Release notes provide the applicable personnel the ability to review enhancements, modifications, and regulated changes prior to accepting an updated. It is advised that users review the release notes carefully and alert appropriate district staff to changes in Campus.

The Release Information (https://kb.infinitecampus.com/help/release-information) article lists the approximate release date of all Campus releases. See the Rx Pack - Campus.2124 (https://kb.infinitecampus.com/help/rx-pack-campus2124) article for a list of Rx releases to the Campus.2124 release pack. Questions or concerns regarding an update should be directed to Campus Support. Technical Information

See the Technical Information - Release Pack Campus.2124 (https://kb.infinitecampus.com/help/technical-information-release-pack-campus2124) article for a list of schema changes in this release.

Activity Registration

New Option to Copy an Activity (SIS-146194) **[Enhancement]**

To save time, users (with Add tool rights) can now copy an existing Activity in the Activity Dashboard and the Activity Monitor. When you copy an Activity, Campus creates a new Activity by duplicating most of the information from the existing activity. Registration and Activity dates are not copied and must be entered. Campus verifies Activity Owners, Ad Hoc filters and Custom Forms are still active and requires you to update that information if necessary.

Attendance

Virtual Attendance Posting Job (SIS-145973)

After taking the Campus.2112 Release, the Virtual Attendance Job was no longer running daily for some districts. This has been corrected.

Article(s): Virtual Attendance Preferences

Path: System Administration > Attendance > Virtual Attendance Preferences

Virtual Attendance Preferences (SIS-147017)

The Attendance Excuse warning that displays when using an attendance code that is not linked to the selected calendar was incorrectly triggering. It has been modified to only trigger when Virtual Attendance Posting is enabled and saved with an incorrect ExcuseID.

Article(s): Virtual Attendance Preferences

Path: System Administration > Attendance > Virtual Attendance Preferences

Blended Learning

Blended Learning Groups - Backdating Error Display (SIS-146592)

When a student has more than one enrollment in the same calendar (first enrollment ended, then second enrollment for re-enrollment), an error/warning message displayed when attempting to backdate a Blended Learning Group assignment. This has been corrected.

Article(s): Blended Learning Group Assignments

Path: Student Information > General > Blended Learning Group Assignments

Campus Instruction

Pass/Fail Color Coding (SIS-123468)

Previously, when accessing the Grade Book as a guest, Pass/Fail color coding was incorrect if the score included a decimal point. This has been corrected.

Article(s): Guest Access to Grade Book

Path: Scheduling > Courses > Section > Grade Book

Positive Attendance - Matching Names (SIS-128116)

Previously, the Positive Attendance tool did not group attendance records correctly for students in the same section with identical names. This has been corrected.

Article(s): Positive Attendance (Instruction)

Path: Instruction > Positive Attendance

Section Groups - Removing User Accounts (SIS-145144)

Previously, if a user had access the Control Center since the 2104 release, their user account could not be deleted because of of automatically-created internal Section Group records. This has been corrected.

Article(s): N/A

Path: Instruction > Control Center

Grades Report - Standards and Tasks (SIS-146820)

Previously, the report editor for the Grades Report sometimes showed standards and tasks that were not assigned to the selected sections. This has been corrected.

Article(s): Grades Report

Path: Instruction > Reports > Grades

End-Dated Teacher Records (SIS-146848)

Previously, if a Primary teacher had an End Date on their Staff History record but Access to Section was set to Unrestricted, the teacher was unable to take attendance. This has been corrected.

Article(s): Staff History

Path: Scheduling > Courses > Section > Staff History

Census

Mailing Labels Report (SIS-146153)

The following modifications have been made to the Mailing Labels Report:

- Ad hoc filters now sort alphabetically.
  - Teacher, Staff and District labels only contain Ad hoc filters for the Census/Staff Data Type.
  - Student labels by Grade & Guardian contain Ad hoc filters for both the Census/Staff Data Type and Student Data Type.
- When a student does not have any relationship records or when a student has relationship records, but not to a person marked as Guardian, the label prints the student's name and the student's address.
- When generating Student by Course/Section labels, Source Calendar, Source Schedule Structure, Source Course and Source Section are now required.

Article(s): Mailing Labels

Path: Census > Reports > Mailing Labels

Enrollments

State End Status, State Start Status (SIS-117614)

Marking the State End Status and State Start Status fields as "Hide" in the Attribute/Dictionary was not removing the fields from the Enrollment editor. This has been corrected.

Marking the Hide checkbox on an attribute causes the Required checkbox to become inactive.

This change does NOT affect BIE or State Edition.

Article(s): Attribute/Dictionary; Enrollments

Path: System Administration > Custom > Attribute/Dictionary; Student Information > General > Enrollments

Enrollment Status Report (SIS-44389)

When selecting one calendar from the report editor to include in the Enrollment Status Report, the header of the report lists the calendar selected from the report editor, not the calendar selected in the Campus toolbar.

When selecting more than one calendar from the report editor to include in the Enrollment Status Report, the header of the report lists the name and number of the district.

Learner Planning

Draft Special Ed Plans Added to Portal (SIS-144554) **[Enhancement]**

Draft Special Ed Plans can now display as read-only on the Campus Parent and Campus Student Portal. From the Special Ed Documents tool, users can choose when a draft Plan will Publish to the Portal. In order to make changes to a draft Plan that is already on the Portal, users will need to remove the document from the Portal first.

Special Ed Caseload Updates (SIS-146558) **[Enhancement]**

Several updates have been made to the Special Ed Caseload, including additional Enrollment validation and format updates to the CSV report layout.

Article: Special Ed Caseload

Path: Student Information > Special Ed > Caseload

Locator

Student Locator - Student Number Assignment (SIS-135937) **[Enhancement]**

The Student Locator now assigns local student numbers based on the Student Number Format Preference.

When the Student Number Format is set to *No Auto Numbering*, a user can enter a specific student ID number.

When the Student Number Format is set to any of the other options:

- When the person already exists in the database and is already assigned a Student Number, modification of that number is not possible (the field displays in gray text and edits cannot be made).
- When the person already exists in the database, but a Student Number is NOT assigned, red text displays indicating the number is Automatically Generated.

The State ID assignment is managed by the Student State ID Method System Preference and has not been changed with this update.

Messenger

Messenger (Email)– Chinese characters supported in email messages (SIS-135143)
[Enhancement]

Campus Messenger tools have been updated to support the use of Chinese characters for email messages only. Chinese characters are not supported in Voice/Text. This update applies to the following messenger tools:

- Attendance Messenger
- Behavior Messenger
- Class Messenger
- Emergency Messenger
- Grades Messenger
- Message Builder
- Missing Assignment Messenger
- POS Account Messenger
- Scheduling Messenger
- School Choice Messenger
- Staff Messenger

OneRoster

OneRoster Performance (SIS-142338)

Student data is now cached to improve the performance of the Student and Students by School endpoints in OneRoster 1.1 and 1.2. Student-related records are cached and updated hourly from 5:00 AM to 4:00 PM and once overnight at 4:10 AM (local time). The specific time each refresh is triggered is dependent on the system restart time for the district. On non-production environments (sandbox, staging, and training) the cache is updated only nightly.

Examples of these changes include:

- Creating or deleting a student's Person record.
- Creating, deleting, or updating a student's User Account.
- Creating or deleting an Enrollment in the active year for a student.

- Updating the following data for a student: Student Number, State ID, Grade Level, or Username.
- Changes to a student's enrollment status, whether by creating, deleting, or updating an existing enrollment or the status of an enrollment changing based on Start and End Dates.
- Changes to an External LMS Exclude checkbox that affects the student (Enrollment, Grade Level, Calendar, or School).

Article(s): OneRoster API

Path: No Specific Path

OneRoster - IMS Global API for Assessments, Ability to Import Scores (SIS-145480) (SIS-145781) **[Enhancement]**

Assessment results functionality with an API established through IMS Global is now available and Campus has completed testing with Pearson Ames Web. Using OneRoster technology, vendors can now import assessment data to state and district installations.

At this time, a manual connection to assessment vendors is required through the Learning Interoperability tool. A connection needs to be created, then the Assessment toggle can be set to Yes. Districts should verify with their assessments vendor to determine whether they are able to utilize this API for other assessments.

In future releases, assessment vendors will be added to the list of available Campus Digital Learning partners.

Refresh OneRoster Cache (SIS-146150) **[Enhancement]**

A button called "Refresh OneRoster Cache" has been added to the bottom of the Learning Interoperability/Digital Learning Application Configuration tool. A process alert is sent when the refresh is complete. A refresh cannot be triggered if one is already in progress.

Online Payments

Deposit Reporter Export (SIS-146015) **[Enhancement]**

Now users can export detailed information from the Deposit Reporter. Report information can be exported as an Excel, PDF or CSV file. The exported report only includes the columns that are visible on the screen. As part of this update, information on the Deposit Detail panel can now be exported as a CSV file.

New Bank Reconciliation Option for Viewing Split Disbursements (SIS-147150)

Districts can now view exactly how transactions are being deposited into their bank accounts. Currently, the Deposit Reporter combines ACH and credit card transactions. However, a new option called "Bank Reconciliation" was added that allows districts to generate an Excel report that separates the deposit. For example, when a $20 deposit displays in the Deposit Reporter, the Bank Reconciliation file will display 2 deposits: ACH - $15.00 and CC- $5.00.

Records Transfer

Student enrollmentID Added to Requesting and Releasing Districts Records Transfer (SIS-142417) **[Enhancement]**

A district's student enrollmentID is now included in both the requesting (requestEnrollmentID) and release district's (releaseEnrollmentID) records when transferring records. This update helps to ensure the proper enrollment records are matched for each student between districts.

Report Cards

Report Preferences (SIS-146240) **[Enhancement]**

The Publish to Portal label has been changed to Available In, and now allows the selection of Instruction (previously labeled as Available in Campus Instruction) and Portal.

- When Instruction is marked, teachers have the ability to generate Report Cards.
- When Portal is marked, reports are available in Campus Parent and Campus Student.

Reports that were marked as Publish in Portal and Available in Campus Instruction were converted to also be marked for Instruction and Portal.

This change applies to Report Cards, Schedules, Transcripts and eTranscript.

Search

Search Bar in New Look of Infinite Campus Updated to Use AND Operator for Multi-Term Searches (SIS-146462) **[Enhancement]**

The search bar in the New Look and Feel of Infinite Campus has been updated to use an AND operator for multi-term searches. This update reduces the amount of results a user receives while improving the accuracy of multi-term searches.

For example, when entering text into the search bar, typing 'survey' would begin showing results for items matching this term but adding 'designer' as a second term would narrow results to items matching 'survey designer' (survey AND designer).

Nevada IEP Updates (SIS-143411)

Several updates have been made to the Nevada IEP, including a new print format (NV IEP 2021). The questions on the CRT Alternate Assessment editor have been updated. A Sequence field has been added to the Specially Designed Instruction, Supplementary Aids and Services, and Related Services editors. Upon Amending the IEP, validation has been removed that would automatically change the End Date on the Education Plan editor.

A new warning message displays when the text field on the Statewide and District wide Assessment is not filled out upon save. This update impacts the 2018.3, 2020, and 2021 print formats.
