Enrollments (Michigan)

Last Modified on 10/21/2024 8:21 am CDT

General Enrollment Information | State Reporting Fields
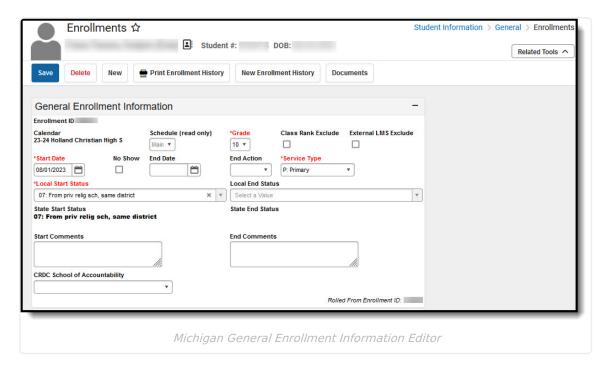

Tool Search: Enrollments

The Enrollment tool displays all occurrences of a student's enrollment in the district. Because this is an historical view, this list could be long.

By default, enrollments are first sorted by grade level and sorted by enrollment start date second. To reorder the list of enrollments, click the blue headers in the Enrollments Editor list. The list of enrollments can be sorted by Grade, Calendar, Start Date or End Date.

General Enrollment Information

Tool Search: Enrollments

Under General Enrollment Information, some fields are specific to the state of Michigan. These fields are further described below. All other fields in General Enrollment Information do not require unique, state-specific data. However, many of these fields are required and data entry in these fields is necessary. For more information on these fields, see the Enrollments article.

Michigan General Enrollment Information Editor

Local Start Status

Start Status indicates the reason for beginning the student enrollment, whether entering the school or district or continuing on from another grade. When creating an enrollment for a student, students must have a Start Date and a Start Status. An enrollment cannot be saved without an entry in these fields.

Michigan Ed-Fi Data v3.1 - Student Special Education Program Associations

Local End Status

The End Status indicates the reason a prior year student in grade 7-12 has not enrolled in the district during the current school year. All students with an end-dated enrollment must also have an End Status assigned to the end-dated enrollment. Users are not allowed to save an end-dated enrollment without an assigned End Status. However, this condition does not apply if the No Show checkbox is marked. If the No Show checkbox is marked, you can enter an End Status without an End Date.

No Show

A no show student is defined as a student who is enrolled in the school but never attends class and does not officially withdraw from the school. These enrollment records are ended after a certain number of school days, depending on district and/or state policy.

Michigan Ed-Fi Data v3.1 - Parents
Michigan Ed-Fi Data v3.1 - Student Education Organization Responsibility Association
Michigan Ed-Fi Data v3.1 - Student Special Education Program Associations

Service Type

The Service Type is used to indicate the type of enrollment and the intended service the student receives. Service Types include: (P) Primary, (S) Partial, and (N) Special Ed Services.

▶ Click here to expand...

To ensure you are assigning the proper service types to enrollments, please see your state documentation for more information.

Code	Description	Notes
Service Types		

Code	Description	Notes
P	Primary	This type of enrollment is a student's primary enrollment. This is the school the student attends all or most of the time. System settings determine whether a student can have multiple active primary enrollments at one time.
S	Partial	A partial enrollment indicates a student attends a school *part* of the time. One example might be a middle school student who attends a high school class and has a partial enrollment at the high school.
N	Special Ed Services	A Special Education enrollment indicates the student ONLY attends the school to receive special educations services.

State Reporting Fields

Data entries made in the State Reporting Fields section of the Enrollments tab are unique to the state of Michigan and may directly affect the way students are reported to the state department of education.

Updates to State Reporting fields WILL overwrite previously entered data. To preserve this historical information, create a new Enrollment record when changes are needed. Deleting an Enrollment record is NOT recommended.

Michigan Enrollment State Reporting Fields

State Exclude

Excludes a student from reporting on certain Michigan state reporting extracts and resources.

▶ Click here to expand...

Database Location:

Enrollment.stateExclude

Ad Hoc Inquiries:

Student > Learner > Active Enrollment > State Reporting elements > **stateExclude**

Student > Learner > All Enrollments > State Reporting elements > **stateExclude**

Notes:

> Be aware that some reports may not recognize State Exclude preferences. Some reports may specify to include all enrollments, even enrollments marked as State Exclude. In that case, the enrollment would report in that specific report regardless of what is selected in the State Exclude checkbox.

Early Reading Deficiency Fields

Use the Early Reading Deficiency fields to indicate reading deficiencies in the student. If a reading deficiency was identified for the student at any time during the school year, mark the checkbox. Leave the field blank if there were no identified reading deficiencies.

If a reading deficiency still exists for the student at the end of the current school year, mark the checkbox. Leave the field blank if reading deficiencies no longer exist for the student.

Early Reading Deficiency

Was there a reading deficiency identified any time during the current school year?

[▼]

Is there a reading deficiency that still exists at the end of the current school year?

[▼]

What additional instructional-time grant related activities were delivered to the student?

Before School	During School
☐	☐

After School	Summer Program
