[Report Logic](#) | [Report Editor Fields](#) | [Generate the Post School Outcomes Report](#) | [Report Field Descriptions](#)

The Post School Outcomes Report summarizes the data collected in the [BIE PSO Interview](#) survey and provides a count for each of the four categories into which students fall.

> This report is only available in the NASIS State Edition.

Post School Outcomes Report--SPPI Report Editor

Report Logic

The following requirements must be met to be included in the report:

- Student must have a value populated in the Diploma Date field on their Graduation tab. The date entered must be two years prior to selected reporting year.
- Student must have a completed [BIE PSO Interview](#) survey with Interview Outcome of C: Completed

Count Logic

Students are only counted once across all categories. Categories 1-4 are hierarchical and students who meet the criteria for multiple categories (based on their BIE PSO Interview survey responses) will report once for the highest category. **Example:** If a student meets the criteria for categories 1 and 2, they will only be counted under category 1.

Category	Field Student Counts Under
1. Enrolled in higher education within one year of leaving high school	Higher Education Number
2. Competitively employed within one year of leaving high school and student is not enrolled in higher education	Competitively Employed Number
3. Enrolled in some other postsecondary education or training program within one year of leaving high school (but not enrolled in higher education or competitively employed)	Other Education Number
4. In some other employment within one year of leaving high school (but not enrolled in higher education, some other postsecondary education or training program, or competitively employed)	Other Employment Number

Report Editor Fields

Field	Description
SPPI Indicator	11: Child Find Report 13: Secondary Transition Report **14: Post School Outcomes Report**
Reporting Year	Identifies the year the data reports.
Select Schools	Identifies the school the data reports.
Report Generation	The report can be marked to generate immediately using the **Generate Report** button or can be marked to generate at a later time using the **Submit to Batch** button. The report generates in CSV format. See the [Batch Queue](#) article for additional guidance.

Report Field Descriptions

Field	Description
School Name	Reports the name of the school.
School Number	Reports the school number.
Completed Responses	Reports the count of students who exited high school (2 years prior) and have completed the BIE PSO Interview survey. **Example:** If a student dropped out or graduated in the 20-21 year, they would report in the 22-23 year.
Higher Education Number	Reports the count of completed responses for students who reported being enrolled in a post secondary program (attended a 2-4 year college or university) and completed an entire term.
Percent	Calculated field. Reports the percentage of students in Higher Education compared to total Completed Responses.
Competitively Employed Number	Reports the count of students who reported being competitively employed for over 3 months for a minimum of 20 hours per week, and making at least minimum wage. Students counted in the Higher Education category are not included.
Percent	Calculated field. Reports the percentage of students in Competitively Employed compared to total Completed Responses.

Field	Description
Other Education Number	Reports the count of students who are in a non-university post secondary program (i.e. job training, apprenticeships, etc.) Students counted in the Higher Education or Competitively Employed categories are not included.
Percent	Calculated field. Reports the percentage of students in Other Education compared to total Completed Responses.
Other Employment Number	Reports the count of student who reported being employed for over 3 months but do not meet the criteria of being competitively employed. Students counted in the Higher Education, Competitively Employed or Other Education categories are not included.
Percent	Calculated field. Reports the percentage of students in Other Employment compared to total Completed Responses.
