[Course Information Fields](#) | [Course Section Fields](#) | [Section Roster Batch Edit Fields](#)

## Tool Search: Scheduling

The Course, Section, and Roster Batch Edit tabs all contain fields that are specific to the state of Idaho. These fields can be used for district-tracking purposes or these fields may directly affect state reporting. The information below further defines these state-specific fields to provide guidance in entering data.

See the core [Course Information](#) and [Section Information](#) articles for information on necessary tool rights, available Ad hoc fields, and guidance on adding and printing Course/Section information.

If your district uses Course Masters, the same fields display on the Course Master editor and Course editor.

The Course and Section editors have duplicate fields, e.g., Intended Grade Level. The Course editor fields apply to all of the Sections of the course and should be populated when all of the Sections are identical.

The Section editor fields only need to be populated if a particular section needs to report differently than the Course. Perhaps one section is for a particular group of students only and there are separate codes used for that group. In this situation, the field(s) should be populated at the Section level.

Reports use the values on the Section editor first, if populated; if not populated, the values from the Course editor report.

# Course Information Fields

[Course Name](#) | [State Code](#) | [Instructional Setting](#)

The Course Information editor contains information about courses attached to the selected calendar or school. Many of the Course fields are unique to the state of Idaho. These fields are further described below. All other fields in Course tab do not require unique, state-specific data. However, many of these fields are required and data entry in these fields is necessary.

## State Code

A coded value representing a state-level Course Group. Course Group State is defined as a state-level coding structure used to group a number of local-level course descriptions by major subject areas (e.g., English/Language Arts, Mathematics, etc.) or to indicate individual-level courses.

A course **MUST** have a State Code in order to report on the Student Course Enrollment Extract.

When the State Code field is not populated, the course does not report on the Student Course Enrollment extract. This might be the practice for courses where attendance is not taken (in elementary AM/PM courses, for example) or in Homeroom courses where attendance is taken but districts do not want to report those courses on the extract.

## Course Section Fields

[Section Number](#) | [Course Type](#)

The Course Sections tool lists all sections for the selected course and basic identifying information about that section - the assigned primary teacher, where the section meets, in what term and for what period, and how many students are in each section. Click the **Edit** link to display information about that section.

The screenshot shows the 'Course Sections' page for the course 'ENG606 DualCredit Eng12B/Eng102(LCSC)'. The table lists three sections:

Section	Teacher	Room	Term	Schedule	Period	Seats Taken	Scheduling Group	Guest Access	Seating Charts	
1	Staff, Amber	IDLA	SEM1	Daily	DC/IDLA	(0)			<a href="#">Grade Book</a>	<a href="#">Seating Charts</a>

3	Staff, Amber	IDLA	SEM1	Daily	DC/IDLA	(0)			<a href="#">Grade Book</a>	<a href="#">Seating Charts</a>

A red arrow points to the 'Add a Section' link at the bottom of the table. The detailed view for section 1 is shown in a modal window:

## Section Roster Batch Edit Fields

[Start Date](#) | [End Date](#) | [Exit Reason](#)

The Roster Batch Edit tool provides a way to mass update the existing roster for the selected course section. A school administrator or counselor can change the existing roster for the section, determining the credit the student receives for the course and whether or not the student will need to repeat the course.

Active Students: 1									
Name	Student #	Start Date	End Date	Repeat	No Credit	Dual Credit	Credit Recovery	Course	Exit Reason
12 Student, Ray Anne	123456789	08/23/2021		<input type="checkbox"/>					

Dropped Students: 0									
Name	Student #	Start Date	End Date	Repeat	No Credit	Dual Credit	Credit Recovery	Course	Exit Reason

## Start Date

Lists the first date the student was scheduled into the course section. This is the same date that displays on the Walk-In Scheduler. This field may be blank if the student was enrolled in the section on the first day of the term.
