

# Scheduling Components (Idaho)

Last Modified on 10/21/2024 8:21 am CD

#### Course Information Fields | Course Section Fields | Section Roster Batch Edit Fields

#### Tool Search: Scheduling

The Course, Section, and Roster Batch Edit tabs all contain fields that are specific to the state of Idaho. These fields can be used for district-tracking purposes or these fields may directly affect state reporting. The information below further defines these state-specific fields to provide guidance in entering data.

See the core Course Information and Section Information articles for information on necessary tool rights, available Ad hoc fields, and guidance on adding and printing Course/Section information.

If your district uses Course Masters, the same fields display on the Course Master editor and Course editor.

The Course and Section editors have duplicate fields, e.g., Intended Grade Level. The Course editor fields apply to all of the Sections of the course and should be populated when all of the Sections are identical.

The Section editor fields only need to be populated if a particular section needs to report differently than the Course. Perhaps one section is for a particular group of students only and there are separate codes used for that group. In this situation, the field(s) should be populated at the Section level.

Reports use the values on the Section editor first, if populated; if not populated, the values from the Course editor report.

# **Course Information Fields**

#### Course Name | State Code | Instructional Setting

The Course Information editor contains information about courses attached to the selected calendar or school. Many of the Course fields are unique to the state of Idaho. These fields are further described below. All other fields in Course tab do not require unique, state-specific data. However, many of these fields are required and data entry in these fields is necessary.

| Course Information රු                                   |                                  |                          |   |

## **Course Name**

Reports the name of the course.

This value reports as part of the **Section Alias** value on the reports listed below, which is a concatenated value of the Course Name and the Section Number.

Course.name

Section.number

#### Ad hoc Inquiries:

Course > Course Information > courseInfo.courseName

Course > Section Information >sectionInfo.sectionNumber

#### **Reports:**

- Course Master Schedule (ISEE Extracts)
- Student Course Enrollment
- Staff Assignment

## **State Code**

A coded value representing a state-level Course Group. Course Group State is defined as a statelevel coding structure used to group a number of local-level course descriptions by major subject areas (e.g., English/Language Arts, Mathematics, etc.) or to indicate individual-level courses.

A course MUST have a State Code in order to report on the Student Course Enrollment Extract.

When the State Code field is not populated, the course does not report on the Student Course Enrollment extract. This might be the practice for courses where attendance is not taken (in elementary AM/PM courses, for example) or in Homeroom courses where attendance is taken but districts do not want to report those courses on the extract.

### **Section Number**

Reports the number of the Course Section.

This value reports as part of the **Section Alias** value on the reports listed below, which is a concatenated value of the Course Name and the Section Number.

Click here to expand...

**Database Location:** 

Course.name

Section.number

#### Ad hoc Inquiries:

Course > Course Information > courseInfo.courseName

Course > Section Information >sectionInfo.sectionNumber

#### **Reports:**

- Course Master Schedule (ISEE Extracts)
- Student Course Enrollment
- Staff Assignment

# **Course Type**

Indicates the structure and environment of the course - how student work is expected to be completed and the student's interaction with a teacher or other certificated staff person.

#### Click here to expand...

| Code | Description                     |
|------|---------------------------------|
| R    | Regular Class                   |
| 1    | Independent Study               |
| V    | ILDA/Virtual/Distance<br>Course |

# **Section Roster Batch Edit Fields**

Start Date | End Date | Exit Reason

The Roster Batch Edit tool provides a way to mass update the existing roster for the selected course section. A school administrator or counselor can change the existing roster for the section, determining the credit the student receives for the course and whether or not the student will need to repeat the course.
