Example: $(1614 \text{ Early Career Teachers} / 3522 \text{ Total Teachers}) * 100 = 45.83\%$

Field Descriptions

An overall staff count is displayed at the top of the section. This count is broken down by BIE Title and further calculated to reflect the overall percentage of Early Career Educators in a school or across the BIE.

Cherokee Central High School 2023-2024 Report Card

Early Career Educators: Educators with four or less years of experience.

An **Emergency Certificate** is issued to an educator who holds, or is eligible to hold, a teaching license but has not met the requirements for certification in a specific content area. An emergency certificate is issued only at the request of the hiring authority (e.g. school/LEA). Emergency certificates are generally valid for up to three years (or up to six years in the case of skilled and technical science teachers) unless revoked. Emergency certificates are not issued for all content areas.

Out-of-field teachers taught at least one course outside their licensed content area. While teachers holding an emergency certificate or certificate of eligibility are identified as teaching out-of-field in this analysis, these licensed educators are working towards full certification in the appropriate content areas.

Other Credential Educators hold a Temporary, Emergency, or Provisional License/Certification type AND they are teaching one or more courses as a primary or secondary teacher in the subject area of the credential.
