

# PIV Card Registration Process for Staff Members

Last Modified on 12/14/2025 8:45 pm CST

This article will walk staff members through the process of registering their PIV cards so they can use them to log into Infinite Campus.

- [Prerequisites](#)
- [Step 1. Ensure You Have an Account Security Email](#)
- [Step 2. Ensure Your Card Reader is Plugged into Your Computer](#)
- [Step 3. Insert Your PIV Card into the Card Reader](#)
- [Step 4. Register Your Card via the Campus Login Screen](#)
- [Step 5. Await PIV Card Confirmation](#)
- [Step 6. Begin Logging Into Campus Using Your PIV Card](#)
- [Troubleshooting/FAQ](#)

## Prerequisites

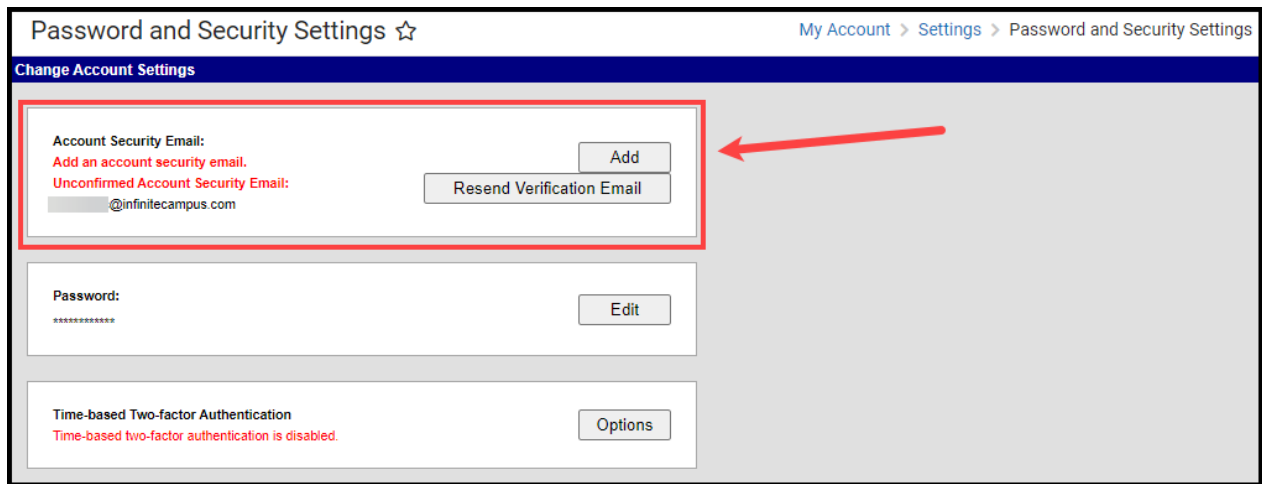

- You need to be assigned a PIV card and physically possess this card.
- You need a PIV card reader connected to your computer.
- Your administrator will need to activate PIV card authentication for your district via Login Security Settings.
- Your administrator will need to enable PIV card authentication for your user account.
- Your administrator will need to configure your PIV card reader and web browser to properly accept and read PIV cards.

**Administrators:** Please refer to the [PIV Card Registration Process for Administrators](#) article for more information.

## Step 1. Ensure You Have an Account Security Email

Before you can start the PIV card registration process, you must ensure you have an **Account Security Email** setup for your Infinite Campus account. This email is setup in the Account Settings tool.

For a walkthrough of this process, see the [Password and Security Settings](#) article.

## Step 2. Ensure Your Card Reader is Plugged into Your Computer

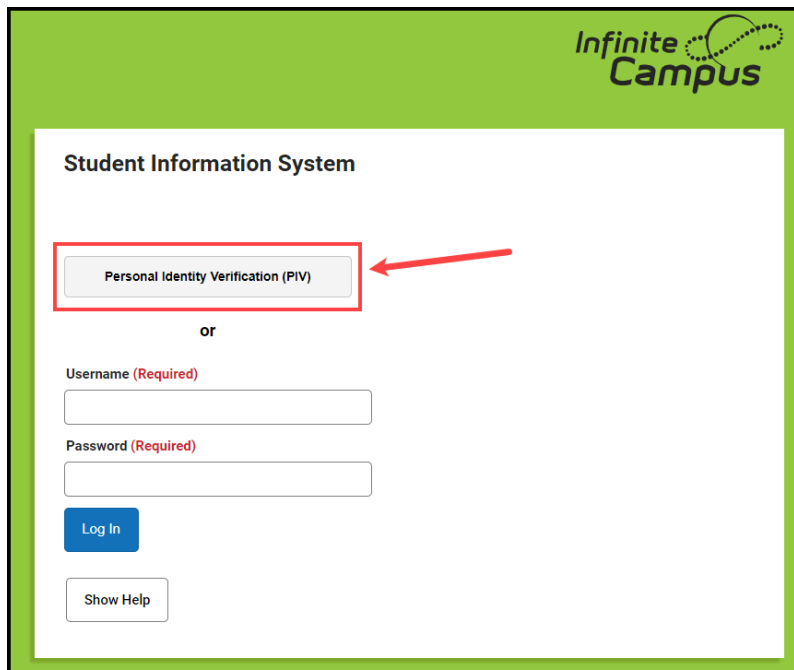

Ensure the PIV card reader is plugged into your computer. If you are unable to verify this step, skip to Step 3 to see if the reader is able to recognize a card has been plugged into the device.

## Step 3. Insert Your PIV Card into the Card Reader

Insert your card into the PIV card reader. Many card readers have a small light to indicate or acknowledge a card has been inserted.

## Step 4. Register Your Card via the Campus Login Screen

Now that your card is in the card reader, navigate to the Infinite Campus login screen and click the **Personal Identity Verification (PIV)** button.

**Infinite Campus**

### Student Information System

**Personal Identity Verification (PIV)**

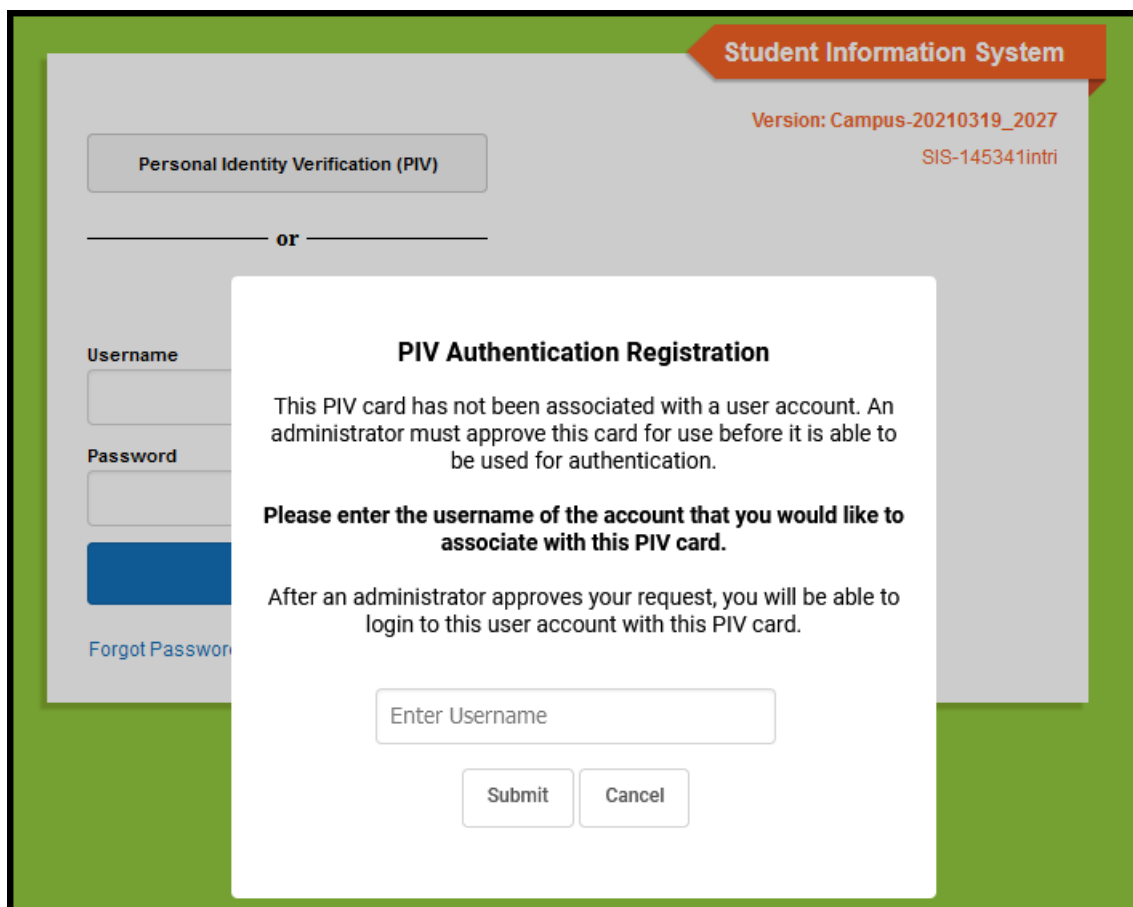

or

Username (Required)

Password (Required)

Once the button is selected, you will see a screen asking you to enter your Campus username to begin the registration process.

Enter your username and click **Submit**. Your card registration request has now been sent to an Administrator for approval.

**Student Information System**

**Personal Identity Verification (PIV)**

or

Username

Password

[Forgot Password](#)

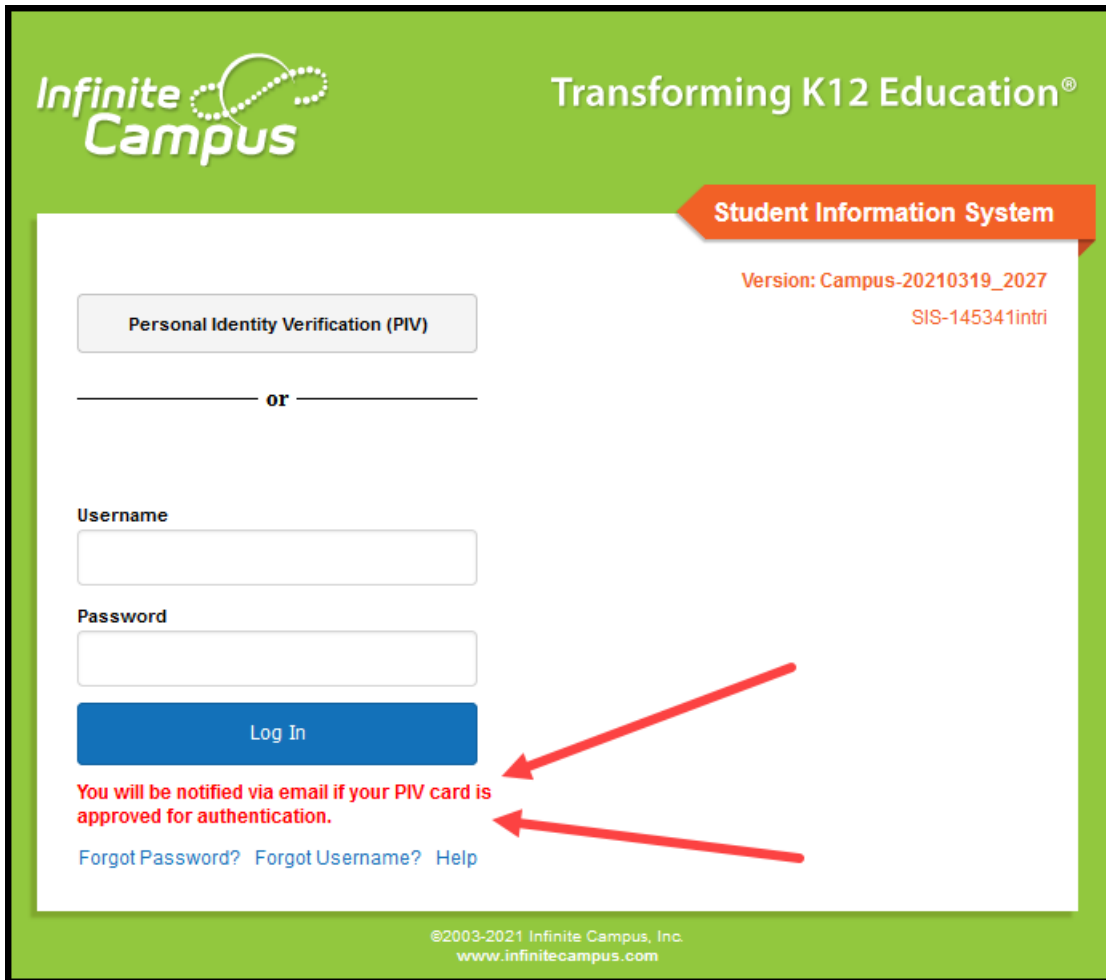

### PIV Authentication Registration

This PIV card has not been associated with a user account. An administrator must approve this card for use before it is able to be used for authentication.

**Please enter the username of the account that you would like to associate with this PIV card.**

After an administrator approves your request, you will be able to login to this user account with this PIV card.

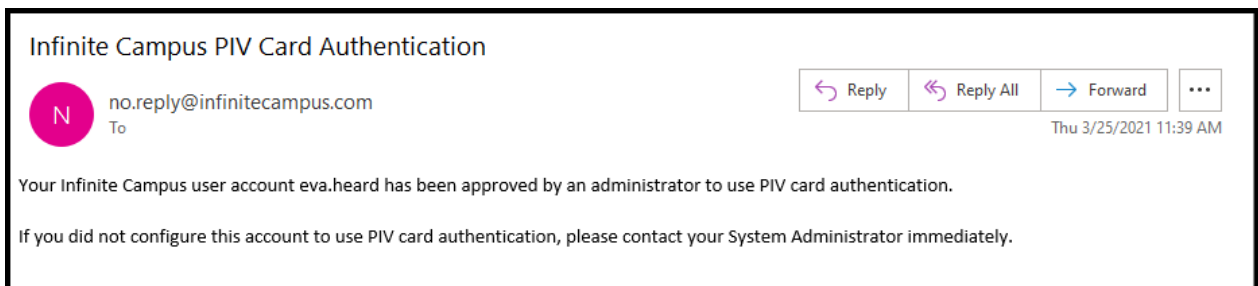

The Infinite Campus login screen will also indicate your PIV card authentication submission (see image below).

The image shows the Infinite Campus login interface. At the top left is the Infinite Campus logo, and at the top right is the text "Transforming K12 Education®". Below the logo is a green banner with the text "Student Information System". To the right of this banner, it says "Version: Campus-20210319\_2027" and "SIS-145341intri". The main login area has a "Personal Identity Verification (PIV)" button, followed by "or", then "Username" and "Password" input fields, and a "Log In" button. Below the "Log In" button, there is a red message: "You will be notified via email if your PIV card is approved for authentication." and links for "Forgot Password?", "Forgot Username?", and "Help". Two red arrows point to the "Log In" button and the red message. At the bottom, it says "©2003-2021 Infinite Campus, Inc. www.infinitecampus.com".

## Step 5. Await PIV Card Confirmation

Once your administrator has approved your PIV card registration, you will receive an email indicating this approval (or denial).

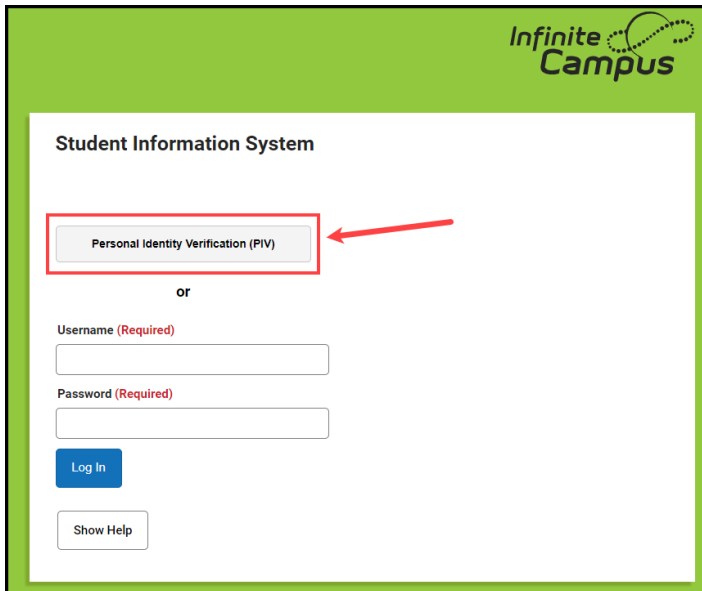

The image shows an email notification from Infinite Campus. The subject is "Infinite Campus PIV Card Authentication". The sender is "no.reply@infinitecampus.com" with a pink circular icon containing the letter "N". The email body says: "Your Infinite Campus user account eva.heard has been approved by an administrator to use PIV card authentication. If you did not configure this account to use PIV card authentication, please contact your System Administrator immediately." The email header shows "Thu 3/25/2021 11:39 AM" and buttons for "Reply", "Reply All", "Forward", and a menu icon.

## Step 6. Begin Logging Into Campus Using Your PIV Card

If you received approval for your card, you can now begin logging into Infinite Campus using your PIV card.

### To Log In:

1. Plug your card into the PIV card reader.
2. Click the **Personal Identity Verification (PIV)** button in the Infinite Campus login screen. This should automatically log you in and you can begin working within Infinite Campus.

The screenshot shows the Infinite Campus login interface. At the top right is the Infinite Campus logo. The main heading is 'Student Information System'. Below this, there is a button labeled 'Personal Identity Verification (PIV)' which is highlighted with a red rectangular box. A red arrow points from the right towards this button. Below the button is the word 'or'. Underneath, there are two input fields: 'Username (Required)' and 'Password (Required)'. Below these fields is a blue 'Log In' button and a 'Show Help' button.

## Troubleshooting/FAQ

Below are some tips on troubleshooting issues users may encounter:

### My Card Doesn't Seem to Recognize My Card Anymore

This issue can normally be resolved by clearing all cookies and the cache for the web browser they are using. To prevent this from happening again, ensure the browser settings are set to delete cookies and cache each time the browser is closed.

### What Do I Do if I'm Issued a New/Different PIV Card?

If a user is issued a different PIV card, the administrator should go to their [User Account](#) tab and click the Reset Account Setting button. This will clear the user's PIV card certificate. Once reset, the user will need to walk through the [PIV card registration process](#) to register the new card.
