Tool Search: Title 1

The Title 1 tool records Title I Program information for students who receive individual services. When a school offers schoolwide assistance, the School History record needs to be set the Title 1 field on their [School History](#) to **Schoolwide Program**.

When the school is set to Schoolwide Program, individual Title 1 records are not needed, unless the student's Title 1 services differ from the schoolwide services.

Note that the information provided here details how to record Title 1 information in Campus. Always follow your district's policies when adding or modifying Title 1 information.

Title 1 School Information

Tool Search: School Information

Title 1 programs are considered either **Schoolwide** or **Targeted Assistance**.

- **Schoolwide** programs apply to ALL students enrolled at the school.
- **Targeted Assistance** programs apply to services provided to the student as needed.

When the school is a Title 1 school, the School Information editor needs to be set to **Schoolwide Program**:

The screenshot shows the 'School Information' editor interface. On the left is a 'School Editor' tree with folders for 'Early Learning', 'East Campus', 'Metro Campus', 'ACES East', 'ACES West', and 'ACES South'. The main area is titled 'ACES East (90004) School History' and contains a 'Program Participation' section. Under 'Program Participation', there are checkboxes for 'Title I' (Schoolwide Program), 'Title I Math', 'Title I Other', 'Title I Reading', 'Title I Science', and 'Title I SocialStudies'. The 'Title I' checkbox is selected. Below this is a 'USDA Programs' section with checkboxes for 'School Breakfast Program(SBP)' and 'National School Lunch Program(NSLP)'. At the bottom, there are fields for 'Provision Type', 'Provision Base Year', and 'Provision End Year'. A footer note reads '- Modified by: Administrator, System 11/28/2023 09:43'.

Title 1 School Attribute

Tool Search: Core Attribute/Dictionary

On the student's Title 1 record, the School where the student receives Title 1 services must be selected. The list of schools is customizable and can be added in the [Attribute/Dictionary](#) tool.

In order for the school to report correctly on the Student Needs and other Ed-Fi Resources, the Code column must list the school's Entity ID (the Ed-Fi Code).
