Graduation rates represent the percentage of students who graduated high school with a regular diploma. These rates are calculated as prescribed by the National Center for Education Statistics (NCES), which provides data to the federal reporting system. The Bureau of Indian Education uses the 4-year adjusted cohort graduation rate which is defined as the number of first-time 9th grades who graduate with a regular high school diploma in 4 years, in accordance with NCES requirements.

Graduation rates do not include students who earn alternate diplomas or certificates.

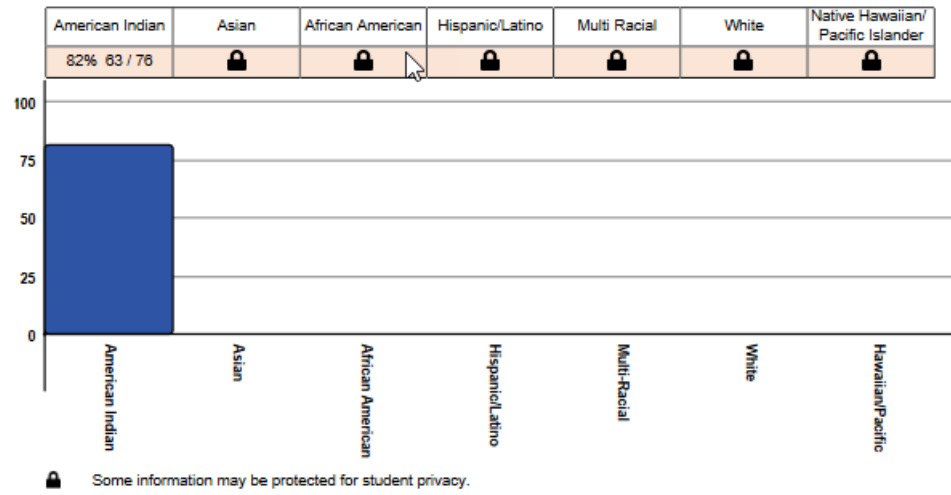

## Graduation Rates

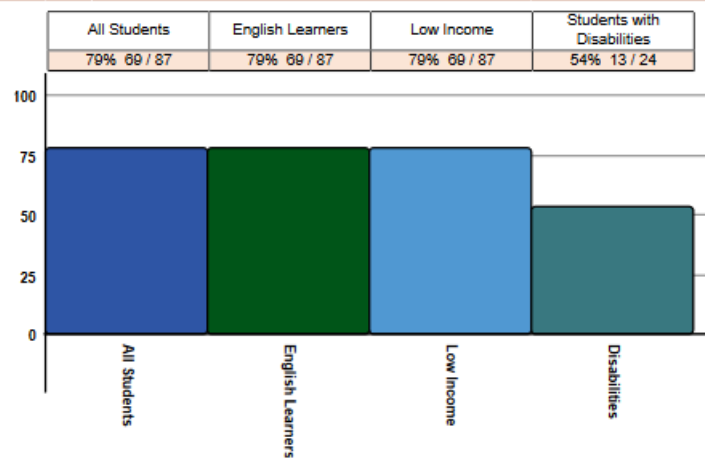

79.3%

The four-year graduation rate represents who received a regular diploma in four years or less, from the time in which they entered ninth grade

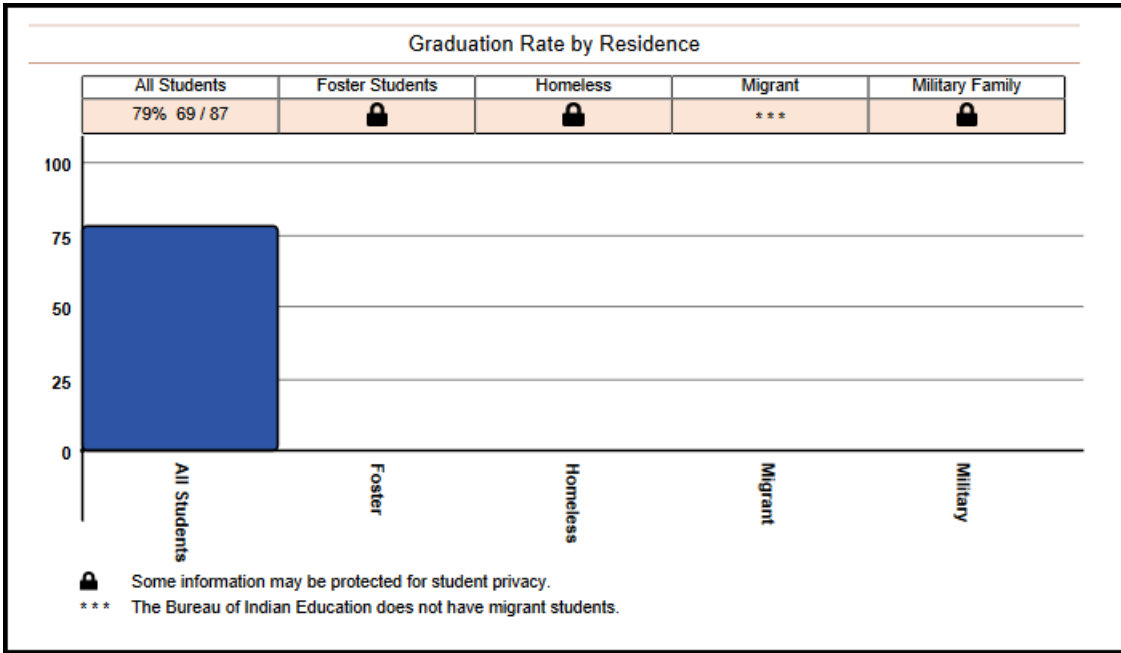

### Graduation Rate by Race/Ethnicity

### Graduation Rate by Other Characteristics

## Logic

This section of the BIE Consolidated Report Card & Individual School Report Card uses student data records stored on the [BIE Graduation Rate Data Mart](#) certification table.

Refer to the [BIE Graduation Rate Data Mart](#) and [Data Mart Workflow](#) articles for more information about the data marts, their data tables and logic.

### Report calculation used:

The Graduation Rates section of the BIE Consolidated Report Card uses the following calculations:

#### Individual School Calculation:

$$(\text{Population of students in subgroup} / \text{Population of 'All Students'}) * 100$$

#### BIE Calculation:

$$(\text{Population of students in subgroup across all BIE schools} / \text{Population of 'All Students' across all BIE schools}) * 100$$
