract editor, the calculation for days present, excused absences, and unexcused absences follows these definitions.

Term	Calculation/Definition
Instructional Period	A Calendar Period where the <b>Non-Instructional</b> checkbox is not marked.
Scheduled Day	A Calendar Day where the <b>Instructional</b> checkbox is marked AND <b>Attendance</b> checkbox is marked, in which the student has at least one <i>Instructional Period</i> scheduled.

<b>Minu</b> tes Scheduled	Catculation/Definition the student has scheduled in Instruction Periods minus Lunch Minutes within a Scheduled Day.
Minutes Absent	The difference of <i>Minutes Scheduled</i> minus the sum of all <i>Instructional Periods</i> where attendance <b>Status</b> = Absent less <b>Present Minutes.</b>
Minutes Present	The difference of <i>Minutes Scheduled</i> minus <i>Minutes Absent</i> .
Minutes Absent Excused	The difference of <i>Minutes Scheduled</i> minutes the sum of all <i>Instructional Periods</i> where attendance <b>Status</b> = Absent AND <b>Excuse</b> = Excused less <b>Present Minutes.</b>
Minutes Absent Unexcused	The difference of <i>Minutes Scheduled</i> minutes the sum of all <i>Instructional Periods</i> where attendance <b>Status</b> = Absent AND <b>Excuse</b> = Unexcused less <b>Present Minutes</b> .
Present Day	The quotient of <i>Minutes Present</i> divided by <i>Minutes Scheduled</i> .
Absent Excused Day	The quotient of <i>Minutes Absent Excused</i> divided by <i>Minutes Scheduled</i> .
Absent Unexcused Day	The quotient of <i>Minutes Absent Unexcused</i> divided by <i>Minutes Scheduled</i> .

### **Attendance Type**

One line for each of the following attendance type reports for each student included in the report. Attendance Days in the **Student Attendance** extract report to 3 decimal points. The **Student Attendance 21-22 and Prior** extract reports to two decimal points.

The **Attendance Days** data element reports the total number of full or partial days accumulated by the student for a specific **Attendance Type** within a month.

#### Codes 02-09 are subtracted from code 01

• A student missed 117 minutes, which is equivalent to a half-day for Attendance Type 02. The half day is subtracted from the Attendance Type 01 days. For example, 12 days become 11.5

Student Attendance, regardless of the Attendance Days value, is entered by using the following codes, which are placed in the Attendance Type Code field.

Attendance Type	Description
01: In-Person Instruction	Attendance > Physical Student actively enrolled in the selected calendar during the reporting window. No attendance is marked for the day. Enrollment is NOT labeled Detention Center. Participation type NOT E-learning or Remote.

Attendance Type 02: Absent Excused	Attendance Status = Absent and Excuse = Excused or  Exempt Student is actively enrolled in the calendar during the reporting window Student has an attendance mark with a state code of 02  • Pre-K and Kindergarten students are counted as full-day even if their enrollment is half-day.	
03: Absent Unexcused	Attendance Status = Absent and Excuse = Unknown or Unexcused Absence Pre-K and Kindergarten students are counted as full-day even if their enrollment is half-day.	
04: Medically Homebound	State Attendance Code = DMH.  Pre-K and Kindergarten students are counted as full-day even if their enrollment is half-day.	
05: Hospitalized	State Attendance Code = HOS  Pre-K and Kindergarten students are counted as full-day even if their enrollment is half-day.	
06: E-Learning	Attendance > Virtual > Participation Type. E-Learning Pre-K and Kindergarten students are counted as full-day even if their enrollment is half-day.	
07: Remote Learning	Attendance > Virtual > Participation Type.> Remote Learning • Pre-K and Kindergarten students are counted as full- day even if their enrollment is half-day.	
08: Absent Excused - Mental Health	Attendance Status = Absent and Excuse = Excused or Exempt Student is actively enrolled in the calendar during the reporting window. State Code=MTL  If a student is absent with a code of MTL for any fraction of a period, the duration of the whole period is recorded as Mental Health Minutes.	
09: Detention Center	Student Information > General > Enrollments > State Reporting Fields > Detention Center checkbox is marked OR Attendance code mapped to State Code=DTN  To ensure that this attendance type reports correctly, do not enter present minutes when recording attendance for a student with an enrollment marked Detention.	

Attendance Type Description

### **Attendance Data Validation Details**

The Attendance Data Validation Details report returns a total count of period minutes by date and attendance code for students in the selected grade levels. This report can be used to validate a student's attendance minutes prior to submitting the Student Attendance Layout or the Student Attendance Layout to the state.

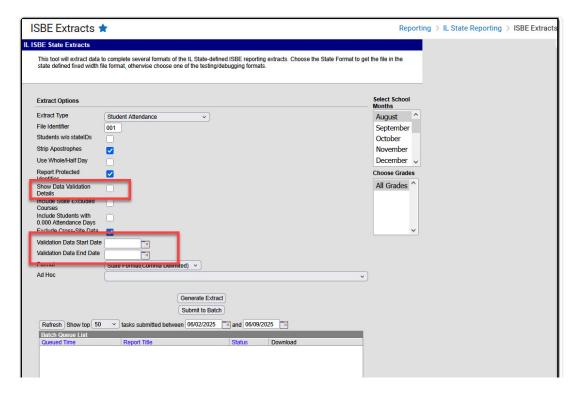

Refer to the Attendance Logic for additional guidance.

Use this Validation report to assist with troubleshooting attendance calculations you feel are in error. Comparing the results of the Monthly Attendance Extract and/or Student Attendance Extract with the results of the Validation report, attendance issues can be corrected before submitting information to the state.

If there are concerns with the results, contact Campus Support and include the CSV output.

A record reports for each school day included in the validation, meaning one student displays multiple times on the report - one for each school day in which they were enrolled.

A school month does not need to be selected; only the **Validation Start and End Date** fields need to be populated, along with the selection of the **Show Data Validation Details**. A range of dates can be added, up to a total of 30 days; or, enter the same date in the Start Date and End fields to see data for just that one day. Any range of dates can be entered - March 1 to March 31, or April 15 to May 14, etc., as long as it is no more than 30 days.

### **Generate the Data Validation Details Report**

A year and calendar must be selected in the Campus toolbar in order to generate the report.

- 1. Select **Student Attendance** from the **Extract Type** dropdown list.
- 2. Enter a File Identifier.
- 3. Mark the **Show Data Validation Details** checkbox.
- 4. Enter a Validation Data Start Date.
- 5. Enter a Validation Data End Date.
- 6. Select the desired **Format** of the extract.
- 7. Select an **Ad hoc** filter, if desired, to only return those students included in the filter.
- 8. Select the **Grade Levels** to include in the report.
- 9. Click the **Generate Extract** button or the **Submit to Batch** button. The extract appears in a separate window in the designated format.
