

# Scheduling Components (Minnesota)

Last Modified on 07/09/2025 8:33 am CDT

[Course Fields](#) | [Course Section Fields](#)

Many of the tabs included in the Scheduling Components contain fields that are specific to the state of Minnesota. These fields can be used for district-tracking purposes or these fields may directly affect state reporting. The information below further defines these state-specific fields to provide guidance in entering data.

## Course Fields

Tool Search: Course

The Course tab contains information about courses attached to this calendar or school. Many of the Course fields are unique to the state of Minnesota. These fields are further described below.

All other fields in Course tab do not require unique, state-specific data. However, many of these fields are required and data entry in these fields is necessary. For more information on these fields, see the [Course](#) article.

## Course Section Fields

Tool Search: Sections

The Section tab within the Course folder is provided as a view screen, listing all sections for the selected course and basic identifying information about that section - the assigned primary teacher, where the section meets, in what term and for what period, and how many students are in each section.

Once the user selects the Edit link next to a Section number, additional tabs display, providing more details about that course section. Scheduling staff, principals, counselors, etc. can use the tools available in this view to manage course section information - entering grades, creating rosters, recording attendance, etc.

Many of the Section fields are unique to the state of Minnesota. These fields are further described below. All other fields in Section tab do not require unique, state-specific data. However, many of these fields are required and data entry in these fields is necessary. For more information on these fields, see the [Sections](#) article.

The screenshot shows the 'Section Editor' form for Minnesota. It includes fields for SectionID (586216), Section Number (1), Max Students (12), Room (101), Hide Standards On Portal, Online Learning (Override), Primary Teacher (Teacher, A), Period Count Override, Period Minutes Override, Site-Based Initiative/Impl Override, Primary Teaching Mode Override, Non-Primary Teaching Mode Override, Instruction Method Override, Ed-Fi Term Descriptor Override, Physical Room Size, Teacher Display Name (Teacher, A), Lunch Count, Milk Count, Adult Count, Custom Count 1, Custom Count 2, Custom Count 3, Skinny Seq, Team, Homeroom, Advisory, and External LMS Exclude. A timestamp at the bottom right indicates the form was modified by Admin on 11/24/2021 at 14:27.
