Tool Search: Enrollments

The Enrollment tool displays all student enrollment occurrences in the district. Given this historical perspective, the list could be extensive. By default, enrollments are sorted by grade level first and then by enrollment start date second. To reorder the list of enrollments, click the blue headers in the Enrollments Editor list. The list of enrollments can be sorted by Grade, Calendar, Start Date, or End Date.

General Enrollment Information

Under General Enrollment Information, some fields are specific to the state of Michigan. These fields are further described below. All other fields in General Enrollment Information do not require unique, state-specific data. However, many of these fields are required, and data entry is necessary. For more information on these fields, see the Enrollments article.
