Tool Search: OH Extracts

The Student Course Grade (FR) Extract reports Pathway-to-Learning data and tracks course progression, identifying students who may be at risk of not graduating based on current course performance.

OH State Extracts

This tool will extract data to complete several formats of the OH State-defined reporting formats. Choose the State Format to get the file in the state defined fixed width file format, otherwise choose one of the testing/debugging formats.

Report Population and Logic

Rule #	Reporting Population Requirements
R1	<p>Report at least one record for each student for each section in which the student is enrolled and credit is assigned to a grading task for that course and they have a grade in a state reported grading task or the course has ended.</p> <ul style="list-style-type: none"> • For grades < 9, only report when High School Credit checkbox is selected • Course setup in Grading Task for assigned credit • High School credit group is setup in Grading and Standards

Rule #	Reporting Population Requirements
R1.BR1	If the student has a score in a grading task marked as State Reported , report a record for that grade.
R1.BR1.a	If the student has more than one score from a grading task marked as State Reported , report one record for each of those grades.
R1.BR1.b	If there are multiple grades for the same term (2 different grading tasks), the tasks have the same code AND the grades ARE NOT posted to transcript THEN: <ol style="list-style-type: none"> 1. Report the most recent grade from a grading task marked as Final AND do NOT report the other grading task(s). 2. If there is NOT a grading task marked as Final with a grade, THEN report the most recent grade from a grading task marked as State Reported and do NOT report the other grading task(s)R1.
R1.BR1.c	Student must NOT report a record with a GradeStatus = F in any scenario where the student withdraws from a section of a course without the score being Final and posted, OR without the score being Final with a State Score of W
R1.BR2	If the student does not have a score in a grading task marked as State Reported and the term the grading task is assigned to has ended, report a record for the student for that grading task.
R2	State Grade - Course grades can be reported based on state score or score group detail, mapping grades by identified course detail selection.

Generating the Extract

1. Select *Student Course Grade (FR)* as the **Extract Type**.
2. Select the **Reporting Period**.
3. Select a specific **Grade Level** to filter results to students enrolled in grades mapped to the selected state grades. By default, grades 9-12 are selected.
4. Enter a reporting **Date Range** in *mmdyyy* format or by clicking the calendar icon and selecting a date.
5. Select the **Format** in which the report should generate. Use *State Format (Fixed Width)* for submission to the state or *HTML* or *CSV* for data review and verification.
6. Select an **Ad Hoc Filter** to limit reported students based on an existing [filter](#).
7. Select which **Calendar(s)** should be included in the extract.
8. Click **Generate Extract** to generate the report in the indicated format or **Submit to Batch** to schedule when the report will generate. If generating multiple extracts at a time, requests can only be submitted to the Batch Queue.

Users have the option of submitting a report request to the batch queue by clicking **Submit to Batch** instead of Generate Extract. This process will allow larger reports to generate in the background, without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the [Batch Queue](#) article.
