Tool Search: Early Childhood

The Early Childhood tool lists student information related to programs designed to improve the health, social-emotional and cognitive outcomes for all students from birth through third grade, using federal guidelines. Multiple records can be entered for each student if appropriate. Further information on these fields is described below. For information on all other fields, please see the [Core Early Learning](#) article.

State reported fields for Screener and Screener Exit Status have moved from Early Childhood to a new Program Participation named Preschool Screener. See the [Preschool Screener \(Minnesota\)](#) article for more information.
