Technical Information

See the Technical Information - Release Pack Campus.2108 (https://kb.infinitecampus.com/help/technical-information-release-pack-campus2108) article for a list of schema changes in this release.

Activity Registration

Activity Registration Updates (SIS-143963) **[Enhancement]**

Parents and Students can now view Activity Registration information including all forms associated with an activity in Campus Parent and Campus Student. The Activity Registration area in the portal includes a link to the School Store where users can register for activities. As part of this change, an Activity Registration section was added to the Portal Preferences > Display Options with a new option called "Enable Activity Registration Viewing tool." This option must be selected for users to see the Activity Registration area in Campus Parent and Campus Student.

The "Active" status in the Activity Monitor and Activity Builder was split into two separate statuses:

- Active - Registration Open
- Active - Registration Closed

This change allows users to update the "School" field when an activity is active as long as registration is still open.

In Campus, when a user locks or completes a form in the Activity Monitor, Campus now automatically returns the user to the Roster screen instead of making them click "Cancel" to exit the form.

Blended Learning

Blended Learning - Gap and Overlap Report (SIS-143146) **[Enhancement]**

A new Gap and Overlap Report has been added to Scheduling Reports. This report identities a date range where the student is not assigned to a Blended Learning Group (gap) or is assigned to multiple Blended Learning Groups (overlap).

The report can be generated for both gaps and overlaps, for just gaps, or just overlaps.

Blended Learning - Date Logic Updates, Group Names, Summer School, Calendar Day Selection (SIS-143651) **[Enhancement]**

The following modifications have been made to address date logic and to prepare for end of year processing for Blended Learning Groups:

- A school year must be selected in the Campus toolbar in order to create new blended learning groups or adjust existing groups. A message displays on the landing page of the tools when a year has not been selected.
- Changing the year in the toolbar when in the middle of creating or adjusting groups returns you to the landing page of that tool. Reopening the tool resets the dates to match the selected school year.
- When creating a blended learning group, the end date entered in the New Blended Learning Group tool is also added to the database and displays for all student group assignment end dates associated with the group.
- End dates can only be entered if it is the current date or in the future.
- End dates are required when editing or adjusting groups.
- Extending a future group end date does not update the student group assignment end date.
- Shortening a future group end date does update or delete any group assignment or day rotation necessary.

Blended Learning Group names can only be used one time per school year. That means Blended Learning Groups in the 2019-2020 school year could match Blended Learning Groups in the 2020-2021 school year, but two Blended Learning Groups named the same in the same school year is not possible.

A new Exclude Summer School Calendars checkbox has been added to the New Blended Learning Groups tool. When marked, any summer school calendar (Summer School checkbox is marked on the Calendar Information editor) is ignored when Blended Learning Groups are created (step 2. Group Day Rotation).

Users could not remove a Blended Learning Group from a current or future date in Calendar Days. This has been corrected.

Tool Rights Updated to Match New Look and Feel of Infinite Campus Navigation Structure (SIS-140407) **[Enhancement]**

Tool rights in the New Look and Feel of Campus have been updated to match the new navigation structure. Existing tool rights between Classic Campus and the New Look of Campus should match and require no additional user intervention however, any rights changed after updating to Campus.2108 are at a user's discretion and maintenance.

The tool rights editor in the New Look of Campus has been enhanced to include a search feature, allowing you to narrow the tool rights list by search criteria. There is also a new Tag Filters area, allowing you to quickly filter out administrative tools to make adding teacher and staff tool rights easier. To view administrative tools, simply remove the Non Admin tag filter.

Ed-Fi

Ed-Fi Enhancements and Bug Fixes (SIS-143054) **[Enhancement]**

The following updates have been made to Ed-Fi:

- The Resource Preferences toggle was previously not working with some new configurations. This issue has been corrected.
- Unmapping grading tasks in Grades would previously cause there to be grading periods with an empty grading task. This issue has been corrected.
- All course-based resources can now be resynced by course or section.
- Grading Periods are now based on school year instead of hard coded.
- The Resync tool was not deleting Student Parent Association records in version 3.3. This issue has been corrected.
- An issue with resyncing within the Ed-Fi Data tool for Wisconsin has been corrected.
- The Parent and Student Parent Association resources have been updated to look at the district instead of application to determine deletes.
- An issue with deleting grading periods from the grading mappings has been resolved.
- An issue with setting Resource Preferences when there was an invalid connection has been corrected.

Online Meal Benefits Application Update (SIS-143724) **[Enhancement]**

On the step where applicants confirm child household members, the child checkbox next to the signer is now disabled if the signer does not have an assigned school. This change was made to help prevent parents from accidently marking themselves as children on the application. As part of this change, a pop-up confirmation message now displays between the Children and Gross Income steps if there are people marked as children and do not have a school listed. Users can return to the household step to fix mistakes or move forward if correct.

Grades Reporting

Grading Window - Open Indicator for Closed Windows (SIS-143768)

The Grading Window was showing a green (open) indicator for all standards when all grading windows were closed. This has been corrected.

The counts for the status of the Grading Window represent the most current time slot for each task/term combination. A count has been added to each total for Standards, and follows these rules:

- If the most current time slot is in the past (prior to today's date), this is considered closed and is counted in the first column (Closed) with a red label.
- If the time slot is currently open and today falls in the grading window range, this is considered open and is counted in the second column (Open) with a green label.
- If the time slot is in the future (after today's date), this is counted in the third column (Future) with a blue label.
- If there is a task/term combination without any grading window time slots, this is counted in the fourth column (Remaining) with a black label.

Third-Party Password Breach Notification Functionality Added for LDAP Users (SIS-143085)
[Enhancement]

The 'Prohibit Passwords That Have Been Previously Disclosed in a Data Breach' account security preference has been updated to also apply this functionality to Campus user accounts using LDAP authentication.

When enabled, users who attempt to log into Campus via LDAP using a password which matches a password found in a publicly known third-party data breach will automatically receive notification of this issue and be asked to change their password.

This feature is optional and not automatically turned on or mandated by Infinite Campus

NOTE: Notification of a breached password DOES NOT mean your Infinite Campus account has been breached. It means your password matches a password found in a global database of breached passwords from third-party systems who have had a known data breach.

Kansas Early Learning (SIS-108307) **[Enhancement]**

A new Early Learning tool is now available for Kansas districts. Existing Early Learning fields on the State Reporting Enrollment editor are now read only, and records for students who had those fields (Headstart, Parents as Teachers, Early Learning Participant) marked on their enrollment for the 2020-21 school year have been converted to the new Early Learning tool.

The KIDS EOYA and KIDS ENRL Extracts have been modified to report field 58, Kansas Preschool Program, and field 59, Kansas Parents as Teachers, from the Early Learning tool, with the following logic:

- If the Early Learning record was active anytime within the student's enrollment from the selected calendar AND the appropriate checkbox was marked on the Early Learning record, a value of 1 reports.
- An Early Learning record is considered active when the start date of the record is before the student's enrollment end date and the end date is either blank or after the student's enrollment start date. If the enrollment end date is blank, the calendar end date is used.

A new CTE Concentrator state program tab as been added to Infinite Campus. This tab allows districts to collect, manage, and report student CTE data to the State.

A new CTE End of Year Extract and Upload file has been added. This new extract allows districts to

extract CTE data for reporting and the new import allows users to import end of year CTE data into the Infinite Campus Montana Edition.

The following enrollment CTE fields have been deprecated (historical data will remain in the database for reporting purposes):

- Single Parent
- Concentration Area
- Vocational Code

The Career and Technical Education (CTE) Extract and Upload have been disabled and are no longer available within Infinite Campus.

The CTE Concentrator section of the Enrollment tab has been renamed as 'CTE Post-Program Status'. This section will feature the CTE Post-Program Status' field (previously called Post Graduation Status) and the Date Contacted field.

New York - SIRS Attendance Code and SIRS Student Daily Attendance Update (SIS-143223)

In response to COVID-19, the New York State Education Department (NYSED) provided changes for attendance reporting. The following updates were made in Campus to support those changes.

SIRS Attendance Code

Two new elements were added to the report layout to indicate attendance types of present, absent, tardy, or suspension: *State Attendance Code* and *State Attendance Description*. The new code *PRSNT* now reports each time a student is present for instruction.

SIRS Student Daily Attendance

Reporting logic was updated to report one record per day for each Attendance code including the new code *PRSNT*. Previously, the extract only reported students who had been absent or tardy. The Attendance Date and Attendance Code Long elements were updated with the new reporting logic.

A new element called *Attendance Instructional Modality* was added to the layout. This new element reports how the student received instruction; In-Person, Remote, or Both.
