Tool Search: Consolidated Report Card

On-track attendance shares the percentage of students who are not chronically absent. Students must be present and prepared to learn in order to succeed academically. Chronically absent students are those students who are absent for any reason (excused or unexcused), such as illness or out-of-school suspension, for 10% or more of a school's total school time between October 1 and May 31.

Attendance Report -Residence

Logic

This section of the BIE Consolidated Report Card & Individual School Report Card uses student data records stored on the [BIE Attendance Data Mart certification table](#).

> For more information about the data marts, their data tables, and the logic that is used, refer to the [BIE Attendance Data Mart](#) and [Data Mart Workflow](#) articles.

Report calculation used:

For each section, an overall percentage is displayed. This percentage is further broken down into demographic subgroups that students may fall into. For each percentage displayed, the following calculation is used:

Individual School Calculation:

(Population of students in subgroup / Population of 'All Students')*100

BIE Calculation:

(Population of students in subgroup across all BIE schools / Population of 'All Students' across all BIE schools)*100

On-Track Attendance Field Descriptions

If a subgroup has **ten or fewer** students, it will display a lock icon to protect student privacy and prevent student identification.

Data reported for the Attendance section of the BIE Consolidated Report Card & Individual School Report Card is collected directly from the BIE Attendance Data Mart. Additional information about each field included in this report can be found in the BIE Attendance Data Mart Reported Fields section of the BIE Attendance Data Mart article.
