Tool Search: Early Learning

The Early Learning tool lists student information related to programs designed to improve the health, social-emotional and cognitive outcomes for all students from birth through third grade, using the federal guidelines.

Multiple Early Learning Records can be entered for a student at one time.

The state of Arizona has not defined fields that are specific to the state. Districts may use the Early Learning tool to track Early Learning data if desired. Please see the [Early Learning](#) article for more information.
