Tool Search: ISBE Extracts

The ISBE Student Attendance Extract reports attendance for each student enrolled in the selected calendar within the selected school month dates.

This article includes reporting logic/layouts for both versions of the Student Attendance extract:

- **Student Attendance V4**
- **Student Attendance 21-22 and Prior**

Users can generate the [Student Attendance Layout](#) or an [Attendance Data Validation Details Layout](#), which is used to validate attendance data for each student included in the extract. Consider using Submit To Batch when selecting large datasets for reporting.

This extract reports the same information as the [ISBE Monthly Attendance Extract](#), but includes calculations for E-Learning, Remote Learning, and In-Person Instruction.

At this time, both extracts can be submitted.

The screenshot shows the 'ISBE Extracts' web interface. At the top, there is a breadcrumb trail: 'Reporting > IL State Reporting > ISBE Extracts'. Below this is a header for 'IL ISBE State Extracts' with a sub-header 'This tool will extract data to complete several formats of the IL State-defined ISBE reporting extracts. Choose the State Format to get the file in the state defined fixed width file format, otherwise choose one of the testing/debugging formats.'

The main configuration area is divided into two columns:

- Extract Options:**
 - Extract Type: Student Attendance V4 (dropdown)
 - File Identifier: 001 (text input)
 - Students w/o stateIDs:
 - Strip Apostrophes:
 - Use Whole/Half Day:
 - Report Protected Identities:
 - Show Data Validation Details:
 - Include State Excluded Courses:
 - Include Students with 0.000 Attendance Days:
 - Exclude Cross-Site Data:
 - Validation Data Start Date: [calendar icon]
 - Validation Data End Date: [calendar icon]
 - Format: State Format(Comma Delimited) (dropdown)
 - Ad Hoc: [dropdown]
- Select School Months:**
 - August (selected)
 - September
 - October
 - November
 - December

Below the configuration options are two buttons: 'Generate Extract' and 'Submit to Batch'. At the bottom, there is a 'Batch Queue List' section with a 'Refresh' button, a 'Show top 50' dropdown, and a filter for 'tasks submitted between 10/03/2025 and 10/10/2025'. The table below has columns for 'Queued Time', 'Report Title', 'Status', and 'Download'.

ISBE Student Attendance

Report Logic

A student must be enrolled in the calendar selected in the Campus toolbar and scheduled into courses in instructional calendar periods to be included.

All Enrollment types are reported (Primary, Partial, and Special Education). If a student has multiple active enrollments with different enrollment types, Primary enrollments are reported first, followed by Partial enrollments, and then Special Education enrollments.

Courses marked as State Excluded are not part of the attendance calculation, unless the **Include State Excluded Courses** checkbox is marked on the report editor.

For every student enrolled during a selected school month, each attendance type reports as a separate record. This means that multiple lines report for every student.

Students are not included when the:

- Student is not scheduled into instructional periods.
- Enrollment record is marked as State Exclude or No Show.
- Grade Level of enrollment is marked as Exclude from State Reporting.
- Calendar of enrollment is marked as State Exclude.

Enrollment Type of P (Primary) or N (Special ED)

Regular Schedule:

- Calendar > Periods > Regular Schedule
- If a student attends a portion of any instructional period, they must receive credit for attending the full period

Minutes Present: Any minutes where there is no attendance code or an attendance code tied to an excuse of exempt. In order for minutes to be deducted, the status *must* be Absent, and the excuse must *not* be Exempt.

Grade Level	Minutes Present	Attendance	Absent
Grades 01	240 or more	1	0
Grades 01	120-239	.5	.5
Grades 01	0-119	0	1
Grades 2-12	300 or more	1	0
Grades 2-12	150-299	.5	.5
Grades 2-12	0-149	0	1

Block Schedule

- Calendar > Periods > Regular Schedule is not marked
- Students only receive credit for the minutes they are actually in class.

Minutes Present: Any minutes where there is no attendance code or an attendance code tied to an excuse of exempt. In order for minutes to be deducted, the status *must* be Absent and the excuse must *not* be Exempt.

Grade Level	Minutes Present	Attendance	Absent
Grades 01	240 or more	1	0
Grades 01	120-239	.5	.5
Grades 01	0-119	0	1
Preschool (full day)	60 or more	1	0

Students with a Partial Enrollment Type:

Partial Attendance

For enrollments with a Service Type of Partial, the daily presence value is calculated as the sum of the period minutes per day.

- If it is a regular period schedule and there are any present minutes on the attendance event, then the absence is not counted.
- If a block period schedule, then it is the period minutes minus the present minutes.

Partial presence is then recalculated based on the ratios in the following table.

Minutes Present	Attendance/Membership
240 or more	1
201-239	5/6
160-200	2/3
120-159	.5
80-119	1/3
40-79	1/6
0-39	0

The attendance totals are then summed for the schedule structure. If the student is enrolled in schedule structure A and schedule structure A is 20 days, the calculation would look at each individual day to determine the presence minutes, then sum all 20 days.

Partial Membership

Partial membership is the sum of the minutes of the scheduled periods in a day (the number of minutes the student is scheduled). Partial membership is recalculated based on the ratios in the table below.

Minutes Present	Attendance/Membership
-----------------	-----------------------

Minutes Present	Attendance/Membership
240 or more	1
201-239	5/6
160-200	2/3
120-159	.5
80-119	1/3
40-79	1/6
0-39	0

The partial membership becomes the sum of the partial membership values from the student's schedule structure. If the student is enrolled in schedule structure A and schedule structure A is 20 days, the calculation would look at each individual day to determine the membership, then sum all 20 days.

Absent Days

The calculation for Absent Days is the Membership Value minus the Attendance Days value.

Homebound Students

This calculation is used for students considered homebound, where the Homebound field on the Enrollment record is marked (Student Information > General > Enrollments > Homebound).

Minutes Present	Attendance	Absence
240 or more	1	0
60-239	.5	.5
59 or Less	0	1

Actual Attendance Calculation

When the Use Whole/Half Day checkbox is NOT marked on the Extract editor, the calculation for days present, excused absences, and unexcused absences follows these definitions.

Term	Calculation/Definition
Instructional Period	A Calendar Period where the Non-Instructional checkbox is not marked.
Scheduled Day	A Calendar Day where the Instructional checkbox is marked AND Attendance checkbox is marked, in which the student has at least one <i>Instructional Period</i> scheduled.

Minutes Scheduled	Calculation/Definition
	The difference of the minutes the student has scheduled in <i>Instructional Periods</i> minus Lunch Minutes within a <i>Scheduled Day</i> .
Minutes Absent	The difference of <i>Minutes Scheduled</i> minus the sum of all <i>Instructional Periods</i> where attendance Status = Absent less Present Minutes .
Minutes Present	The difference of <i>Minutes Scheduled</i> minus <i>Minutes Absent</i> .
Minutes Absent Excused	The difference of <i>Minutes Scheduled</i> minus the sum of all <i>Instructional Periods</i> where attendance Status = Absent AND Excuse = Excused less Present Minutes .
Minutes Absent Unexcused	The difference of <i>Minutes Scheduled</i> minus the sum of all <i>Instructional Periods</i> where attendance Status = Absent AND Excuse = Unexcused less Present Minutes .
Present Day	The quotient of <i>Minutes Present</i> divided by <i>Minutes Scheduled</i> .
Absent Excused Day	The quotient of <i>Minutes Absent Excused</i> divided by <i>Minutes Scheduled</i> .
Absent Unexcused Day	The quotient of <i>Minutes Absent Unexcused</i> divided by <i>Minutes Scheduled</i> .

Attendance Type

One line for each of the following attendance type reports for each student included in the report. Attendance Days in the **Student Attendance** extract report to 3 decimal points. The **Student Attendance 21-22 and Prior** extract reports to two decimal points.

The **Attendance Days** data element reports the total number of full or partial days accumulated by the student for a specific **Attendance Type** within a month.

Codes 02-09 are subtracted from code 01

- A student missed 117 minutes, which is equivalent to a half-day for Attendance Type 02. The half day is subtracted from the Attendance Type 01 days. For example, 12 days become 11.5

Student Attendance, regardless of the Attendance Days value, is entered by using the following codes, which are placed in the Attendance Type Code field.

Attendance Type	Description
01: In-Person Instruction	Attendance > Physical Student actively enrolled in the selected calendar during the reporting window. No attendance is marked for the day. Enrollment is NOT labeled Detention Center. Participation type NOT E-learning or Remote.

Attendance Type	Description
02: Absent Excused	Attendance Status = Absent and Excuse = Excused or Exempt Student is actively enrolled in the calendar during the reporting window Student has an attendance mark with a state code of 02 <ul style="list-style-type: none"> • Pre-K and Kindergarten students are counted as full-day even if their enrollment is half-day.
03: Absent Unexcused	Attendance Status = Absent and Excuse = Unknown or Unexcused Absence Pre-K and Kindergarten students are counted as full-day even if their enrollment is half-day.
04: Medically Homebound	State Attendance Code = DMH. Pre-K and Kindergarten students are counted as full-day even if their enrollment is half-day.
05: Hospitalized	State Attendance Code = HOS Pre-K and Kindergarten students are counted as full-day even if their enrollment is half-day.
06: E-Learning	Attendance > Virtual > Participation Type. E-Learning Pre-K and Kindergarten students are counted as full-day even if their enrollment is half-day.
07: Remote Learning	Attendance > Virtual > Participation Type.> Remote Learning <ul style="list-style-type: none"> • Pre-K and Kindergarten students are counted as full-day even if their enrollment is half-day.
08: Absent Excused - Mental Health	Attendance Status = Absent and Excuse = Excused or Exempt Student is actively enrolled in the calendar during the reporting window. State Code=MTL If a student is absent with a code of MTL for any fraction of a period, the duration of the whole period is recorded as Mental Health Minutes.
09: Detention Center	Student Information > General > Enrollments > State Reporting Fields > Detention Center checkbox is marked OR Attendance code mapped to State Code=DTN <div style="background-color: #fff9c4; padding: 10px; border: 1px solid #ccc;"> <p>To ensure that this attendance type reports correctly, do not enter present minutes when recording attendance for a student with an enrollment marked Detention.</p> </div>

Attendance Data Validation Details

The Attendance Data Validation Details report returns a total count of period minutes by date and attendance code for students in the selected grade levels. This report can be used to validate a student's attendance minutes prior to submitting the Student Attendance Layout or the Student Attendance Layout to the state.

Refer to the [Attendance Logic](#) for additional guidance.

Use this Validation report to assist with troubleshooting attendance calculations you feel are in error. Comparing the results of the Monthly Attendance Extract and/or Student Attendance Extract with the results of the Validation report, attendance issues can be corrected before submitting information to the state.

If there are concerns with the results, contact Campus Support and include the CSV output.

A record reports for each school day included in the validation, meaning one student displays multiple times on the report - one for each school day in which they were enrolled.

A school month does not need to be selected; only the **Validation Start and End Date** fields need to be populated, along with the selection of the **Show Data Validation Details**. A range of dates can be added, up to a total of 30 days; or, enter the same date in the Start Date and End Date fields to see data for just that one day. Any range of dates can be entered - March 1 to March 31, or April 15 to May 14, etc., as long as it is no more than 30 days.
